The foul and debased creature that presides over the columns of the Oregonian, not satisfied with his pigmy attempts to bring reproach upon the names of great and good men yet living, insults and assails the memory of the great Webster by blasphemously thrusting his name into the same category with those of whom he only speaks with loathing and contempt. The man who would lisp the name of that great and good man in such a connection, is neither fit to live nor to die. He ought to have a two-inch white oak plank nailed to his back with 40-penny spikes, and on it carved in letters of living light, FIEND OF FIENDS; and be forced to wear it as a warning to all other pimps of depravity, that none might ever afterwards be guilty of like sacrilegious utterances.

ARKANSAS REDEEMED!—Kentucky redeems herself from the foul embrace of abolitionism and Arkansas falls into line. In the latter state at a recent general election, everything radical was incontinently retired to the peaceful shades of private life. We have always contended that when the bayonets were withdrawn from interference in the elections South not a rad could be elected constable. The late elections in Kentucky and Arkansas fully vindicate our judgement in the premises. The so called Constitutional Amendment does not stand the show of a whoop in Hades for adoption. Mark that.

GRANT COUNTY USURPERS OUSTED.—Brents and McKean, through whose votes the so called Constitutional Amendment was adopted(?) have finally been ousted and the Democratic members who came lumbering down from Grant with two hundred majority at their backs, installed in their stead. Extract the names of these worthies (Brents and McKean) from the vote on the "amendment" and that bantling of corruption and perfidy falls still born so far as Oregon is concerned.

NEW PAPER.—D. C. Ireland Esq. proposes to start a paper at Oregon City on the 27th of next month to be called the "Oregon City Enterprise." It has not transpired what the politics of the concern will be. The proprietor is equal to the task of adjusting that matter without any difficulty. He some time since quit the proprietorship of a radical Democratic paper, and engaged to drive the quill for the Oregonian, which paper has more than once been compelled to draw on the Democratic party for brains to keep the thing alive.

We wish the Enterprise abundant pecuniary prosperity. Oregon City is a good field for such an undertaking.

THE Boise Statesman says that the late election in Montana Territory went overwhelmingly Democratic. "My policy" goes marching on. At every election held outside of fanatical New England, where no one proposed that Democracy and right had the ghost of a show, the Democracy has been fully vindicated and crowned with success.

THEY talk of ousting Hon. Mr. Caldwell, Senator from Josephine on the ground of ineligibility. They claim that he is not a resident of that County. He is a Democrat. The House retains Catalogue Laughlin in his seat, while if they regard his oath as being worth anything they must know that he is not eligible to a seat. He is Black.

THE OTHER SIDE OF THE PICTURE.

The Oregonian worries and fusses over the fact that South Carolina is entitled to as many Representatives as California, while having a smaller voting population. Like most of the managers of his party, the Oregonian man never sees the other side of the picture until it is too late to avert the humiliation that must follow exposure. He draws a fearful picture of the injustice of the inequality as between California and South Carolina. Now this same editor expects to go to New England when he dies—thinks there is nothing to compare with the wisdom, perfection, equality and justice and perfect fairness of the people of that section; indeed it is his opinion that they would scorn any advantage of the people of sister states. Now for the other side of the picture. Ohio has a population of 2,339,599, and has only two Senators in the Congress of the United States, while New England, with a population of only a fraction more has 12 Senators. The single State of New York has a population of hundreds of thousands more than the entire six New England States, and yet is represented in the Senate of the United States by one sixth of the number of members. What sort of equality is this? The Radical howlers are pleased with this state of things, because New York generally goes Democratic, while it is as natural for the wooden nutmeg States to go republican as it is for Democrats to loathe and condemn the meanness, bigotry, stupidity and knavery of the people of that section.

Beast Butler, Sore Head Sumner, Cotton thief Banks, *id gene omne* hail from that quarter and are admired by the Oregonian man and his kind, just as naturally as they despise the typical South Carolinaian for his bravery, intelligence, nobleness of soul, and tenaciousness of honor.

THE ELECTROPATHIC INSTITUTE.

645 Washington Street.
 DR. J. H. JOSSELYN, M. D., RESIDENT PHYSICIAN.

THE DIRECTORS OF THIS CELEBRATED Medical Institute wish to thank the public for the generous manner in which they have sustained the Resident Physician with their patronage. It is now six years since the Institute was established; during that time there has been over THIRTY THOUSAND CONSULTATIONS, and in all cases, where the disease was curable.

A PERFECT AND PERMANENT CURE

Has been performed. Malicious charlatans have opened traps in close proximity to the Institute, adopting similar names hoping to attract the unwary; but their failure to do so is perfectly apparent—for the business has not been effected in the least, but has gone on increasing its usefulness and profits in regular ratio. The Resident Physician has by careful study and experience within the last few years been successful in discovering new electric remedies which are far superior to any before used in the healing art, and he can WARRANT THEM TO CURE
 All cases for which they are used, or make no charge for services. They will be forwarded to any place in the Pacific States upon the

receipt of a letter stating the disease with symptoms, the age and sex of the patient.

THE FEMALE MEDICINE.

Discovered and used by the Resident Physician, are the only remedies which are safe and sure to have the effect. The large number of cases in which they have been used, is a guarantee of their success.
 Great care should be taken in visiting the Institute, to remember the name,

J. H. JOSSELYN, M. D.

RESIDENT PHYSICIAN.

Below are a few Of the Opinions of the Press of California, which are submitted to the Public:

[From the Red Bluff Independent of January 24th, 1866.

ELECTROPATHY.—The readers of this article are particularly requested to read the advertisement of the "Electro-pathic Institute," 645 Washington street, San Francisco, to be found in another column of this paper. The remarkable cures that have been effected by Dr. J. H. Josselyn, the Resident Physician of the Institute during the past six years, has gained for this establishment a reputation that has never been equalled by any medical establishment on this coast. In cases of female irregularities especially, Dr. Josselyn has gained an enviable reputation, and the spacious parlors of the Institute are continually occupied by ladies seeking relief from their troubles.

Dr. Josselyn pays particular attention to the treatment of cases in the interior of the State, and upon receipt of a full description of the disease of which the applicant is so unfortunate as to be afflicted, accompanied with the real or a fictitious address, sends per Wells, Fargo & Co., medicines that he warrants to cure the disease, without the slightest injury to the system. He uses no mercury or mineral poisons. The remedies are known as "Electric," and most of them are of his own discovery. Persons placing themselves under the treatment of Dr. J. H. Josselyn may rely upon not only receiving correct and successful treatment but upon his discretion and secrecy.

[From the Democratic Standard, Jan. 31, 1866.]

GLAD TO HEAR IT.—For several months past Dr. J. H. Josselyn, for the last six years so well known as the Resident Physician of the Electro-pathic Institute, 645 Washington street, San Francisco, has contemplated retiring from his position for the purpose of accepting the position of visiting physician in one of the large hospitals in his native state, Massachusetts. The matter becoming known to a number of scientific gentlemen of San Francisco, who feeling that a great loss would occur to the community by the withdrawal of a physician of such scientific attainments as Dr. Josselyn, a meeting was called at which resolutions highly laudatory of the Doctors abilities were passed, and a committee of gentlemen appointed to wait upon him, present the resolutions, and urge him to give up the intention of leaving the State, and continue in his present position. The arguments of the committee facilitated by certain pecuniary propositions, made by the Directors of the Institute, have induced the Doctor to retain his position as Resident Physician. We announce the success of the negotiations with satisfaction as it would have been difficult for the numerous patients that heretofore relied on the Doctor for scientific and successful treatment to have found another physician capable of filling his place.

[From the Yreka Union, February 10, 66.]

THE BEST IS THE CHEAPEST.—This adage will apply as well to the practice of medicine as to the purchase of merchandise. Thousands on this coast, on this coast, during the past fifteen years, have had their constitution ruined by refusing treatment at the hands of first-class physicians, simply because a gang of humbugs, styling themselves doctors, and who are almost destitute of common sense, much more of medical knowledge, offer to treat those who are sick for a less sum than a regular practitioner. A man that would allow a quack to administer medicine to him, is worse than an idiot, for in nine cases out of ten, the medicine so given, instead of curing the disease, makes the patient worse and does permanent injury to the victim, and oftentimes to such an extent as to prevent the possibility of curing the original disease. The fact is that no person should place himself in charge of a physician unless he has strong proofs that the doctor is a regular graduate from some well reputed Medical College. The number of medical humbugs in San Francisco, is perfectly enormous not more than two of the advertised physicians have a diploma. Dr. J. H. Josselyn, Resident physician of the Electro-pathic Institute, 645, Washington street, is one of these, and is prepared at all times to exhibit his diplomas.

CAUTION.

Persons seeking the Electro-pathic Institute, should be careful to remember the name and number.

on the sign. With these remarks we leave the interest of the Institute with the public, asking only the same generous confidence and patronage, thus far awarded to it. The record shows over thirty thousand consultations, and a very large amount of suffering relieved.

Persons wishing to consult the Resident Physician by Letter, can do so with the utmost confidence, and can, if they wish, have Electric Remedies for any disease sent to all parts of the State; all Remedies sent from the Institute warranted to be effectual. All letters must be addressed plainly J. H. JOSSELYN, M. D. Box 1945, San Francisco Cal. All letters will be destroyed or returned, as directed by the writer. oct 2 no 35. ly
