PROFOUND LOGIC.

The Unionist assumes that Democrats are "doomed to political banishment" because they dared to raise their voices during the late bloody crusade, for peace !

Let us examine this thing a little. In 1847, the United States was at war with a foreign enemy-Mexico. The "martyr" President was then serving his only term in Congress. In conjunction with Tom Corwin, Wm. H. Seward, Lewis D. Campbell and in fact all of the great lights of the party then opposed to the Democracy, Mr. Lincoln opposed that war with might and main-his voice was for peace. On one occasion, when there was a bill up before the House providing supplies for our brave soldiers in Mexico, he not only voted agaiust it, but said in a speech against the measure that "never by a vote of his should as much as a peck of buckwheat bran be appropriated for such purposes." He was not only for peace on any terms, but he would starve our soldiers to death, simply for the crime of enlisting in their country's service to repel the wanton eneroachments upon our soil and insults to our flag, of a foreign foe, Tom Corwin publicly declared that had he the power "he would welcome our soldiers with bloody hands to hospitable graves." Were these men doomed to political banishment Let us see. In 1860 Abraham Lincoln was elected President of the United States and immediately made Seward Premeir of his Cabinet, and sent Corwin as Minister to Mexico. In 1864 "Old Abe" was reelected when he retained Seward and Corwin in their places and the party that now dooms Democrats to eternal infamy for counselling peace among the people of the same country and same race, said "Amen." Truly a bright future awaits the Democracy since desiring peace between brothers is all that can be alleged against it.

Speaking of the Mexican war, old Josh Giddings said:

"But they (his friends) would permit him to say that he never had and never would had so long denounced as wicked and bar

A RELIGIOUS paper enthusiastically announces that two of the Judges of the Supreme Court of the United States cannot live long-will scarcely be able to ever again sit in their capacities as Judges; they being advanced in years and grown feeble in consequence of protracted ail ments. The same paper concludes, with remembered that the colored population in blasphemous satisfaction, that the anticipated providential disqualification of the said two Judges will leave a radical majority on the Supreme bench. It is among the least of the fiendish manifestations of latter day Christians to invoke the dires curses of God Almighty upon the heads were Yankees from the North who had of all who regard their solemn oath as in anywise binding upon them, or who square their actions thereby.

Linsley, the clerical fiend who beat his little son absolutely to death for refusing to say his prayers, would doubtless join enthusiastically in a demand for a more stringent Sunday Law.

Sunday Law enthusiasts dwell with great unction upon the Scriptural injunction to rest on the Sabbath or seventh day, and seem to lose sight of the equally imperitive command which says: "Six days shalt thou work." We have been curious to learn which, in the estimation of these furious Sunday Law advocates, was guilty of the greater immorality, the man who idled away the six days and observed the seventh, or he who worked the allotted six days including the seventh. As well might we attempt to run Christianity by steam, as to run and regulate it by law.

Though the notions once entertained respecting man's obligations respecting the observance of the Sabbath have undergone great modifications and mutations, yet there are those still living who are so far behind this age of progress as to clamor for the antique puritan order of things when it was made by statute a penal offence to kiss one's wite on the Sabbath day.

Just such beings, but a few years since, adduced labored arguments to prove that printing, gunpowder, vaccination, railroads and telegraphs were inventions of the devil, himself.

A SLIGHT ERROR .- In noticing the Gold-cein-tax case lately decided by the Supreme Court of the United States last week, we were in error in stating that it was the Lane county case which had been so decided. The decision in effect however, covers that case, and sustains the people as we then stated.

I am confident that through the blessing of God, it saved me "Lee and his Generals" a biographical from the cholers during the summer of 1843. Travelling throug heat, dust, toil, change of diet and constant exposure to an infected atmosphere, my system was daily predisposed to dysentery attacks, accompanied with pain, for which the Pain Killer was a sovereign rem edy, one tablespoonfull curing the worst case in an hour, or at most, half a doy!
