

**ODDS AND ENDS.**

A Yankee has arrived in Paris, who has made half a million dollars in the manufacture of paper collars.

The Hudson Bay Company have sent to Montreal this season sixteen thousand and four hundred bales of buffalo robes.

In 1740, England imported 2,275 tons of iron from America. Now she sends us hundreds of thousand of tons every year.

The copper products of the world is ninety thousand tons a year, forty-eight thousand tons of which are produced in Chili.

Congress contemplates the building of telegraph lines over the country under the direction of the Post Office Department.

The number of patents now issued from the Patent Office, at Washington, is two hundred per week, or ten thousand per annum.

A haunted house is a tenement of any number of ordinary stories, to which is added an extraordinary one, in the form of a ghost story.

Miss Sue Robinson, formerly so popular and so long disappeared from the California stage, is at the Opera House, Virginia City, Nevada.

**THE BEST BOARD OF HEALTH.**—The New Bedford Mercury says: "The hosts of the Parker House, in this city, believe that cleanliness in their establishment is quite as important as a good bill of fare, and so neglect neither. Early, each morning, while yet the stars are twinkling, an ancient Irish Bridget busies herself with mop and broom and dust-pan. Recently, an early rising boarder in the hotel, in passing the dame, remarked: "Well, Bridget, you mean to keep the halls clean." "Yes," quickly responded Biddy; "for, indeed, a clean floor is a true board of health."

**A BOTTLE OF BRANDY PER DAY.**—The London Review says: "We have heard a rather good story of Bismark. He is said to be partial to brandy, and before leaving Berlin for the seat of war a little son of his asked him how long he was to be away. He replied that he did not know. Thereupon a servant came in to inquire how many bottles of cognac were to be packed up in the Count's luggage. 'Twenty-four,' was the answer. 'Ah, papa,' cried out the 'terrible infant,' 'now I know how long you are to be from home—twenty-four days.'

**BEFORE a court of common pleas,** a case of breach of promise was recently under consideration. The breach between the parties was apparent enough; but, as to the promise, there existed a slight shadow of doubt, until the plaintiff set the matter the matter right as follows:—Question by the defendant's counsel: "Did my client enter into a positive agreement to marry you?" Ans.: "Not exactly; but he courted me a good deal, and he told my sister Jane that he intended to marry in our family."

A Tennessee editor, having a quarrel with a grocer in the village where his paper is published, pitches into his antagonist in most savage style, and says, "He is so mean that he is in the habit of catching flies on his counter, and holding them up by the legs to look in the cracks of their feet to see if they have been stealing any of his musty sugar."

**PAPER.**—The quantity of paper used every year in England represents a weight of two hundred and twenty millions of pounds. France uses one hundred and ninety-five millions of pounds; while the United States, with a much smaller population, consumes more paper than England and France put together—namely, four hundred and forty millions of pounds.

**A FEMINE FREAK.**—The Portland correspondent of the Boston Herald gives the details of a singular freak on the part of a young lady, a resident of a neighboring town, which has just been brought to light, under very ridiculous circumstances. He says:

It seems that frequently during the past year she has been in the habit of getting herself up as an old man and coming to town on the cars. In her disguise, she would stroll about the city to her heart's content, and return home to tell the few friends in the secret of the fun she had enjoyed. If spoken to, she feigned deafness. The venerable form had become quite familiar in our streets, but none dreamed that behind those green goggles sparkled a pair of roguish eyes: that the seedy old coat covered shoulders that might rival those of Venus; that within those tattered unmentionables were the supple and rounded limbs of blooming young womanhood; or that unusual stoop of the "old gentleman" was quite necessary to conceal a certain plumpness about the front part of the waistcoat. But our romantic young heroine came to grief. Protracting her strolls too long the other day, the train was leaving just as she limped into the depot. In her anxiety to get on board she forgot her years and ran after it with such vigor as to astonish the natives. "My hies, Johnny, look at that old coon go it," exclaimed an enthusiastic newsboy; "hain't he a lively old cock!" A smart run enabled the foolish girl to throw herself upon the rear platform, but just as she did so away went her hat, wig and goggles. Two gentlemen on the rear platform were considerably astonished, but the young lady had terminated her fun-loving proclivities in that line.

**MEDICAL ADVERTISEMENTS.**

**French Medical Office.**

DR. JULIEN PERAULT, Dr. of Medicine, of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

Dr. Perrault has pleasure to inform patients and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North East Cor. Montgomery and Sacramento streets, San Francisco. Rooms Nos. 9, 10, 11, first floor, up stairs, entrance, either on Montgomery or Sacramento st.

Dr. Perrault's studies have been almost exclusively devoted to the cure of the various forms of Nervous and physical debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward. Patients laboring under this complaint will complain of one or more of the following symptoms: Nocturnal Emissions, pains in the Back and Head, Weakness of memory and Sight, discharge from the Urethra on going to stool or making water, the Intellectual faculties are Weakened, Loss of memory ensues, Ideas are clouded, and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that sight and hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pains, and numbness of the body. Some of the most common symptoms are pimples in the face, and itching in different parts of the body. Patients suffering from this disease should apply immediately to Dr. PERAULT, either in person or by letter, as he will guarantee a cure of Seminal Emissions and impotence in six to eight weeks.

Patients suffering from Venereal disease in any stage, Gonorrhoea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

Dr. PERAULT's diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic disease can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till they are worn out and discouraged, to call upon us.—Low charges and quick Cures.

Ladies suffering from any Complaint incidental to their sex, can consult the doctor with the assurance of relief.

**FEMALE MONTHLY PILLS.**

Dr. PERAULT is the only agent in California for Dr. Biot's Female monthly pills. Their immense sale has established their reputation as a female remedy, unapproached and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On receipt of five dollars these pills will be sent by mail or express to any part of the world, secure from damage or curiosity.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERAULT, corner of Sacramento and Montgomery sts., Rooms, 10 and 11, or Box 478, P. O. San Francisco, stating the case as minutely as possible, general habits of living, occupation &c. &c.

All communications confidential. 24.
