

I hold that this Government was made on the WHITE basis by WHITE men, for the benefit of WHITE men and their posterity forever, and should be administered by WHITE men, and NONE OTHERS. I do not believe that the Almighty made the world capable of self-government.—DOUGLASS

The Black-and-Tan Dragon and its BEAST.

"And I stood upon the sands of the sea and saw a beast rise up out of the sea having five heads and ten horns, and upon his horns ten crowns, and upon his head the name of blasphemy."
"And the beast which I saw was like unto a leopard, and his feet were like unto the feet of a bear, and his mouth as the mouth of a lion, and the dragon gave him his power and his seat and great authority."
—REVELATIONS, XIII., 1, 2.

Lives there a man so cold and dead,
From beardless boy to hoary head,
Lives there a man in this wide land,
From Pacific's shore to Atlantic's strand,
Lives there a man beneath the sun,
Or under God's eternal throne,
Who does not feel how great this day,
And anxious watch the actors play.
The world looks on with anxious eye,
And Freedom heaves a mournful sigh.
The Dragon, filled with selfish ire,
Then set fair freedom's stage on fire.
It spread, became a sea of flame,
Consuming truth, decency and shame.
It gathered, heaved an upward riden,
Until it licked the stars of heaven;
That all the world might see the sight
Of white man's freedom's funeral light.
The beast Ulysses, blacks and all,
Obedient to the Dragon's call,
Came up through smoke, with hateful smell,
Fresh from the bottom pits of hell.
A legion of black imps he bro't,
That all white men might soon be taught
That when the clouds are fringed with wrath
And Peace is driven from her path,
When rattling thunders shake the sky,
And earth is heaved and lightnings fly,
That boon of Jove—order and law
Is gone for aye. Then power will draw
Its coils around. Freedom must die.
The black-and-tanic Dragon rules
By bonded power and food for fools
And its great beast, clothed with steel,
With his bear foot with iron heel.
His five despotic warrior heads
Have torn fair freedom's guard to shreds.
The ten horns—States have each a crown
As ebony black, speckled white and brown.
The leopard spots of snaky hue
Shine through the false thin gauze of blue.
But brighter than the throne of God,
That burning word shone o'er the sea
Of God's green earth—BLASPHEMY. And
The prayers of all the oppressed land
The prayers were heard by our mighty dead

Our father Washington then prayed
For what he and his peers had made:
"Great God thou overruling power,
Let me not live another hour,
Do me to everlasting fame,
My name in Heaven and earth be shame"
But save, great God save freedom's cause.
Earth's fairest bleeds for broken law."
Then God who rules the world on high,
Beyond the blue and azure sky,
Sent down to earth. The beast was chained
A thousand years. Then peace to reign'd
Democracy—the friend of man.
Then through the courts of heaven ran
The voice of music. And the earth
With odors sweet of angel's breath
Was filled. Blissful that day,
November next the prophets say.

The negro Empire.

The most terrible punishment has been inflicted on the South. They have been subjected to the most galling despotism. They have had all that an American citizen is proud of, taken from them, and for this they are asked to love the perpetrators of these wrongs. There may be those of the radical persuasion and we doubt not but that there are, who would like a fawning cur, lick the hand that strikes them, but such persons are unworthy of the name of an American.

But this is not all that is asked of the white people of the South. They are to have a bayonet government, with the negroes, their former slaves, for their rulers. The negroes will elect twenty senators and sixty representatives. Three million negroes will have ten times as much power in the Senate, as the four million whites in the State of New York. One freedman will counterbalance thirteen whites of the empire State.

These three million liberated African slaves will have twice as much power as New York, Pennsylvania, Ohio Illinois and Indiana—embracing 13,500,000 of our people.

We now pay over one hundred million dollars per year to an army, whose exclusive duty it is to rule the whites and force the ignorant, degraded nigger to vote the radical ticket—duty alike degrading to the soldier, and the white citizen, a cowardly, anti-American, villainous, tyrannical duty: that of domineering over an unarmed and unresisting people, and depriving them, without authority of law, of the right, dear as life to an American—participation in the affairs of government. Aye, worse, governed then by their slaves.

A startling revelation.

It has leaked out in Atlantic prominent political circles, that come what will, the radicals propose to perpetuate the present infamous despotic dynasty. The people of the North are to be overawed intimidated and prevented by military force from voting their sentiments, while the negroes are to be voted by the military of the South.

They have organized the Grand Army of the Republic, with the motto "a radical for President, peaceably if we can, forcibly if we must," and through this secret order they have promulgated this sentiment all over the United States. Even here, in Yamhill county, at McMinnville at a public meeting one Dr. J. W. Watts uttered a sentiment that Gen. U. S. Grant will be elected President of the United States by the bullet, which sentiment was voluntarily and numerously cheered by the niggerites.

A PROPOSITION FOR UNIVERSAL MURDER OF THE WHITES.

The New York Times says:
"The remedy that occurs as most prompt and effective will, of course, be the military one. Strengthen the army in the Southern States;—increase the authority of the military commanders; suspend the *habeas corpus*: try all such offenders by drum head court-martials; and crush out by these means, the hostility of the southern whites to the political dominations of those who were lately their negro-slaves. This plan has the advantage of having been tried more than once already in the history of the world. It has been tried in Poland, in Hungary, and in Ireland: and it ought not to be difficult now for intelligent men to draw the inference which these precedents warrant."

And what has been the result of that trial. Voters of Oregon, does it meet your approbation?

WEST CHEHALEM, April 30th 1868,
EDITOR COURIER.

A very important surgical operation was performed on a Reverend political gentleman, last night, at the church in West Chehalis valley. The disease which rendered the operation necessary was nigger on the brain. The patient had been suffering for some time, when Dr. Goucher was summoned to his aid, but owing to the great progress the disease had made and the enfeebled condition of the patient, it was thought advisable to call in counsel. So, Dr. Bailey of Washington County, was called, who has had more practice in this branch of the profession than any other physician in this vicinity. It was accordingly decided to tap the gentleman's brain and endeavor to take away a portion of the excess of nigger which was troubling the patient to such a lamentable extent. The operation was commenced and succeeded capitally, so far as the patient was able to bear up under it, but finally his strength gave way and he commenced begging the merciless surgeon to desist for the present, he said he was old and feeble and must have a little respite. The remainder of the operation was deferred to a future time, as twenty five pounds of unconstructed nigger had already been taken away, and this was thought to be all the patient could bear at that time. Dr. Bailey has signified his willingness to attend at any future time, when the patient's strength will bear it, and finish up the operation. It might be advisable to engage some one of his political friends to write a brief history of "the life and public speeches" of the late lamented Rev. John.

EYE WITNESS

Cruelty to Animals.

We dislike to take our bro. Democratic editors to task, but we think bro. Alexander of the *Guard* would plead guilty to a charge of cruelty to dumb brutes, for getting off the following criticism on the "heavy chain":

CHEEKY—The stigmatism of the Salem *Unionists*, who boasts of having committed a penitentiary offense, says:

It is utterly impossible to find an intelligent paragraph in a Democratic journal published in the State. Some of them are positively disgusting.

What a superlatively fastidious taste the fellow has acquired since he came to Oregon, and occasionally, by sufferance, been permitted to associate with gentlemen. We can appreciate a good joke, but the idea of an ex-pensioner upon the bounty of a strolling actress, and who is reeking with the moral filth of San Francisco's lowest slums, parading his 'disgust' with Democratic journalism, is a little to good.

ALABAMA.

It will be remembered that notwithstanding a clause in the Alabama Constitution, disfranchising every man who did not vote for it, it was defeated by a majority of twenty thousand. Yet the radicals admit the State, but among other strange provisions incorporate the following, which we ask every white man to read and ponder well:

"That the Constitution of Alabama shall never be so amended as to deprive any citizen or any class of citizens of the United States of the right to vote by the Constitution herein recognized, nor shall be so amended or changed as to allow any person to vote who is excluded from office by the fourteenth article of the amendment of the Constitution of the United States, until the disabilities imposed by said section shall have been removed in the manner therein directed and provided and Congress shall have power to annul any amendment to the Constitution of Alabama or any act of the Legislature of said State contrary to the provisions of this section."

Nothing can be more encouraging, than the cheerful hopeful spirit that prevails among the Democracy throughout the State and the United States. The Star of Nigger-equalitism is waning and will soon sink to rise no more forever. To insure this result, let every white man go to the polls and vote the Democratic ticket—And should we succeed which beyond doubt we will if the black-and-tans attempt to "Elect Gen Grant by the bullet, we will meet and overthrow them on that line, if it takes all summer."

Davis and Johnson.

Davis' trial has been again postponed and he will probably never be tried. The leading radicals have thus far refused to try him, and have become his bondsmen, while Andrew Johnson, who during the dark hour, when the dogs of war were loose, himself a Southern man, stood by the government, is now receiving all the scandal, abuse and wrong they find it within their power to heap upon him; because Johnson refuses to aid them in perpetuating themselves in office. What a commentary on the justness of radicalism these two names present. The arch-traitor goes free, the patriot is persecuted. Go it blacks! yah! yah! you'll hang yourselves soon.

Financial prospects of the future.

In the month of January last, the expenses of the government were about \$20,000,000, greater than the receipts, in February no better, and in March much worse.

Mr. Morrill, in speaking of Mr. Sherman's exhibit of the deficit for the year 1868—69 said;

"I say," "and I am willing to have it put upon the record, that the deficit instead of being \$16,000,000 will be more than \$40,000,000!" His statement was endorsed by Mr. Fessenden, who believes that the deficiency will be even greater. Said Mr. Fessenden, "we shall have to go into the market to borrow money, and to go there under a very beautiful state of circumstances, too, with a large portion of the members of Congress talking about repudiation as a matter of fact."

Mr. Washburn Chairman of the house committee on appropriations, in his warning against reducing taxes and increasing appropriations said;

"Your revenues, will not be enough to meet your expenses. The country will be bankrupt, dishonored, and disgraced. Yet the republican party is responsible to the country for the legislation of this Congress, and the country will hold us to that responsibility."

How long will the country stand the radical financing? A Year or two more of radical folly and extravagance will hopelessly bankrupt the country. Radical rule, military despotism South,—the freedmens bureau,—negro electioneering,—reconstruction,—extravagant legislation corruption among the government officials, robbery and speculation,—take it all together has proven rather an expensive speculation, and bids fair to destroy the government.

Republican Style of Government.

WHAT DAVIS LOGAN WILL ENDEAVOR TO PERPETUATE.

WHAT REV. S. C. ADAMS WOULD VOTE FOR.

WHAT DR. TIMOTHY WILL BRAY FOR.

1. Ten States without a government or legislature of their own choice.
2. A President deprived of all his constitutional prerogatives.
3. A congress in which more than seventy seats are vacant.
4. A Supreme Court that is deprived of the right to make a decision.
5. A Constitution without any binding effect on an officer.
6. The inferior race fed, clothed and enfranchised, and the whites persecuted degraded and deprived of the right to vote or hold office.
7. The impeachment of any man in office who will not surrender his conscience to them.
8. The selection of some drunken debauchee who would ride rough-shod over hecatombs of virtue and at who's death the world breath easier to be President of the United States.
9. The filling all offices with the scums and off-scouring of the world.

What They mean.

The radicals are lazar like. They are worse than fiends who strangle babes from wantonness. They would extinguish the life of liberty from the whole world, by depriving the most intelligent whites of the right of suffrage and conferring it upon the lowest and most degraded of human beings that they may thereby run the machinery of State to their self aggrandizement.

Even their champion whiskey Dave says the rads enfranchise the nigger to keep the law or order party out of power.

Every soldier now in the United States Army costs the people \$2,000 per annum. And Grant wants to increase the army 40,000: He's to be the radical candidate for President.

Mr. Wilson, a member of the rump, has publicly threatened to hang Dr. Timothy, in language was "come H what will we have determined to give the devil his due." Hoors for Wilson.

Can any body tell why every man pays less clerk's fees in this County than any body else in this County?

Can any body tell why the clerk of Yamhill county refunded certain moneys to Jim Hembree? And in this connection can any body tell which of the radical candidates, upon the commencement of the late rebellion, said he was willing the South should depart in peace? S. C. Adams.

All the power of the radical party is being brought to bear upon the bolters on the Johnson impeachment bubble. With what vindictiveness the black-and-tans use the party lash!

AT THEIR OLD TRICKS—On last Saturday, the regular County Club meeting of the Democracy of this County, Gov. Woods was announced to speak at this place. The rads however, finding upon the announcement of the Gov. that the day was ours, came to our committee and were informed that we had ever opened our doors to the opposition, and would divide time with Gov. George, or any other man. Inquiry was made of us, who would be our speaker upon that occasion. Soon after, receiving an answer from Senator Nesmith his announcement was made by posters, and through the columns of the COURIER, in which it was also announced that Gov. Woods was expected to be present and participate in the discussion.

The grounds in front of the Court House was prepared by both Democrats and republicans, and every person that we have heard of in the matter professed to understand, and all desiring to, did know that it was a meeting of the Democracy at which all parties were invited to be present and participate. Mr. Grover came as the Hon. J. W. Nesmith was sick.

But the very gentlemanly gentleman, Gov. Woods, or some of the royal family or black-and tan managers, for him, insisted that he "claimed the day," but out of "courtesy to Mr. Grover would give him one hour, and he (Woods) would occupy the remainder of the day." Much turkey gobler and peacock was shown.

Grover and his friends for him, were willing that Mr. W. should have half the time, but in accordance with republican instinct the blackkeys were determined to monopolize the day, and there remained but one alternative,—give them our day and meeting, or eject them by force.

The dirty, contemptible, mean, doggiar trick is checked over as a great victory by a few infinitesimally small, low, groveling souls, who are utterly incapable of elevating themselves to the higher nobler duties of pure citizenship and patriotism—beings who forever keep their own selfish aims in view, and decide on all public measures and proceedings, by their presumed influence on their self-aggrandizement.
