Lafayette, July 31, 1866-ly.

Grover & Baker's

ELASTIC STITCH

FAMILY

SEWING MACHINES.

Are the best in Use,

FOR THE FOLLOWING REASONS:

They are more simple and durable

than any other, make a stronger

and more elastic stitch, a finer and

more beautiful seam than any other.

They saw all fabrics from two com-

mon spoons, require no resending of

thread, catch both ends of the seam

by their own operation, and though

every fifth stitch is cut the seam will

not rip.

They Stitch, Hem, Fell,

Cord, Bind, Tuck, Quilt,

Gather, Braid, and Em-

broider. No other ma-

chine Embroiders, as well

as Sews perfectly.

Grover & Baker's

NEW STYLES

SHUTTLE MACHINES

For Manufacturing.

Combine the most modern and essen-

tial improvements.

The attention is requested of

Tailors, Manufacturers of Boots

and Shoes, Carriage Trimmers,

Clothing, and all others requiring

the use of the most effective

Lock Stitch Machines.

To these New Styles, which possess

unmistakable advantages over all

others.

Agents wanted for the sale of the

GROVER & BAKER

SEWING MACHINES.

In every City and Town not now re-

presented. For terms and circulars

apply to

R. G. BROWN, Agent

116 Montgomery St., San Francisco.

## National College

OF

BUSINESS AND COMMERCE

Portland, Oregon.

AN INSTITUTION WHERE YOUNG and Middle Aged Men are properly educated for practical life. Its great success is the legitimate result of thoroughness, and intrinsic merit. The school is conducted on the plan of the leading Business Colleges in the Atlantic States. It affords every advantage found elsewhere on the coast, and many educational improvements never before introduced. It is our design to provide the public with an institution that shall be second to none. We intend that it shall be wanting in nothing that may contribute to the success of those who come here to prepare for business; and we can assure them that if they honestly avail themselves of the advantages here afforded, they cannot fail in securing what they come to obtain,—a practical business education.

TERMS OF TUITION

In consequence of our large facilities, we are enabled to accommodate all who may desire to avail themselves of the advantages of a thorough business education. Though our Tuition has heretofore been quite low, considering the superior advantages afforded; yet we propose to continue the same liberal terms—\$50 for Life Scholarship—until December 1st, 1867. Tuition for the entire Business Course, on and after December 1st, 1867, will be \$60.

Scholarships are good at the CALIFORNIA BUSINESS UNIVERSITY, San Francisco.

PREPARATORY EDUCATION.

An ordinary English education is all that is necessary in commencing. Should the student be found deficient in any branches, he will receive the necessary instruction, but a longer time will be required to complete the course. The time required to complete the course is generally from 12 to 16 weeks, according to the advancement and application of the student. Students enter at any time. Circulars containing full particulars on application.

M. K. LAUDENSLAGER,

President

H. M. DE FRANCIS,

Secretary.

up all hours, and on short notice.

notif A. B. WESTERFIELD.

New and Splendid Saw

MILL.

O MOOR

Would avail himself of this method of

saying to BUILDERS and others that

they are prepared at all times to furnish

Sills, Joists,

Sleepers, Flooring.

And in fact everything in the shape of

LUMBER.

Of a Quality not surpassed in Oregon, if

indeed on the Pacific Coast!

Our Mill is situated on Panther Creek

10 miles west of LAFAYETTE, and is

surrounded by a dense Forest of large clear

and Tender Yellow Firs; and much

other valuable Timber and abound in

the immediate vicinity of our Mill.

We furnish

FIR LUMBER

which is said by Mechanics to be superi-

or for Inside Finishing purposes to Pine

or Cedar.

We solicit a trial, and guarantee satisfac-

tion.

O. MOOR,

Lafayette, Nov. 26, 1866.

WAGON MAKING

AND REPAIRING SHOP.

J. EDWARDS informs all

that he is established in LAFAY-

ETTE, in the business of manufacturing and

repairing

WAGONS, HACKS, COACHES AND BUGGIES.

An experience of many years on this coast

in the business, enables him to assure patrons

that he understands what it requires to make

or repair jobs in his line in a manner to stand

through all our varied seasons. He will take

in exchange for his work wagon timber and

lumber. He wants Spokes, Felloes, Tongues,

Axles, &c., for which he will allow the mar-

ket price.

J. EDWARDS,

Lafayette, July 31, 1866,

## LETTER FROM THE ARGENTINE

SOUTH AMERICA.

Through the kindness of Mr. R. Moore,

of Scio, we are permitted to publish the

following extract from a letter written by

his brother, Wm. T. Moore, and dated at

the California Colony, Santa Fe, Argen-

tine Republic, South America, Feb. 29,

1868:

"You ask a good many questions about

this country which I will now try to an-

swer. We have a sharp frost nearly every

night in the winter, but no freezing

weather. There is a scum of ice some-

times at night, but it melts off in the

daytime. The summers are not hotter

than California. This summer has been

warm than last, and we have had al-

together ten weeks of hot weather. All

the rest of the year the weather is very

pleasant. Our seasons here are reversed

to those of the Northern Hemisphere—so

our summer is December, January and

February; and winter, is June, July and

August.

The land in this neighborhood is level

but high, healthful and rich. The face

of the country is generally prairie, with

skirts of timber extending through it.

This is the best range country I ever saw,

and I don't believe the world can beat it.

The stock keep in good order the year

round. Timber is generally small and

shrubby, but very good for all purposes,

and there is plenty of it. We have red

and white willows, but no oak of any

kind. We have several kinds of trees of

hard and durable wood which is useful

for implements of all kinds—wagons, plows,

harrow, &c.

As for crops, it produces everything we

have tried, very well. I settled here a

year ago last September, and had to hur-

ry in a crop in the raw prairie. I got in

about 40 acres of corn, and gathered 80

bushels to the acre, and then sowed the

same ground in wheat and reaped about

600 bushels in the same year; that is, I

reaped the wheat in November, just a

year after I planted the corn. We lost a

good deal of wheat for the want of a

threshing machine; but we have now

sent to New York for machinery; reapers,

threshers and plows. This season we

have made better corn than last, and

think that we will have 40 bushel to the

acre, though it has never been plowed,

hoed or thinned since it was planted.

Corn is now hard enough to grit. Be-
