Making Telescope Glasses.

In Professor Newcomb's article on the new telescope at Washington in Scribner's for November, occurs this account of the process employed by the manufacturers, Messrs. Alvin Clark & Sons, in grinding, polishing and perfecting the immense object glasses: The tools are very simple—round plates of cast iron, about three feet in diameter, hollowed out to suit the curves of the lens. They have somewhat the appearance of huge shallow saucers, or more nearly still, of the shallow iron drinking cups attached to pumps or hydrants in some of our cities. Three of these tools were necessary, one nearly flat, for the inner surface of the flint glass, one convex, for its outer surface, and one concave, for the crown glass. The surface of the tool is covered with coarse emery and water, the glass is laid upon it, and the grinding is carried on by sliding the glass back and forth on the tool. While sliding the glass is slowly turned round so that the grinding strokes occur successively in every direction on the glass, while, at the same time the operators continually move around in the other direction, so that the strokes are made successively in every direction on the tool. The result of these combined motions is that every inequality either on the glass or tool, is gradually worn away, and both are reduced to portions of nearly perfect spheres. When this result is obtained, the grinding is continued with emery of continually greater degrees of fineness, until the surface becomes quite smooth. The next operation is that of polishing. The whole tool is covered with a thin coating of pitch, which is pressed while still warm into the proper shape. It is then covered with a layer of water and the polishing rouge, and the glass is again laid upon it and kept in motion in the same way as in the fine grinding. Thus each surface of the two glasses is speedily brought to a high polish. The operations we have thus far described require no extraordinary skill on the part of the workmen. With a little patience almost any one can make himself a better glass than any known before the invention of the achromatic telescope. But, such a glass would by no means serve the purposes of astronomy now, and the chances of a glass of any size turning out exactly right in the first trial are very slight. The skill of the optician is now called into play to rectify the figure. Two formidable difficulties have to be overcome, to find what the defects of the glass are, and where they are situated, and then to remove them without introducing others. To find the defects, the glasses are put together, set up on the edge, facing a luminous point at a distance equal to ten or fifteen times the focal length. The image of the glass is then examined with an eyepiece of high power, of the eye is placed exactly in the focus, and the aspect of the glass noted as the light from the point passes through it. By these means the skilled optician can judge where the curves of the glasses are too great and where too small. The glasses are now taken back to the tool and the polishing process is recommenced, only pressing upon those parts of the glass where it has to be ground away. The glass is then tried again, and again returned to the polisher. The defects in small glass can be thus polished away in a few days, but

as the size is increased the process is more and more tedious, and the difficulties of judging what the defects are, and of handling the glass or the polisher so as to diminish them, increase enormously. It is this tentative process of gradually working out every defect of figure, and even in compensating defects in the uniformity of the glass itself by a suitable change of figure that the Clarks have exhibited their unrivaled skill.

TREES ON BOUNDARY LINES.—The New York court of appeals has recently decided that a man has no right to fruit growing upon branches of a tree overhanging his land where the trunks of trees stand wholly upon the land of his neighbor. But the law regards the overhanging branches as a nuisance and they may be removed as such, or the owner of the land shaded may remove them if he is careful not to commit any wanton or unnecessary destruction in so doing. Where the trunk of a tree stands on the line they have a joint ownership in the tree and fruit, neither one has the right to remove it without the consent of the other.

AN INCH A YEAR.—A Minnesota farmer gives, in the St. Paul Pioneer, his experience with plowing a field for wheat one inch deeper every year. The first year he plowed the land four inches deep and harvested seven bushels of wheat to the acre. The next season he plowed one inch deeper and took off twenty bushels per acre. Continuing to plow one inch deeper the next year he harvested thirty-one and a half bushels. He says, in conclusion: "Last fall I did not go down for the extra inch. I feared if I kept on until I got 15 or 20 inches, the straw would grow 15 or 20 feet high, and that won't stand the storms of Minnesota; but if we want long straw and heavy wheat we must plow deep. One inch deeper each year is plenty, and if this rule is followed strictly, our farms will be in good condition 100 years to come."

Advertising is the Oil which we men put in their lamps. Modera Prov.

L. P. FISHER, ADVERTISING AGENT.

ROOMS 20 AND 21, Merchants' Exchange, California Street, San Francisco.

Agents Advertisements and Subscriptions for the LAFAYETTE COURIER and for papers published in California, Oregon and Nevada; Washington, Utah, Idaho, Montana, Colorado, Arizona, and adjacent Territories; Sandwich Islands, the British Possessions, China; New Zealand and the Australian Colonies; Mexico Ports, Nicaragua, Panama Valparaiso and Japan; the Atlantic States and Europe.

ADVERTISING. Has created many a new business; Has enlarged many an old business; Has revived many a dull business; Has rescued many a lost business; Has saved many a large business; And insures a success in any business.

GRAND SECTION.—Stephen Girard used to say in his old days: "I have always considered advertising liberally and long to be the great medium of success in business, and the prelude to wealth. And I have made it an invariable rule to advertise in the duldest times as well as the busiest, long experience having taught me that money thus spent is well laid out, and by continually keeping my business before the public it has secured many sales that I otherwise would have lost."

Advertisement Your Business. Keep Your Name before the Public. Judicious Advertising will insure a Fortune.

If Business is Dull, Advertise. If Business is Brisk, Advertise.

The man who didn't believe in advertising has gone into partnership with the Sheriff, and that official does the advertising.

VINEGAR BITTERS

PURELY VEGETABLE FREE FROM ALCOHOL

Vinegar Bitters are a fine Fancy Drink, made of Pure Grain Whisky, from Sprites and Refuse Liquors, doctored, spiced, and sweetened to taste, called "Tonics," "Appetizers," "Restorers," etc., and lead the tipper on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants, and a Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator of the System, carrying off all poisonous matter from the system, and restoring to healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.

No Person can take these Bitters according to directions, and remain long unwell, provided their bowels are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Hiccups, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the Region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon perceptible.

For Rheumatism and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Bores, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurs, Discolorations of the Skin, Humors, and all eruptions of the skin, arising from impure or vitiated blood, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find it impeding, by using these Bitters in Pimples, Eruptions, Sores, cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is in your feelings, will tell you when to keep the blood pure, and the health of the system will follow.

For Tape and other Worms, living in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist: "There is scarcely an individual on the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of medicine, no vermifuges, no cathartics, will rid the system from worms like these Bitters."

Mechanical Diseases.—Persons engaged in Pumps and Minerals, such as Plumbers, Typographers, Gold-beaters and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers, throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country, during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Gout, Scrofulous Inflammations, Indigestion, Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation, the tubercular deposits the affected parts receive health, and a permanent cure is effected.

The Aperient and mild Laxative properties of Dr. WALKER'S VINEGAR BITTERS are the best safeguard in cases of eruptions and malignant fevers. Their balsamic, heating, and soothing properties protect the nerves of the fauces. Their Sedative properties allay pain in the nervous system, stomach and bowels, either from inflammation, wind, colic, cramps, etc.

Directions.—Take of the Bitters on going to bed at night from a half to one and one-half wine-glassful. Eat good nourishing food, such as beef-steak, mutton chop, venison, roast beef, and vegetables, and take out-door exercise. They are composed of purely vegetable ingredients, and contain no spirit.

PRIVATE MEDICAL AID QUICK CURES AND MODERATE CHARGES

DR. W. K. DOHERTY'S Private Medical & Surgical Institute.

FOUNDED IN 1853. No. 519 Sacramento street, Corner of Leidesdorff street, (a few doors below What Cheer House). Private Entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted Sound and scientific Medical Treatment in the cure of all Private and Chronic Diseases.

Cases of Secrecy and all Sexual Disorders

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and Stages, Seminal weakness and all the horrid consequences of self-abuse, Gonorrhoea, Gleet, Strictures, Nocturnal and Diurnal Emissions, Sexual Debility, Diseases of the back and loins, Inflammation of the Bladder and Kidneys, etc.; and he hopes that his long experience and successful practice will continue to insure him a share of public patronage. By the practice of many years in Europe and the United States he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He cures with mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment and implicit secrecy.

To Females. When a female is enervated or afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, Hysteria, sterility and all other diseases peculiar to females, she should go at once to the celebrated female doctor, W. K. DOHERTY, at his medical Institute, and consult him about her troubles and disease. The doctor examines more cases than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful suffering and premature death. All the tried and delicate health of other circumstances, and all other diseases peculiar to females, she should go at once to the celebrated female doctor, W. K. DOHERTY, at his medical Institute, and consult him about her troubles and disease. The doctor examines more cases than any other physician in the State of California.
