THE GRANT DYNASTY.

From a communication under this head we take some of the many discrepancies which have transpired under Grant's administration.

The Santo Domingo De Cuba job would have cost Grant all his conscientious greatness, but fortunately for him he had none to lose.

The Credit Mobilier steal when "placed where it would do the most good" met with the sanction of Grant through his chief "Smiler," who had a Vice addicting him to smile on such earthly things.

Back pay belongs to the program, as Ulysses is one who took his part without a murmur, but as that only costs his underlings \$25,000 per year they have no right to complain in that direction.

Looseness in Alaska might be mentioned, but then I fear to trace that far would implicate the national "Smiler" a second time. Then there is the Jayne Swindle, Sanborn contracts, Boss Shepherd affair, and many other little things yet bright in the minds of many an honest taxpayer, as, also, having occurred during the reign of his lordship.

Then, too, there is the history which has been made at the peril of the people of South Carolina, Arkansas and Louisiana; the deplorable results of negro rule in Mississippi, and many other national ills and aches to numerous to call to mind at one sitting.

Our Navy has been dwarfed into nothingness, and the government aid which should have been bestowed in strengthening the navy has been applied in bolstering up Eastern wealth and monopolies which would (by way of creating dissensions) have a tendency to bring about a war, and the lack of naval power would prolong the war, and then Ulysses would be in his element. War at home, war under difficulties that it might last awhile so that he would not be compelled to depend absolutely on gifts and congressional grabs in the building up of his pyramid of wealth.

Another evidence of the spirit of disunion which yet lingers in the souls of the Southern whites has been manifested in South Carolina, where some unrecruited rebel has introduced a bill in the Legislature making it unlawful for any person in the counties of Anderson, Spartanburg, or Union, to buy or receive seed cotton at any time between sunset and sunrise, under a penalty of fine or imprisonment. This bill was intended to put a stop to the practice of stealing cotton from the fields and selling it in the night time to the small dealers who drive a profitable trade with thievish negroes in that State. Since it would put a stop to a profitable traffic, in which the supporters of Grant's Administration in South Carolina are largely engaged. It was strongly opposed in the Senate by some of the representatives of the down-trodden race who control the government in South Carolina, but in spite of a spirited opposition it was finally carried on the third reading. If it should become a law, it is a question whether Grant would not feel authorized to suspend the writ of habeas corpus on his own responsibility, and visit summary vengeance upon any planter who should attempt to intimidate colored voters by availing himself of its provisions.

We hear that all the Democratic newspapers in California which espoused the cause of the Independents have gone back to the Democracy. Most Democrats joined that party because they then believed it to be the only way to defeat the Radicals; but they now see that the Democracy are now in the ascendancy and certain to succeed in the next general engagement. Hence they return.

The Chicago Inter-Ocean of the 6th inst., contains an interview with one G. R. Simms, who claims to be familiar with the entire history of the Louisville Library Lottery scheme, and who alleges that gross frauds have been perpetrated on the ticket-holders.

FROM AMITY TO SHERIDAN.

Amity is a thriving village containing three well-to-do stores of general merchandise; also a grocery store kept by Kelly & Simpson; two fine and well-conducted blacksmith shops one being a Grange institution and the other, perhaps the finest in the county, owned by our enterprising citizen, Wm. Brown.

The Grange at this place is probably not inferior to any in the county; it meets regularly in R. J. Lancefield's fine hall.

The temperance organizations are in a prosperous condition.

The farmers here seem less bent than of late upon direct shipment of their wheat through agents appointed by themselves, and are looking more directly to their true interests and that of the order by taking steps to lower the high tariff on agricultural implements and every article which the consumer needs; also the erection of their own warehouses at suitable points on the Yamhill and Willamette rivers, nature's highway to the sea.

The Sheridan and Amity road via Bellevien is in a bad condition. The bridge on said road across the Yamhill river, the building of which with others lately erected, have so helped to increase our taxes, was washed away by the first flood. Though I see there is a petition being circulated and well signed by our best citizens to raise means which, with the assistance which will be solicited from the county to replace the bridge in such a manner that no future flood will disturb—requires a span of ninety feet, which will allow all the driftwood to pass through. This bridge is certainly as much needed as any in the county and it is to be hoped that the County Board will look upon it favorably, inasmuch as it is a measure of public interest.

Hon. S. G. Reed's fine farm of three thousand acres, situate near this road is unquestionably the finest tract of land in this county—is admirably conducted by A. M. Waddle, Esq., his agent, in a very superior manner and your correspondent will take pleasure in giving a description of the management of machinery, imported stock, &c., at some future time.

Sheridan named after the noted individual of New Orleans notoriety and who used to promenade on Yamhill's classic banks with the auburn colored daughters of the forest (with his character unimpeachable) is situated in the premium mud-hole of the State. The finest buildings—the churches and academy—are almost inaccessible and unhealthy by being located in an undesirable place, owing to the indifference and cupidity of the founders, caused probably by their undue reverence to its illustrious namesake, which it is hoped may yet return to those who claim his paternal care, when just across the river on the Chapman farm are situations for a flourishing village unexcelled anywhere.

The Reporter's correspondent at this place who aspires to noting higher than midnight scenes within shadings and matters behind the scenes has, as I understand taken a job of grubbing in the country.

More anon, PHOENIX. The Archbishop of Cologne, on behalf of the whole Roman Catholic Episcopate of Prussia, has sent a petition to the Lower House of the Prussian Diet, urging it not to press that part of the Ecclesiastical bill which gives the people a share in the administration of local church property.

The Berlin Post says Spain has demanded the extradition from German territory of Don Alfonso, brother of Don Carlos, charging him with offenses against the common laws. Spain has extradition treaties with individual German States, but not with the Empire. The documents required in such cases under her treaties with Bavaria and Prussia have been lodged by Spain.

The Brooklyn Argus says Colonel Elliot, of Galesburg, Illinois, brother-in-law of Miss Sallie Lovejoy, has been East and collected a mass of testimony to show that the innuendoes against her character are cruelly baseless, and intends to institute a suit for malicious libel on her behalf after the current trial is ended. Papers, it is said, will be served on Beecher's lawyers at the earliest opportunity.

A PERFECT FINANCIAL PROBLEM.

G. W. Carey, of Salem, General Agent for the Pacific Mutual Life Insurance Company of California, is here introducing the Trust Fund plan of insurance. The same premium you would pay to an Eastern Co. for a certain amount of insurance, you would deposit in this company subject to your order. If death occurs while the deposit remains, both the insurance and the deposit are payable. This plan has revolutionized insurance on this Coast, and the company deserves success for having offered to the public a "square deal." Patronize home institutions and stop sending your money East.

The Western Union Telegraph Co. is in the London market asking for a loan of \$5,000,000 upon six per cent. bonds payable in the year 1900 and issued at eighty-seven cents on the dollar. These bonds are for the payment of some four and one half millions of bonds maturing the present year. The prospectus put forth by the company claims that it has 72,500 miles of line in operation; the capital stock of the company is \$41,000,000, less \$7,000,000 of stock owned by the company itself; its receipts for the year are placed at nearly \$10,000,000, and its net profits over \$3,000,000; equivalent to over seven and one-third per cent. of the stock of \$41,000,000, its debt in event of the negotiation of the proposed loan will amount to less than \$7,000,000.

We acknowledge a call from J. J. Whitney, Prosecuting Attorney of this District. Mr. Whitney is a young attorney of fair ability and from the interest he takes in his profession is bound to be among the foremost of Oregon's lawyers.

The Liverpool wheat market is improving, and everything bids fair for wheat to reach one dollar by next harvest. The farmers in this county, as a general thing, are putting in every available acre of land.

Mr. Henry Byres and Dr. Woodruff have bought the Roseburg Plaindealer newspaper for \$1,200. It will be conducted for the present on Independent Republican principles.

DIED.

At Dayton, March 22nd, Percie, only child of P. A. and Mary Hill, aged 1 year, 2 months and 3 days.

At Roseburg, Oregon, March 21st, Annie H., the beloved wife of Fred. Page Tustin, aged 18 years and 2 months.

BRIGHTLY breaks the morning of a new era in the annals of medicine. Alcohol will soon be banished from the list of remedies, and only known as a poison. DR. J. WALKER'S CALIFORNIA VINEGAR BITTERS, composed entirely of wholesome botanic extracts and juices, are everywhere superseding the fiery astringents, which no man or woman ever yet took with out bitterly repeating their credulity. There is no disease, acute or chronic, in which the new tonic may not be administered with beneficial effect.

NONE but a physician knows how much a reliable alternative is needed by the people. On all sides of us, in all communities everywhere, there are multitudes who suffer from complaint that nothing but an alternative cures. Hence a great many of them have been made and put abroad with the assurance of being effectual. But they fail to accomplish the cures they promise, because they have not the intrinsic virtues they claim. In this state of the case, Dr. J. C. AYER & Co., of Lowell, have supplied a compound extract of SASSAPARILLA, which proves to be the long desired remedy. Its peculiar difference from other kindred preparations in the market is that it cures the disease for which it is recommended, while they may not. We are assured of this fact by more than one intelligent physician in this neighborhood, and have the further evidence of our own experience of its truth.—Nashville, Ten. Farmer.

THE SUN.

WEEKLY AND DAILY FOR \$75.

The approach of the Presidential election gives universal importance to the events and developments of 1875. We shall endeavor to describe them fully, faithfully, and unceasingly.

THE WEEKLY SUN has now attained a circulation of over seventy thousand copies. Its readers are found in every State and Territory, and its quality is well known to the public. We shall not only endeavor to keep it fully up to the old standard, but to improve and add to its variety and power.

THE WEEKLY SUN will continue to be a thorough newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when of moment, and always, we trust, treated in a clear, interesting and instructive manner.

It is our aim to make the WEEKLY SUN the best family newspaper in the world. It will be full of entertaining and appropriate reading of every sort, but will print nothing to offend the most scrupulous and delicate taste. It will always contain the most interesting stories and romances of the day, carefully selected and legibly printed.

The Agricultural Department is a prominent feature in the WEEKLY SUN, and its articles will always be found fresh and useful to the farmer.

The number of non-resident subscribers is increasing, and the WEEKLY SUN is their paper. We make no party, and take no interest in contending for principle, and for the election of the best men. It exposes the corruption that disgraces the country and threatens the overthrow of republican institutions. It has no fear of names, and seeks no favor from their supporters.

The market of every kind and the fashions are regularly reported in its columns. The price of the WEEKLY SUN is one dollar a year for a sheet of eight pages, and fifty-six columns. As this party pays the expenses of paper and printing, we are not able to make any discount or allow any premium to friends who make special efforts to extend its circulation. Under the new law, which requires payment of postage in advance, one dollar a year, with twenty cents the cost of prepaid postage added, is the rate of subscription. It is not necessary to get up a club in order to have the WEEKLY SUN at this rate. Anyone who sends one dollar and twenty cents will get the paper, post-paid for a year.

We have no traveling agents. THE WEEKLY SUN—Eight pages, fifty six columns. Only \$1 20 a year, postage paid. No discounts from this rate. THE DAILY SUN—A large four page newspaper of twenty eight columns. Daily circulation over 120,000. All the news for 2 cents. Subscription, postage prepaid 55 cents a month, or \$5 00 a year. To clubs of 10 or over, a discount of 20 per cent. Address, "THE SUN," New York City.

HAIR DRESSING SALOON. ED. PERKINS, BARBER SHOP

HAVING BOUGHT THE SHOP owned by J. R. Majors, wishes to inform the public that he is now prepared to do any and all kinds of work in his line in the latest style. Shaving, 25 cents. Shampooing, 25 cents. Hair cutting, 25 cents.

HAVE THOROUGHLY OVERHauled and repaired my BATH ROOM, those in need of a good one can be accommodated reasonable. ED PERKINS. Lafayette, no 14

Ayer's Hair Vigor, For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. It soon restores faded or gray hair to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
