

THE "BULLETIN ROORBACKS."

Some time since we published a brief editorial upon what we deemed to be the duty of Democrats in relation to the next Senatorial election in this State.

Our remarks were to the effect that it is the duty of the Democracy to work earnestly and energetically to secure the election of a Democratic Legislature, so that we may elect a Democratic Senator to succeed Senator Kelly, and not to foster or encourage wrangling or dissension in the ranks in consequence of the adverse interests of the various aspirants.

Neither this paper nor the "thoughtful young man" referred to is working for Governor Grover, or any other particular aspirant. We labor for principles and not men, and we would be quite as well pleased with the election of either of the other Democratic aspirants named by the Bulletin as with the selection of the Governor.

We do not expect to say anything on this subject that will be approved by the Radical press. If we desired to please them, we could do so by endeavoring to create divisions in the party and thereby give aid and comfort to the enemy.

THE XLIVth CONGRESS.

The following in regard to the number of Representatives in the House from each State will undoubtedly be read with interest. The Republicans have so far 102 members; Democrats, 167; Independents 6. There are 17 to elect by States and three to fill vacancies.

There is no reason why the deduction of debt should injure the State, if the assessment is properly made. If a man claims indebtedness as an offset, let him state to whom. If it is a mortgage, that fact can be made the duty of officers to see that the assessment is made against the proper party.

A report reaches us of the commission of another of those outrages in Cuba, which shock humanity and almost stagger belief. This time the bloody shambles have been removed from Havana to the port of Cienfuegos, but the perpetrators of the brutal deed are the same home guards, the bloodthirsty volunteers.

The States of Alabama, Florida, Louisiana and North Carolina have one colored representative each, and South Carolina two.

The following States have Democratic majorities: Alabama, Arkansas, Delaware, Georgia, Indiana, Kentucky, Louisiana, Maryland, Missouri, New Jersey, North Carolina, Ohio, Oregon, Pennsylvania, Tennessee, Texas, Virginia, and West Virginia, and New Hampshire.

The Senate has 40 straight Republicans; 5 Independents; 28 Democrats. Total 71. There is a vacancy in Louisiana.

NEW HAMPSHIRE.

The first news that flashed across the wires from the State of New Hampshire in relation to the late election in that State indicated that the Radicals had triumphed. But later news shows the contrary to be the fact.

equal number of votes and the Prohibitionist candidate received a few hundred votes. The Legislature will have to elect the Governor as it did one year ago.

SHALL TAXATION BE EQUAL?

In the supplement of the Willamette Farmer of last week we find the following plain talk on the above subject: "The last legislature passed an act relating to the assessment and collection of taxes which was unjust to a large class of persons, the class too which is most enterprising and who can the least afford to be oppressed by unequal taxation.

It is claimed that taxation is evaded by this matter of indebtedness. Let some law be passed by them to remedy the evil, but do not impose additional burdens on a class that has the most difficulty to maintain itself. If we are to have manufactories in Oregon the business will have to be carried on in a great part with borrowed capital.

As it is probable that the Supreme Court will decide this matter next summer, we suggest that assessors should take down a memorandum in such cases, of the amount that such person claims as offset by his indebtedness. Or persons making returns, with a written statement of the amount of indebtedness they claim to offset.

A report reaches us of the commission of another of those outrages in Cuba, which shock humanity and almost stagger belief. This time the bloody shambles have been removed from Havana to the port of Cienfuegos, but the perpetrators of the brutal deed are the same home guards, the bloodthirsty volunteers.

The Bulletin seems to think that the Democracy of this county is subject to foreign dictation and that "out side" influence is fixing a "slate" for the next election. The Democracy here are able to manage their own business, and if any officious intermeddler should attempt to dominate matters he will be preemptorily invited to "step down and out." We believe in "home rule."

The Mercury is the only paper published at Salem that dared handle Dr. Carpenter without gloves for his attempt at body-snatching. Ain't the plea of "drunkenness" rather thin for an M. D. of his calibre?

A Kentucky paper thinks that a country which is eaten out by grasshoppers in the summer, and where whisky freezes solid in the winter might be advantageously left for the exclusive occupation of the noble red man and the prairie dog.

T. R. Harrison who has lately been appointed Receiver of the Land office at Oregon City, was in town last week looking "child-like and bland."

The Game Law.

That portion of the Oregon game law which relates to the killing of deer, moose, elk or other animals of that specie, is now in full force. The section of the law which prohibits the destruction of any of the feathered tribe will also take effect on April first. For the benefit of sportsmen we publish the game law as it was amended at the last session of the Legislature:

Section 1. That it shall be unlawful for any person or persons hereafter to take, kill, injure or offer for sale, any deer, moose, elk, antelope or mountain sheep during the months of February, March, April, May, June, July and August of each year, under a penalty of \$20 for the first offense, and double that sum for each succeeding offense, to be recovered as hereinafter provided.

Section 2. That section 2 of the above entitled act shall read as follows:

Section 2. That it shall be unlawful for any person or persons hereafter to take, kill, injure or destroy, or offer for sale any wild swan, or any duck of the following species, namely: Mallard duck, summer, or wood duck, widgeon duck, sprig-tail duck, teal duck, spoonbill or black duck, during the months of April, May, June and July of each year: Provided, That nothing in this or the preceding section shall be construed so as to prevent persons from killing game trespassing on their lands.

Section 3. That section 3 of the above entitled Act be amended to read as follows:

Section 3. That it shall be unlawful for any person or persons to take, kill, or destroy any elk or deer at any time, for the sole purpose of obtaining the horns, hide or hauns of the same, and the person or persons so offending shall be fined a sum not less than \$20 for each offense.

Section 4. That section 4 of the above entitled Act be amended to read as follows:

Section 4. That it shall be unlawful for any person or persons to take, kill or destroy, or offer for sale any grouse, pheasant, sage hen or prairie chicken during the months of April, May, June and July of each year.

Section 5. That section 5 of said Act be so amended as to read as follows:

Section 5. That it shall be unlawful for any person or persons hereafter to take, kill, injure, destroy or offer for sale any quail or partridge during the months of April, May, June, July and August of each year, and any person violating any of the provisions of Sections, 2, 4 and 5 of this Act, shall be fined five dollars for the first, and that sum for each succeeding offense to be recovered in manner in hereinafter provided. Provided, however, that nothing in the foregoing Section shall be construed as to prevent any person from killing deer, moose, elk or mountain sheep for their own consumption; Provided, farther, That it shall be unlawful for any person to take, kill or destroy any quails of that species known as the "Bob White" or Eastern quail, at any season of the year for the term of five years from the date of this Act.

P. HATT, Agent.

They have been trying a part of the American prison discipline in one of the prisons of Norway, and the result has been sent to the Secretary of the Howard Mission, London. There was a convict in the Norwegian prison at Fort Berghaus, who had already been punished several times for infringements of the discipline, but still continued stubborn. He was therefore subjected to the cold douche, and it acted admirably. It was applied continuously for forty-two minutes, and the convict was quite cured of his stubbornness. He died on the spot.

We would like to know who in the devil the Bulletin keeps employed to sit behind the screen. To judge from the way the Oregonian is getting away with it, there is no one either before or behind the screen. Can't you afford to keep an editor? Answer that.

The Supreme Court of Illinois has decided that a railroad company cannot be held responsible for baggage left uncalled for by the owners.

Donald McKay and the Warm Spring Indians, who have been wandering in New England, are now dead and lodged as paupers in Fitchburg, Massachusetts.

A correspondent, writing from Athens, curiously contrasts the mixtures to be found there of ancient and modern civilizations. Railroads spin their trains amid the temples of three thousand years; steamers dash their swells upon the Pireus; the screams of their whistles resound from Athos, Pentelicus and Cytheron to Olympus and the heavens beyond their gods. Dr. Ayer's world renowned medicines those consummations of modern science are posted on the Acropolis, the Parthenon, the Areopagus and Thesion, while the modest cards of Ayer's Cherry Pectoral, Ayer's Sarsaparilla, Ague Cure and Pills look from the windows of the shops in Athens, where they are sold.—New York Graphic.

How TO GET STAMINA. Iron frames and strong nervous systems are not the lot of all. But the feeble need not despair. By adopting the right means they may live as long and enjoy life as much as their robust neighbors. Physical invigoration is, however, necessary to this end; and while the spurious tonics and nervines usually administered eventually depress both body and mind, Dr. J. Walker's California Vinegar Bitters invariably supply new vigor to the frame, while they regulate every disordered function.

Ayer's Cathartic Pills,

For the relief and cure of all ailments in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief when required.

Long experience has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their constant use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, and stimulated into action. This incipient disease is changed into health, and the patient, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box; how to use them as a Family Remedy, and for the following complaints, which these Pills rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Loss of Appetite, and various symptoms, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action. For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it. For Erysipelas or Diarrhoea, but one mild dose is generally required. For Rheumatism, Gout, Gravel, Pains in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear. For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge. For Suppression, a large dose should be taken, as it produces the desired effect by sympathy. As a Diarrhoeic Pill, take one or two Pills to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
