FRIDAY, MAY 14, 1875

ATTEMPTED SUICIDE,--Friday last some little excitement was caused by the announcement that J. Swires, a county charge, had committed suicide by cutting his throat. The facts, as near as we could learn, are about as follows: Sometime in the forenoon Swires took his testament and started out to walk and read, as Mr. Henry's family supposed, and no particular in the right place. attention was given to the act. His stay becoming somewhat prolonged Mr. Henry became uneasy and summoned a couple of the neighbors and a thourough search began. Swires was found about a quarter of a mile from thehouse in thebrush. He had cut his throat in two places, with a pocket knife, however, he cut too far back preparing for their contest. to prove fatal. Finding this did not have the desired effect, he aimed to strike the main artery in his arms. These attempts proved futile he threw the knife away and tried to bleed to death. When found he got up and said he was stout enough to walk to the house. The men told him no, he other part of the school. would bleed to death. He said he did not care if he did, that's what he wanted to do. A wagon was procur- Charley Royal's and she's a girl. ed and he conveyed to the house. Dr. All are happy. Next. Littlefield was summoned and dressed the wounds. Everything possible was done to make him comfortable Swires some eight years ago had a severe attack of fever,-was sitting before the fire and through exhaustion or a spasm he fell forwad into the fire and burned one side of his face, head, neck and shoulder into a that number missed twenty-three. crisp. He is certainly a terrible looking object; life is a torment to him--no hope of being cured and if anybody ever was justified in suiciding it is certainly Swires.

SHAMEFUL .-- There is a father of a small family living not for from this place, who, we are told, has inhumanly forced his daughter, a girl only 15 years of age, assisted by a younger eister and a brother who is still younger, to grub out a patch of brush on his farm this winter. The girl says that they have cleared over the other, yesterday evening, which six acres this winter, she alone taking | resulted in a draw battle. out one hundred grubs in one day. The girl has left home because she thinks that such hard work is killing her. She does not seem to be at all lazy for shooffers to work for her living with anybody if they will only give her a home. She is now living with one of her neighbors.

CAMP MEETINGS -- Rev. E. G. Michaels, pastor in charge of this circuit, has announced that the M. E Church, South, will held their annual camp meeting at their grounds on North Yamhill, near the Gaunt bridge, commencing on Friday before the 2d Sunday in June.

There will be a camp meeting held ear Mays' Ferry, under the auspices the Christian Church, to begin on Friday, the 28th inst., and probably to hold over the first Sunday in June.

CLAM BED FOUND,-Parties who came over the Coast Mountains from the verdant vales of Tillamook report having found a claim bed between the summit and the toll-gate. Some 20 large ones were taken out of a marshy piece of ground. The men had no means of telling how extensive the bed was. This adds another variety of fruit to be sought for by berriests in the Coast mountains. From the "swell" of the shells one would sup-

Marks Convicted.

W. J. WIMER, Sec.

Some months since was published w the COURIER an article pertaining to the trial of J. J. Marks, for en-

the 20th says:

The second trial of John J. Marks upon an indictment for the crime of embezzlement of the public moneys while holding office as one of the State Harbor Commissioners, terminated yesterday in a verdict of "guilty as charged in the indictment," an he can study the marked words half the defendant will probably have to the night and prepare himself for the expiate his crimes by serving a term in San Quentin. The former verdict against him was set aside and a nev trial ordered on the ground that h had been convicted on the uncorroborated testimony of his accomplice, We, the undersigned committee on Callahan. Although it is quite like ly that another attempt to obtain new trial will be made, the objection which was before successful cannot now be urged, as the evidence was this time fortified on the point which rendered it technically insufficient whatever moral assurance it carried Suitable prizes will be given to the with it. Marks has been ably an pertinaciously defended, as men who are charged with similar crimes at ways are, so long as enough of th plunder remains to fee eminent coun sel. The jury were out five hours and fears were entertained by those who know how hard it is to procure conviction in such cases that the defendant would be acquitted. He will appear before Judge Blake for sentence on Saturday. The punishment prescribed by the penal code for the crime for which he stands convicted is imprisonment in the State Prison for a term of not less than one year, and not more than ten. It is too late now for the defendant to avail himself of the merciful provision of Secthat we have the choice and manner restoration of the property embezzled a ground for mitigation of the, sentence, inasmuch as such restoration in order to be of avail must precede the presentation of the case before magistrate or the Grand Jury, Th news of this conviction will carry dismay to the souls of divers ex-officials

low-feeling" for the accused.

Ayer's Cathartic Pills,

For the relief and cure of all derange-ments in the stomach, liver, and bow-els. They are a mild aperient, and an excellent purgative. Being purely vege-table, they contain no mercury or mine-ral whatever. Much serious sickness and

serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Aper's Pills, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these

For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression, a large dose should be taken, as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Dr. J. Walker's California Vinegar Bitters are a purely Veg-etable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health.
They are the great blood purifier and
a life-giving principle, a perfect Renoz
vator and Invigorator of the system: Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilions

The properties of Dr. Walker's Vinegar Bitters are Aperient, Dia-phoretic, Nutritious, Laxative, Diu-retic, Sedative, Counter-Irritant, Sudorific, Alternaive, and Anti-Bilious.

Grace Mi L ou and's proclaim IN GAR BITIERS the most wonderful avigorant that ever sa tained the sink-

No terson can take these Biller's according to directions, and remain long cuwell, provided their bones are not destroyed by mineral poiron or other means, and vital organs wested I evond repair.

Littons, Remittent, and Intermittent Fevers, which are so prevalent in the calleys of our great livers throughout the United States, specially those of the Mississippi, Ohio, Missour', Illinois, T. nnessee, Jumberla d, Arkan a , Red Colorado, Brakes, Rio Grand , Pearl, Alabama, Mobile, Savannah. Roanoke, James, nd many others, with their vast tribaries, throng out ger entire country laring the Summer and Antomn. and emarkally so duri g seasons of ansnal eat and dryne's, are invariably nents of the somaelf and liver, and ther abdominal vicera. In their reatment, a purgative; excring a newerful influence upon these various organs, is exential. There is no athartic for the purpose equal to DR. J. W.LEER'S VINEGAR EFFICES, as hey will poully functe the dark-colored viscil in the with which the lowels are load d, at the same time timulating the eactio s of the liver, and generally restoring the healthy
