FOR TILLAMOOK .- Tuesday morning ere the sun's first rays had hove in sight a number of Lafayette's fair sons were buisily employed in sinching cay use horses preparatory to start ing for the coast. The crowd is composed of the right kind of material for having a good time. Accompa- young, nying h se pleasure-seekers as"chaperoup," so to speak, is Uncle John Bird and J. J. Hembree. Parents of the youths who form the party need feel no anxiety so long as the above named gentlemen have the boys under their protecting wing.

A defination of personal liability of county judge here laid down is new and important. It looks like Tea, black, & B ..... straining the law to say that the indviduals composing the county court are personally responsible to a creditor for refusing or neglecting to include his claims in the county levy, but this appens to be the decision. In all cases, therefore when counties resist payment of a debt, and county judges or commissioners refuse to levy a tax to Onions. CONFL(E)AGRATION .- On Monday alarm of fire was heard on the streets of Lufayette for the first time in many mouths. Many of the citizens, hastily attired themselves and rushed to the scene of the fire, but were disappointed when they found it was nothing but an old hog house--fleabed--that was burning. The straw had been set on fire some days previous but it was thought to be out, and proved to be but a slumbering volcano ready to burst forth at a moment's no more from the assessment of any notice. And she busted many a flea.

Cou: TY JAIL .--- This subject may it a short time become somewhat monotonous to two or three of the County officials, but we propose to make it extremely tropical, and using a common phrase, "whoop them up" lively, and keep on doing it. At the presout time we see and the taxpayers feel the need of such a building. We now have to employ a man to guard the old rattle-trap of a cage. Commissioners, give this matter earnest consideration. This county needs a jail and must have it. One mill tax will do the job.

SMITH & BUTLER-These two gentlemen by their indefatigable energy will soon have their large and commodious furniture establishment in running order. In a short time they will be able to furnish anything in the furniture line, so that there will be no necessity for sending abroad. This establishment will supply a exceedingly cheap. Thus, one sunce want long felt in Yambill and adjoining counties.

hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and inju-rious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a gratefal perfume. Prepared by Dr. J. C. Ayer & Co.,
