

LAFAYETTE COURIER.

FRIDAY, AUGUST 13, 1875.

GOOD YIELD.--To show what the oak-grub land will raise we cite our readers to a forty-acre lot of this kind of land on the farm of Anson B. Henry. Five years ago this piece of land was as densely covered with oak as a fir grub as could be found. This land this year yielded 1,350 bushels of wheat--a little over thirty-four bushels to the acre. This certainly is encouraging to the farmers who have plenty of "grub land," provided they have courage to "tackel" the grubs. Who says land in Yamhill is dear at thirty dollars an acre, when from twenty to forty bushels of wheat can be raised to the acre?

THEY'LL DO IT EVERY TIME.--We heard a lady not long since say that she was going to wear short dresses--she didn't care if they didn't reach below her knees--for convenience, but we don't see her wearing them. If their dresses were twice as tight and twice as long they would wear them. If it were the fashion to carry a barrel of flour on the back of the neck, they would do it, or die trying. You couldn't devise a fashion the women wouldn't meekly follow, from skins bare in the winter to bearskin overcoats in the summer.

CARLTON ITEMS.--The little town of Carlton is making rapid strides in improvement and bids fair to rival some of the older towns on the O. C. R. R., and we might be safe in saying a majority of the other towns in the county. The place is beautifully situated in the center of a splendid agricultural district. The Fryer Bros. are building a large warehouse and will be ready for this season's harvest. A blacksmith shop is going up. Also a saloon. A flourishing lodge of Good Templars are to be found there. Success to the embryo city.

A GOOD MOVE.--A subscription paper is in circulation asking for the requisite means with which to paint the school house again. This is a move in the right direction, and all should respond to the call. While you are at it, why not get enough to fence in the building. Now that we have engaged a good teacher, fix up the house and it will be a pleasure to attend school.

POSTPONED.--We have received a note from J. D. Crowley, Esq., agent for Rockwell & Hurlbut, the great horse tamers, saying that they would not visit Lafayette at present. They have changed their minds and will go from Salem to Portland on the East side, from there they go to Eastern Oregon, and back to our city about the fourth or fifth of October.

ALL READY.--Smith & Co. have got the machinery in their new shop ready for operations. The sound of the whistle echoed through our streets last Tuesday. They were tuning it up. They will tell you in an advertisement before long what they can do.

GOOD ENOUGH.--Mr. Glandon, living on North Yamhill, had twelve acres of wheat, which he has just harvested, which yielded over fifty bushels to the acre. Now trot out your big crops.

MARRIED.--At the residence of the bride's parents, August 9th, by the Hon. Judge Hurley, Mr. T. J. Harris and Miss Elizabeth D. Large. All of Lafayette.

NOTES.

New goods and things, at Kelly's. Mr. Jesse Dixon has our thanks for a lot of the largest plums we have seen.

Master Sidney Dorris laid on our table a small stem containing six plums as large as eggs.

"Coasters" should provide themselves with broad rimmed straw hats and kid gloves to gather lemons.

Don't bring us any more plums. We go round now humped up like a rainbow and both hands on our lower chest. We can't eat any more.

Kelly & Simpson have had a fine sign painted on the side of the building they occupy. Mart. Ramsey did the work and in an artistic manner.

Until recently it was supposed the "smoky" weather was caused by fire in the mountains. The cause is the burning of a coal-pit in the suburbs of Lafayette.

Our blooming pal becoming jealous of our sunburnt nose, which we got while doing the grand in Tillamook, has gone to the Siletz to get him one. Hope he'll find it.

We have received a splendidly gotten up tribute to the memory of Mr. Dempsey, but which is without a signature, and was received too late for publication in this issue.

TILLAMOOK ITEMS.

While in Tillamook county last week we gathered the following items but were unable to get dates:

A man named Glenn found a buoy which had been washed ashore and was going to appropriate it to his own use, but some of the Government officials hearing of it, authorized Portuguese Jo to get it and hand it over to the proper authorities. When Jo went after the buoy Glenn refused to give it up; Jo insisted on taking it, when Glenn drew a gun on him. Jo swore out a warrant and had Glenn arrested. G. gave bonds and was released.

A man named Dan Pike was arrested for stabbing Hathaway; being unable to furnish the requisite bonds was placed in jail. Some friend on the outside gave Pike an axe through the window and he commenced chopping his way out, and had succeeded in cutting a hole sufficiently large to get his head out when he was discovered and prevented from making his escape. Dr. Johnson, who happened to be there, took compassion on him and bailed him out.

When Rev. Mr. Butt and family were moving from Lafayette to Tillamook, and were just beyond the Toll-gate, the wagon on which the family were riding came near being precipitated into a yawning chasm at least forty feet deep. The leaders of the team had just crossed the bridge when it suddenly gave away. The driver comprehending the situation in an instant, whipped up the lead horses and made them pull the wagon out. Surely, this was a miraculous escape from instant death.

We had the pleasure of attending a Republican County Convention which met the 4th. To say the least, it was amusing. B. A. Bayley, who was not a delegate, was called to the chair; Mr. Sullivan was elected Secretary. After indulging in considerable chin music in relation to their choice for Congressman, the wheat prospect, the hay harvest and whether it was a good time to fish or not, they proceeded to elect their delegates, which resulted in the election of Clark Bewley by ballot and James Quick by acclamation. They evidently thought it a waste of time to appoint committees on credentials, resolutions, &c. We suppose they thought so, for they failed to appoint a committee. R. P. Boise seemed to be the favorite, and all agreed to support him.

The hay harvest is almost finished, but the grain crop don't seem to ripen fast. Probably too much cold weather. The weather is cool and pleasant. The thermometer very seldom running higher than 75 degrees. The principal productions are hay, potatoes, good butter, clams and pretty girls.

The county is improving. Lincoln, the principal business place, has been improved since we were last there--some eight years ago--by the addition of four or five dwelling houses, and a store. A new hotel will soon be finished, which will materially enhance the beauty of the place.

We don't see why people should think that Tillamook county is not equal to the interior counties as far as raising grain is concerned. Mr. Eli Olds has three acres of barley from which he expects to get over 150 bushels.

The many friends of Chas. Miller will be glad to learn that he is improving, although slow. Any one wishing shells or sea moss (a specimen of which can be seen at this office) can get them of Charley, for a small remuneration.

PERSONAL.

Judge Hurley and G. P. Dorris, with their families, started for the Siletz last Tuesday on a pleasure trip.

Mr. William Perkins, one of Tillamook's most substantial citizens, gave us a call this week. He is going to purchase a small threshing machine to take home with him.

J. A. Campbell, Esq., of the Dalles, has been visiting friends at this place during the week.

Mr. Ed. Wood gave us a call last Wednesday.

By exercising a goodly amount of diligence and perseverance an industrious, able bodied man might manage to gather twenty quarts of blackberries a day at the Nestuck.

Last Monday night just after Mr. Jeff. Harris and his newly made bride had retired to their nuptial couch, some of their friends appeared 'neath their window and gave them a tune on the violin, the chorus being played with bells, pans, etc. The music was kept up until the groom made his appearance and sent them to Dr. Littlefield's drug store, where they indulged in a few luxuries.

NOTES AND NEWS.

Wonder if the adjournment of the Supreme Court had anything to do with politics?

The Independent candidate for Congress, Mr. Geo. M. Whitney, of Lane county, has withdrawn his acceptance of the nomination, which leaves the Independents without a candidate in the field.

The Reporter wants the people to vote for Brother Warren because he is religious. This is another attempt to foist a man on the people on account of his "religion." The Democrats oppose mixing religion with politics.

We wonder who is employed by Warren to edit the Reporter. The last issue evinces that he has put a new hand at the bellows, to blow him into notoriety. It is no use. The people know, or will know, Warren before the election.

At the recent State election in Alabama, the Democracy carried the State by 16,500 majority, and elected 81 delegates. The Republicans elected only 12 and the Independents only 6. The Democrats are getting cleaned out in every battle.

Boecher's counsel boasted during the trial that their client was surrounded with millionaires ready to spend their bottom dollar on their pastor. How happens it that now, in order to raise the one hundred thousand dollars reward, Plymouthe will be forced to mortgage its meeting house?

The Democratic Platform adopted at Salem, the 30th of July, is good enough for anybody to stand on. The tenets set forth are of the best quality and sound in principle. It is the usual custom for the candidates to make considerable fuss and fury before election over the platform, but as soon as they are elected, from some cause or other they forget all about their promises.

The Reporter virtually concedes that Warren can not make a canvass; but attempts to get out of the difficulty by asking "what sort of a canvass did La Dow make?" This question is not what sort of a canvass did or will a candidate make; but what sort of a canvass can he make? La Dow was a lawyer of fair ability and could, when not ill, make a good speech. But he was sick during the canvass and never recovered. Warren is, in good health, but can not make a good speech.

During the Fever season of last month, the stock of Ayr's Ague Cure in the Old North State became exhausted, and before a supply could be received from Lowell, the suffering from chills and fever became fearful. A few parties were so fortunate as to have it on hand, and in Irred county, the druggists eked out their slender stocks by selling doses--a spoonful each--for a dollar. Many paid ten dollars for a bottle, when the regular price is but one, and thought themselves favored at that, so valuable are the curative properties of this preparation, which not only expels the poison from the system, but leaves the patient with unimpaired health and vigor.--Fulgh (N. C.) Standard.

OREGON NEWS.

And now the reaper reaps, the mower moweth, and the little bumble-bee getteth up the busy granary's trousers-leg and bumbleth.

The piles have been driven for the wharf fronting the farmers' warehouse at Salem.

Mr. Pond, of Polk county, while trying to smoke out some hornets from his well, burned the curb and windlass and caused his well to cave in, but he destroyed the hornets.

Chas. Lemley, of Junction, had trouble with Mr. Foster last week, and the former paid \$50 for the fun of putting a lead on Foster.

The farmers of Wasco county have about completed harvesting and sold their wool and are now in easy circumstances.

A friend of G. W.--, the man who is on the marry, writes us that he has been acquainted with G. W.-- for a number of years, and says that his reputation is excellent and that his moral standing is of the best.

The roads are getting to be exceedingly dusty.

The wheat crop is very thin this season, although an unusual large yield is the result. The grain does not appear to have stood out very well. We hear of much complaint on this account.

Old lady (who sleeps badly); "Now, Mary, if I should want to light my candle, are the matches there?"-- Mary: "Yes, ma'am, there's wan." Old lady: One! Why, if it misses fire, or won't light?" Mary; "Oh, divil a bit of it, ma'am. Sure I tried it!"

Ayer's Cherry Pectoral.

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effective remedy for all diseases of the Throat and Lungs. A vast trial of its virtues throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that Ayer's Cherry Pectoral will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organ yield to its power; and cases of Consumption, cured by this preparation, are publicly known, and are remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy, it is adequate, on which the public may rely for full protection. By curing Coughs, the fore-runners of more serious disease, it saves numerous lives, and an amount of suffering not to be computed. It cheaply tries, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues which are ever exhibited, and capable of producing cures as memorable as the greatest if his expectations.
