wire by which it might be drawn back to the tube after the inspection and repairs. The question arose, how the cable was to be restored to its proper place; and here the ingenuity of the inspector was manifested. He invoked the aid of a rat-catcher, and provided with a large rat, a ferret, and a ball of string wound on a Morse paper drum, he repaired to opening in the tube. The "flushboxes" were opened, and the rat, with one end of the string attached to his body, was put into the pipe. He scampered away at a racing pace, dragging of a giant; not one hour of recreations, the bitting offspring of its exitor. The result is a great deal of destitution and suffering among the masses; there is much begging in and about the temples and in the streets of the old city; there is, too, notwithstanding the terrible cruelty of some restless slumberer, the unpaid mort agar erars up its gaunt front in perpetual to the miserable wight who is held within its pitiless clutch. It holds he poor victims with the relentless grasp of a giant; not one hour of recreation; and off went the rat again until he sprang clear out of the next flush-box. One length of the cable was the put in, and off went the rat again until he sprang clear out of the next flush-box. One length of the cable was the pat in the case of the operator, or the saving of time and suffer-the state of the operator, or the saving of the amont house in the cablect. As the preserva-ing among the masses; there is month a suffer-ting among the masses; there is, too, not the temples and in the streets of the old city; there is, too, notwithstanding the terrible cruelty of the terrible cruelty of the cable the subject.
