The Surgeons of the National Surgical Institute, located in Indianapolis; Pacific Division. Albambra Building, Bush Street, San Francisco, have yielded to the many urgent appeals from their patrons and friends in Oregon and Washington territory and adjoining regions to revisit Portland. The former visit was highly satisfactory and encouraging, many of the patients then accepted for treatment being now entirely cured, while nearly all are greatly benefited and in a fair way of recovery. Three or more of the Surgeons will be at the Cosmopolitan Hotel in Portland, Oregon, from Movday, the 28th day of August, until

days inclusive. They will have with them a great amount of surgical apparatus. appliances, etc., and competent assistants and workmen to change, fit, and make such apparatus as may be required. They will come especially prepared to treat all surgical cases: Paralysis, all kinds of Deformities of the face, Spine and Limbs Diseased Joints, Diseased Eyes, Catarrh, Private Diseases, Piles, Fistula, etc. All who wish to avail themselves of the advantages of the Institute, without the long journey to San Francisco or Indianapolis, should do so at this time. No case will be undertaken without a fair hope of relief. It is needless to say that the institution is entirely responsible, and the largest and most popular of the kind in America, curing thousands annually. Remember the time and place, and come
