ROAD FROM EUREKA HERE

Southern Pacific and Santa Fe Announce The Extension Which Is Planned.

NEW COAST ROUTE

Will Be Created by This Joint Line When It Is Completed.

The Portland Journal contained the following regarding the announcement of the building of a railroad from Coos Bay to Eureka:

"San Francisco, April 30.—When the directors and nominal stockholders of the Northwestern Pacific met yesterday in Secretary Willcutt's office in the Flood building and voted to mortgage the property for \$35,000,000 and sell in New York, it was merely a formality in obedience to the orders of President E. H. Harriman of the Southern Pacific and President Ripley of the Santa Fe, who are the real controlling owners of the property and its proposed extensions.

"The important fact to the people to be served by this road is that its owners intend to make a comprehensive extension into new territory, and that the suspiciously large valuation on which the bonds are to be issued is based on the joint reports of the Southern Pacific and Santa Fe engineers as to the value of the completed system which is to be constructed with the proceeds of the bond issue.

"It is not often that Chief Engineer Hood of the Southern Pacific admits any plans that are not already public information, but today he declared that the company's engineers had run surveys to Eureka up along the coast to Marshfield on Coos Bay, and that men were out recollecting the data of those surveys, as the records were destroyed in the big fire.

"Hood also announced that the line was being built westward from Drain, on the Shasta route, to Winchester bay, about thirty miles north of Marshfield, to which a Southern Pacific extension is also being built.

"These proposed roads and surveys, indicating the connection between Eureka and Marshfield, are admitted to be a part of the plan of extension in addition to the building of the 105-mile gap between Willits and Pepperwood on the run from Tiburon to Eureka. These new lines will add 400 miles to the Northwestern's trackage.
