WILL ORGANIZE BASEBALL TEAM

Challenge From North Bend Stirs up Local Interest in the Game.

Marshfield will probably stir up a baseball team as a result of a challenge from the North Bend club. The latter will put up a purse of \$50. The Marshfield team need not put up anything, and the winner gets the \$50. The gate receipts are to go to any charitable or public institution designated by the Marshfield players. The formal challenge is as follows: "The North Bend baseball club, composed only of local players, invites the Marshfield baseball club to play a social game on Sunday, May 11, at North Bend for a purse of \$50, the gate receipts to be given to any charitable purpose designated by the Marshfield club."

L. J. Simpson, representing the North Bend players, communicated regarding the game, with Arthur McKeown, who was formerly captain of a team at North Bend. The result of the challenge is that McKeown will endeavor to organize a team here, and with this idea in view has called a meeting of the enthusiasts to be held tonight at the office of the Investment Securities company. An effort will be made to interest Coquille, Myrtle Point and Bandon with the idea of having a league.

ARRANGE FOR A BOXING CONTEST

Jack Williams, of Dawson, is here arranging for a boxing match with Charles Ross. The date has not been definitely determined, but it will probably be a week from next Sunday.

Williams now weighs about 174 pounds and will have to train down. Yesterday it was agreed that the men should weigh in at 165 pounds at the ringside. There will be a bet of \$200 a side, which must be put up today. Of this amount \$100 is to be forfeited by either man if he does

not weigh out according to the agreement. The contest is to be fifteen rounds. The place has not yet been decided upon and will be announced later. The articles of agreement have been drawn up, and there now

JACK WILLIAMS, Who Will Box Fifteen Rounds With Charles Ross.

remains only the putting up of the money.

Ross has had several fights here. Williams was recently in Alaska, and has participated in contests in many cities. The promise some excellent sport in the boxing line.

"SLIMS" ARE VICTORS.

The game of baseball between the "Fats" and the "Slims" at North Bend Sunday was largely attended. The proceeds went to the Mercy hospital at North Bend, and the sum of \$56.25 was cleared.

The "Slims" won the game, the score being 6 to 8. The "Fats" are still of the opinion that they are superior in skill.

PREPARATION FOR BOISE MURDER TRIAL

(Continued from page 5.)

furnished in recent years by the A. P. We hope to be able to beat that record in the report of this case, which is so much greater and of such vast importance that it is not to be compared for a moment with the Thaw case of New York or any other great case of recent years.

"Not only is this country interested, but from the whole of Europe has come inquiry as to how the case will be covered. I am informed by the manager of the great Reuter's news agency of Europe, through its representative in New York, that they expect to cover Europe throughly with the detailed report from our Associated Press service. With the Reuter's agency, are also the Havas agency of France, the great Wolff news agency of Berlin, the Stephanie agency of Italy, and the Russian agency. All are allies with the Associated Press, and the report will go to all of them."

Newspapers Represented.

John Fay of Chicago arrived in Boise to report the coming trial of William D. Haywood and his companions for the New York World. Mr. Fay has had charge of the Chicago end of the World's service. He expects to stay until the end of the trials. He said:

"Every indication is that there will be scores of visitors in Boise during the trials. I know of many lawyers who are expecting to come just to watch proceedings and many newspapers will be represented here personally. The Hearst papers will have several men here I understand. Luke Grant, the labor writer for the Chicago Record-Herald, will be here and the Chicago Tribune will probably send their feature writer, Mr. Van Patten. The Chicago Chronicle will also have a man here in all probability and so will the New York Sun. Probably the Cincinnati Enquirer and one of the St. Louis papers will be represented. The Inter Ocean will depend on the Associated Press report supplemented by the World's special service. Besides these there will be quite a number of magazine men and some sketch artists.

"There is a great interest in the trials in the east. I was much surprised to find so little excitement here. There is more talk about these

trials on the streets of Chicago than there is on the streets of Boise."

Many Witnesses.

During the last few days preparations for the coming trial have been going forward in earnest. Many of the witnesses for the state and for the defense have already been subpoenaed. It is learned that already about fifteen witnesses for the state have been served in Canyon county. From Colorado a dozen or more witnesses for the state will be called and it is said that most of the witnesses for the defense will be called from that state. Most of the witnesses from Canyon county for the state will be those who testified at the preliminary examination of Harry Orchard.

One of the important witnesses from that county will be former Sheriff Jasper Nichols. Other witnesses will be Andy Johnson, Gene Johnson, two local detectives who worked on the case early in the beginning of investigations. Chris Thiele, assistant superintendent of the northwest division of the Pinkerton agency, who is now in Boise, will be another witness. It is expected that the two most important witnesses will be James McPharland, chief of the Pinkertons and Harry Orchard. The testimony of these two men will probably be the big news feature of the coming trials.

Mrs. Haywood Coming.

Mr. Libby of Denver, who will have charge of the transcript work at the trial for the attorneys for the defense, having several expert stenographers under him arrived in Boise. His helpers will arrive the first of the week. He came in advance to procure suitable office rooms to turn out the work in and to engage rooms for his assistants. He stated to Mr. Richardson when he left that he planned to leave for Boise on Saturday, expecting to arrive here Monday.

Word was received by William D. Haywood at the jail yesterday that his wife, for years an invalid, had decided after much hesitation and consultation with her physicians that she would journey to Boise to attend the trial of her husband. She is now on her way here, having left, according to telegraph advices, with Mr. Richardson yesterday accompanied by her two children. This will be the first meeting between Haywood and his family since he was arrested in Denver.

Rooms have been procured for Mrs. Haywood and her children close

to the court house and an invalid chair will be gotten in readiness for her occupancy in the court room during the trial of her husband. Everything will be done to make her as comfortable as possible during the coming ordeal. Haywood is very jubilant over the news that his wife's physicians have contended her making the trip.

COMMISSION NAMES INSPECTOR

G. H. Gram and W. B. Chance Will Inspect Shops of the State.

Salem, Ore., May 6.—Labor Commissioner O. P. Hoff has appointed C. H. Gram of Portland, as one of the inspectors of shops and factories and he will assume his duties May 24 when the new law becomes effective. Mr. Gram is president of the State Federation of Labor and was highly recommended to Commissioner Hoff as a man who would do his duty fearlessly and effectively. For the past four years he has held the presidency of the federation, and has proved himself efficient in that capacity. He is at present chief lumberer for one of the big transfer concerns in Portland, and has had much experience in the sawmill business. The territory included in the district that will be under his charge consists of the counties of Multnomah, Clatsop, Columbia, Tillamook, Washington and Yamhill.

The other appointee was W. B. Chance of Albany, who is said to be well qualified for the position to which he has been chosen. He is a mechanic of ability and has been for some time employed in the construction department of the Southern Pacific company.

Another inspector is to be appointed, and he will be chosen in all probability from the eastern part of the state. There have been numerous applications to the labor commissioner for the position within his appointing power, and it has been with great difficulty that the choices were made, for many of the applicants came well recommended and were men more than ordinarily qualified for the duties of the office they sought.
