Marshfield, Oregon.

GOVERNOR'S VISIT

The week that is just commencing should mark an epoch in the public enterprise of Marshfield and Coos Bay. Through the efforts of one of our live local fraternal associations we are given the honor of entertaining the popular chief executive of our growing and prosperous state. Governor Chamberlain has a host of personal friends scattered all over Oregon, and the history of two successful political campaigns tells the story of his host of political supporters who irrespective of their fixed party loyalty, believe in the man and his methods. The secret of the governor's popularity lies, in a great part, in the fact that he himself is an earnest believer in, and a zealous advocate for the larger development of our state's resources. In him we find reflected the composite desire of all our people to make Oregon all that is fair, lovely, gifted and substantial among the states of the union.

It is therefore not strange that Governor Chamberlain should find a congenial travelling companion in Tom Richardson, who, while occupying no official position, is nevertheless a public man in the highest and most accepted use of that term.

Tom Richardson has been selected by the Portland Chamber of Commerce, with whom all the affiliated commercial organizations of the state co-operate, to take charge of, plan, and devise all the details which are necessary to the work of exploiting and developing the inexhaustible resources of the state of Oregon. It is his business to catch, hold, concentrate and utilize all that the head and heart of the enthusiast-dreamer and optimist can conceive and dictate for the upbuilding of a great commonwealth. There is no publicity man in the country who better satisfies the demands of an ambitious people for work along these lines than Tom Richardson. Governor Chamberlain and Tom Richardson will be with us during the coming week.

They will gladly welcome the opportunity to say or do anything that will materially advance the development of Coos Bay, for Coos Bay is a part of Oregon and they claim the whole state as their necessary field of endeavor. But the people of Coos Bay must not be content to accept all and give nothing in return. The reception to be accorded them must be of such a nature as will instantly impress them with our faith, enthusiasm and sincerity of Coos Bay, and cause them to spread the gospel of our good works to the uttermost ends of the world.

OPPORTUNITY

Harney county is experiencing a heavy tide of immigration and the county is rapidly filling up with new blood. Accounts say that the old settlers are looking askance at the influx and doing all in their power to stem the tide. The newcomers, however, are riding over all obstacles and are utilizing land, for years thought to have been worthless, for the raising of sugar beets.

The antipathy of those venerable old settlers, who have lived in undisturbed tranquility for so many years, to the newer element, that is destined to succeed them, is in a sense pathetic. The situation in

Harney county is but one of thousands in this country. Slowly but surely the new blood is predominating. It is the day of the young man. Those ideas that applied even twenty years ago, are today antedated. In every line of business in every village, town and city in this country. Keen competition demands keen young blood.

Opportunity never smiled in a more inviting manner than now. It is knocking at the door of every youth; extending him a kindly challenge to test his mettle. That is a common remark we hear, that "the chances fifty years ago are gone." It is true that they are gone—gone as surely as the tallow candle and the stage coach. But as the electric light and steam car usurped the places of the candle and stage so has the nineteenth century eradicated the "chances" of fifty years ago.

The world today cries for young men—young men with clear heads, clean minds, clean bodies—young men who say they will and will. For these the opportunities of today are so rich, so golden that those of yesterday in comparison are insignificant.

DESTROYING YOUNG SALMON

The McKenzie fish hatchery has come in for a great deal of newspaper notoriety recently because of a newspaper article written by former State Deputy Fish Warden Webster. The article stated that thousands of young salmon fry liberated from the hatchery were devoured by the dolly varden and white fish. A personal investigation by Master State Fish Warden Van Dusen has brought to light that the fish claimed to have been found in the stomachs of these fish must have been dead fry that

were thrown from the hatcheries. Letters and affidavits which Mr. Van Dusen is in receipt of from employes of the McKenzie hatchery are to the effect that the dolly varden and white fish do not destroy young salmon fry. The matter has called forth much newspaper discussion and now that it is apparently proven that the young fish from the hatcheries are not being destroyed as was feared sportsmen and others will feel relieved.

LIGHTEN UNCLE SAM'S BURDEN

Polk county citizens are showing their indomitable determination to come in for some of the rich timber holdings of the Southern Pacific and that county should be the result of the attorney general's investigation prove adverse to the railroad company. Over 200 locators have posted notices on quarter sections in anticipation of a reversion of the land to the government. The people of Polk county are evidently going to save Uncle Sam the responsibility of having any surplus land on his hands.

BAKER VALLEY ENTERPRISE

In the country contiguous to Baker City ten thousand acres of land is being put under irrigation. Heretofore the land has produced nothing but an abundance of sage brush and a quality of grass. Under irrigation the land will produce wheat, oats, barley, potatoes and fruits of all kinds. The reclaiming of this immense area of worthless land into a rich productive promising country speaks highly for the enterprising spirit of our neighboring city and country.

SELF MADE LEADERS

All Spain is celebrating the arrival

of its future king. For weeks and months preparations have been in progress and now that the heir has arrived he is almost submerged with homage, adulation, and court ceremonies. The future king was born on May 10. We wonder if any future presidents were born on that date. The question will remain unanswered until many years distant. America's leaders make themselves.

1795 to 1907

A Paragraph History of Coos County Told From Time To Time.

First Settlement.

Port Orford was the first place settled in Coos county, now Curry county. Discovered by Don Martin D'Aguilar while sailing along the coast in 1795. It was later named by Captain George Vancouver who made the first scientific and systematic examination of the northwest coast of America. Inhabitants at that time are described as very honest Indians, undersized in stature, long black hair, and dressed in garments made from the skins of otter, bear, deer and fox. Vancouver named Port Orford in honor of a friend, an English earl.

Freight Rates.

Captain William Tichenor, one of early navigators of the waters of the coast by steamship, in 1850 made the first regular stop at Port Orford. Freight was then \$60 to \$80 per ton. Passage to Portland sold for \$80. Coal sold for \$60 a ton. Seamen were paid from \$60 to \$100 a month.

IF YOU WANT CASH

For your Real Estate or Business I CAN GET IT

No Matter What Your Property is Worth, or in What Town, City State or Territory it is Located

If I did not have the ability and facilities to sell your property, I certainly could not afford to pay for this advertisement. This "ad" (like all my other "ads") is practically sure to place on my list a number of new properties, and I am just as sure to sell these properties and make enough money in commissions to pay for the cost of these "ads," and make a good profit besides. That is why I have so large a real estate business today.

Why not put your property among the number that will be sold as a result of these "ads?"

I will not only be able to sell it—some time—but will be able to sell it quickly. I am a specialist in quick sales. I have the most complete and up-to-date equipment. I have branch offices throughout the country and a field force of men to find buyers.

I do not handle all lines usually carried by the ordinary real estate agents. I MUST SELL real estate—and lots of it—or go out of business. I can assure you I am not going out of business. On the contrary, I expect to find, at the close of the year, that I have sold twice as many properties as I did the past year, but it will first be necessary for me to "list" more properties. I want to list YOURS and SELL it. It doesn't matter whether you have a farm, a home without any land, or a business; it doesn't matter what it is worth, or where it is located. If you will fill out the blank letter of inquiry below and mail it to me today, I will tell you how and why I can quickly convert the property into cash, and will give you my complete plan

FREE OF CHARGE

and a draft me right in. The information I will give you will be of great value to you, even if you should decide not to sell. You had better write today before you forget it. If you want to buy any kind of a Farm, House or Business, in any part of the country tell me your requirements. I will guarantee to fill them promptly and satisfactorily.

David P. Taff, The Land Man, 415 Kan. Ave., Topeka, Kas.
