

OBSERVATION EXCURSION

Will Go to Bandon-by-the-Sea
And Sunset City Sunday
June 23rd.

FLEET OF RIVER BOATS

Bonfire Bathing a New Luxury—
Tents for Bath Rooms
on the Beach.

What promises to be the greatest excursion ever run out of Marshfield and North Bend will go to Bandon-by-the-sea—and Sunset City, Sunday, June 23, a week from next Sunday. It was at first decided to have this excursion tomorrow, but the Eagles' picnic to Charleston Bay came on that day and the manager postponed his excursion one week.

The bills announce: "The Finest Observation Train Excursion Ever Seen on the Pacific Coast." When a Times reporter questioned this the excursion agent got red in the face and hot under the collar and said: "I will make good everything I advertise 'and then some.'" The open cars of the C. B. R. & E. Ry. are to be comfortably seated and decorated with evergreens. The Denver & Rio Grande Railway spends thousands of dollars every year advertising its observation car through the canons of Colorado. And this much advertised observation car is nothing else but an old flat car furnished with seats. If one measly flat is good enough for "See America First" tourists in the centennial state, I guess ten open cars comfortably seated and decorated with evergreens ought to be good enough for Coos Bay people to see Bandon Beach, which is as much more picturesque and unique than Colorado's famous Garden of the Gods, as the Pacific Ocean is superior to the alkali flats of the arid state. "All sunshine makes the desert" is an old Arabian proverb. Coos county has enough moisture in her atmosphere to prevent you breathing in dust and spitting out mud balls.

All the passenger boats of the Coquille River Steamboat company have been chartered for this excursion, the "Dispatch," "Liberty," and "Favor-

ite." To give you an idea of this fleet of excursion boats it is only necessary to say that the "Dispatch" carries three times as many passengers as any boat on Coos Bay—and this by government inspection.

The ride down the Coquille River is well worth the price of the excursion. Not only the beautiful landscape of hill and dale, but the banks of the winding river are decorated by the Great Landscape Architect of the Universe with a profusion of myrtle, ferns and sweet smelling shrubbery with wild flowers of every description blossoming with beauty.

Get away from the town and its factories for a day's outing and invite your soul to the inspiration that any lover of nature enjoys with a thrill of rapture.

The business man can see a procession of log booms that reaches almost from Coquille to Bandon with eight logging railroads to feed the hungry sawmills that eat up a thousand logs every day and in their fury spit out sawdust by the wagon load and breathe hot steam from fiery lungs.

See Riverton and Stapleton, rivals for the Drain and Coos Bay railway; both of which have it surveyed, located, and all but built.

See the thriving Price shipyard that is now building four ocean steamers that stands on ground that had not a ten penny nail at the beginning of the year.

See Cody's landing and logging railway and further down the river, on the edge of Bandon, see the great Cody 100,000 feet sawmill nearing completion. Adjoining it will be built the \$250,000 pulp and paper mill for which Bandon's hustling, enterprising citizens raised \$50,000.

We have passed Prosper and its mill, Aberdeen and its industries and have not mentioned them.

But greater than all is Bandon itself, with its woolen mill that has orders for its famous woollens 18 months ahead. See the Government Life Saving Station butting up against the principal hotel, almost in the heart of the city-on-the-sea.

But greater than all Bandon Beach with its water-worn statuary-chiseled by the waves—so that a natural philosopher, with the gift of seeing things, can see the shape of every animal from the monkey to the lion and up to the elephant. There are squaws, bucks and papposes and hunchbacks. The beef eaters that guarded the tower of London, Gog and Magog are there. And there are caves, arches and natural bridges, such as is to be seen nowhere else—all carved by waves.

And there are miles of sand beach as level as a billiard table, and at Sunset City temporary bath houses are being erected so that men and women can take a dip in the Pacific.

A huge bonfire of the driftwood will be built so that you can take a bath comfortably in a hail storm.

The Bandon Concert Band—the best band in any city in the United States—the size of Bandon, will give two grand concerts on the Beach for excursionists.

Fare for the round trip including bathing, concerts and all, \$1.50. Observation train leaves at 8 a. m.

Returning boats leave Bandon at 5 p. m. Train arrive at Marshfield 8 p. m.

See Bandon Beach and Sunset City and Live.

NOTICE TO OUR CUSTOMERS

—We are pleased to announce that Foley's Honey and Tar for Coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. Red Cross Pharmacy.

"North Bend---Its Payroll Talks"

"If a man can write a better book, preach a better sermon, or make a better mouse-trap than his neighbor, though he build his house in the woods, the world will make a beaten path to his door."—RALPH WALDO EMERSON

Just now empire builders are building iron-shod paths to the commercial door of North Bend because its factories have the freight to ship, and their payroll talks.

Like seeks like. Is an eternal law of nature. Although but imperfectly recognized, is absolute. This same law holds good in building of factories. A factory is built always at that point where there are fewest obstacles to be overcome, where tributary raw materials are unlimited and markets unrestricted. If this holds good in one case it will hold good in several—a dozen or a hundred.

North Bend but a few years ago had one factory, soon it had several, now there are a dozen, and the raw materials are here for a hundred more. Factories make payrolls, these in turn create business houses which invite banks, jobbers, traders and transportation facilities, and all go to the making of a city because "Its Payroll Talks," which creates a demand for real estate. There is beat to our door because we have the best bargains in North Bend real estate.
