

THE NEW "COOS" BRICK BUILDING

The Three-Story Brick Soon To Be Erected by Messrs. J. L. Bowman and Anson Rogers in Marshfield Will Be a Credit.

A modern building which will be a credit to Coos County and Marshfield, will be erected on the southeast corner of A and First streets by Messrs. J. L. Bowman and Anson Rogers, Jr. It will occupy a ground space of 100x50 feet and will contain three stories and a basement. The building will be constructed of brick, and will have a facing of terra cotta colored brick manufactured at Newberg, Oregon. On the first floor there will be four store rooms, two 27x50 feet, the other two 18x50. The second and third stories will be office rooms, numbering in total, thirty-six. The entire building will be wired for electricity and piped for gas, and will be heated by steam. The basement and foundation will be constructed of concrete and will

be divided into compartments for storage and for accommodation of the heating plant. Entrances to the store rooms and the toilets will be tiled and every modern convenience which such a building should have this will be equipped with. The ground floor rooms will have the latest plate glass fronts, and cement walks will surround the building. Mr. Bowman stated that the building will be as nearly fireproof as it is possible to construct a building, without a steel frame.

The owners of the building have decided to designate it as the Coos Building, an appropriate name. Messrs. Bowman and Rogers make the claim for the structure that it will be the best building of its size in the State, outside of Portland.

The plans for the building were drawn by Travis & Wilson, of Portland, and were brought down by Mr. Bowman when he arrived last week. Bids will be solicited immediately for the construction, and in case the factories on the bay can furnish the class of brick required for such a building, the work will be started very soon. Should the Glazier or Utter yards not be able to manufacture the class of brick necessary, then brick will be purchased outside and shipped in.

The builders have faith that the new yards will be successful in making a first class quality of brick, for both companies have brick that have been made outside from clay taken from the properties of these companies, and they are excellent in every particular.

J. S. Bowman, wife and two daughters, of Portland, are visiting at Anson Rogers' home on Coos River.

Mrs. J. T. Colver, of Catching Inlet, was in town yesterday.

John Pruess and family are camping near London.

PERSONAL NOTES

Mrs. J. W. Butler is having a fine new residence erected on Farrin Heights, which will, when finished, be occupied by Mr. Flye and family.

Mrs. J. W. Flanagan, of Plat B, was in Marshfield yesterday.

Miss Nina Lyon left on the Plant for the south.

Miss Ethel Boone, of Sumner, was in Marshfield yesterday.

Miss D. Skeels left yesterday morning for her home in Coquille.

Mr. O. T. Knapp arrived on the Bay from Oakland, Cal., on his way to Coquille, where he will visit with friends and relatives.

Mr. Frank Lamberton spent Saturday in Empire.

Will Ireland returned to the Bay on the Plant after an absence of a number of years.

Mrs. W. Furman, formerly a resident of Coos Bay, has returned after a four years' absence, having lived during that time at Los Angeles, Cal.

Misses Lena and Bertha Kruse arrived on the Plant from their home in San Francisco. They will live in North Bend with their father.

Mr. F. S. Dow left today to pay a business visit to the Coquille country.

Mr. Sig Hanson left this morning for Coquille.

Miss Oma Marsh is visiting Capt. Nelson and wife at the Life Saving Station.

Miss Mable Manzey is expected home on the Breakwater.

Mr. Frank Dillon leaves for Los Angeles on the Plant, where he will spend his vacation and also attend the Teachers' Convention.

G. W. Bolt is having his home on Cheridan street improved.

Eddie Bolt cut his foot quite severely on crockery while playing in a lot adjoining his home.

Miss Frances Beatty has returned to the Bay and is the guest of Mrs. Milo Sumner.

Miss Irene Pruess is visiting Miss Marian Beatty of Cottage Grove for the summer.

Mr. and Mrs. A. Malson and Mr. S. D. Magnes spent Sunday at the Kruse home on Isthmus Inlet.

Mrs. Frank Bowman and family left yesterday for a two weeks' outing at Ten Mile.

Mrs. Jim Cowan and family left yesterday for Sumner on a camping expedition.

Bill Ireland, Mrs. F. Denning, Mrs. H. Noble and son left yesterday for Daniel's Creek, where they will gather berries.

Mrs. Emil Ogren and Mrs. J. Mills and family left for Sumner yesterday to visit friends and also camp.

George Deubner and son left for Oakland Sunday morning, after a short visit with relatives.

Phil LeFevre, foreman of Bantano Logging Camp at South Slough, arrived from Portland yesterday morning.

Henry Diero, of North Bend, was in town yesterday.

Mrs. Kindsley, who has now recovered from her injury, leaves for her mother's home in Oregon City, accompanied by her daughter Ethel.

L. J. Simpson and wife drove to Bandon Saturday and returned Monday.

Mrs. D. W. Thurston, who has been ill, is now convalescing.

S. F. Saulkenstein left on the Plant for San Francisco to attend his wife, who is to have an operation performed.

Miss Mary Minot met with a serious injury yesterday by severely spraining her ankle.

Dr. and Mrs. Tower and daughter drove to Coquille Sunday and returned the same evening.

Sheriff Gage was here Monday.

Mrs. Robertson, of Catching Inlet,

was in town shopping yesterday. Mrs. T. Veatch, of Coos River, was in Marshfield on Monday.

FOURTH ENJOYED ON COOS RIVER

Many Attended Picnic at Myrtle Bank Grove.

Sumptuous Dinner Served—News in General of the People's Comings and Goings.

Mr. Bowman of Portland is visiting with his wife and children at the home of Mrs. Bowman's father, Mr. Anson Rogers, on South Coos River. Mr. Bowman arrived here July 5th, but Mrs. Bowman has been here several weeks.

Miss Rena Danielson of Bandon, accompanied by her cousins, Mr. Fred Blundell and Miss Martha Blundell, is visiting for a few days at the home of her sister Mrs. J. A. Smith, on South Coos River.

Mrs. J. Irving Smith of North Bend, and her small daughter, Miss Naomi, spent the Fourth on Coos River with her parents, Mr. and Mrs. E. J. Coffelt.

Mrs. W. B. Piper of North Bend, has recovered from her late illness sufficiently to permit her to accompany her husband on a visit of a few days' duration at the home of her son W. F. Piper of North Coos River.

Jack McDonald is moving his household effects to the Daniels' Creek logging camp, of which he has taken charge.

An unusually pleasant Fourth is reported by all who attended the picnic on North Coos River. The beautiful grove, known as Myrtle Bank, on Mrs. Sandrith's place, was the scene of the day's festivities. The picnic was quite largely attended and proved a very enjoyable one. During the morning an interesting program was rendered, consisting of music, recitations by Miss Lucia Morgan and Master Fremont Hodson, the reading of the Declaration of Independence by Mr. James Landrith, and an address by Mr. Webster. The program was followed by a sumptuous dinner, which of course, was not the least important event of the day. The afternoon was spent in playing games, and other amusements and a dance at the hall in the evening closed a very pleasant day.

The New "Coos Building," To Be Erected in Marshfield

Piano and Player Combined

We have just received a shipment of Needham Pianos and Players combined, established 1846 by Elias Parkman Needham, which we will be glad to exhibit to anyone wishing to hear them. We have a few questions which you may ask us and which will be beneficial to you to know before selecting a combined Piano and Player.

- No. 1. What particular advantages are gained by building the Player action in four distinct sections?
- No. 2. What is referred to by the term "means of adjustment"?
- No. 3. Does any part of the action have to be removed in order to tune the piano in the proper way?
- No. 4. In case it is necessary to remove part or all of the player action from the piano, how much time and trouble is required?
- No. 5. How do you disconnect the rubber tubes from the action and from the expression box, and in replacing them is not care required to prevent leakage?
- No. 6. Why is it undesirable to buy what are termed "cheap pianos" with the player attachment?
- No. 7. Does not the placing of the action in front of the piano muffle the tone to some extent?
- No. 8. What is the advantage of your "Staccato Forte" device that you have referred to, and is it difficult to learn to use it effectively?
- No. 9. How about the music rolls? How large is the supply and where can they be obtained?

We are using the Universal Tracker Board published by the Universal Company, whose catalog today contains over ten thousand rolls of Classical, Sacred and Popular compositions and all the new music issued monthly. No player that cannot present an enormous catalog is of any value, and the rolls that can be used by the Needham Piano and Player are endless in variety.

We buy everything in the Music Line from a Guitar string to a Grand Piano directly from the Foreign and Eastern Jobbers and Factories. We are not handling either on commission or consignment and can therefore furnish you with anything in the Musical Line at prices and terms which you could not do better anywhere in the United States.
