The plant will be run day and night until the boilers are completed.

PAST WEEK A RECORD ONE FOR THE MARSHFIELD CHAMBER OF COMMERCE

More Important Business Disposed of Than Ever Before In History of That Organization— Hotel Proposition— Secretary Lyons Securing Speakers For Friday Night

The past week was a busy one with the Marshfield Chamber of Commerce, culminating with the assurance of a new hotel, the most pressing need of the city. Chairman Grimes, of the hotel committee from the Chamber of Commerce, has been active in the matter and not until a late hour last night was an agreement reached with Mr. Gibson, of Seattle, by the terms of which Marshfield is to have a \$50,000 hotel.

Newcomers have made their headquarters at the Commercial Club's new hall, and though there has been more or less chaos incident to the opening of the hall, painting and placing new furniture, many prospective settlers and business men formed the acquaintance of those with whom negotiations are now pending. New chairs, new benches, new roll-top desk, new tables, new typewriter, newly painted floor and walls give a cheery and home-like appearance to the new quarters.

This week, another long table will be put in the hall on which will be placed literature descriptive of Coos Bay, and stationery that visitors may write to their families and friends, back east, of their impressions of this harbor and its resources. A new pamphlet will go to press this week, which will be sent out from headquarters to all inquirers.

The new hall will also be supplied with maps and photographs so that visitors may get a correct idea not only of Marshfield, but of the entire Coos Bay country. There has been a disposition to put a check on further advertising until the hotel question was settled.

That now out of the way, the campaign will now be taken up in earnest. There were two good meetings the past week, and another rousing gathering is planned for Friday night. Speakers are already

being secured and something worth hearing about the resources and prospects of Coos Bay is in store for those attending.

As evidence of the growing interest in Marshfield and the Coos Bay country, two citizens, dropped into the Chamber of Commerce hall today, paid their initiation fee and enrolled as active members.

Secretary Lyons will be at headquarters all this week and announces that the latch string hangs on the outside and the membership roll is open for any who wish to join the commercial organization.

Also the subscription paper for the remaining \$15,000 worth of 7 per cent hotel bonds can be found at the rooms until they are taken.

HARRIMAN WILL VIOLATE LAWS

New York.—During luncheon today on board of the Southern Pacific company's new turbine steamship, the Creole, E. H. Harriman startled those present by announcing that since the United States government intends putting in service its steamships to carry coal to the Pacific coast he would do the same. "The bars are down," said Mr. Harriman, "and I am going to ship coal to the Pacific coast in foreign vessels."

That he proposed setting the navigation laws of the United States to one side aroused his listeners.

There were several present who called his attention to the navigation laws that expressly state that a foreign ship shall be confiscated if she engages in coastwise trade in the United States.

That the government about two weeks ago made charters with rep-

representatives of foreign cargo steamships to carry coal to the Pacific coast became first known afterward, and it was suggested that the government could not break its own laws. The secretary of the navy acknowledged that such charters had been made and asserted that it was impossible to obtain vessels under the American flag to carry coal.

Whether or not conditions in time of peace will allow such charters to pass unchallenged remains to be seen, but many of Mr. Harriman's hearers sated their belief that an attempt on his part to send coal to the Pacific coast for commercial use in ships not flying the American flag would open the way for serious complications.

MISSING YOUTH FOUND IN PORTLAND

A letter received from Mat Kerrigan, of Coquille, states that the

whereabouts of his son, who was thought to have disappeared, have been found. The young man is in Portland, where he expects to enter a preparatory school for naval cadets.
