Today will offer attractions at both North Bend and Marshfield. The League ball teams from Bandon and Coquille will come over from the one or the other to keep up the win-ning streak they displayed last Sunday. Bandon took North Bend into camp by a decidedly uneven score, while Coquille was making life a burden to Bert Dimmick and his aggregation. But the games today are on the home grounds of North Bend and Marshfield, and this fact is always tinged with hope for the hosts and fear for the guests. But this rule is not at all times safe to figure on and the plans based upon it often go awry.

Paul Peralta, the old war horse of baseball in this section, already has visions of the pennant decorating the flagstaff at the Coquille baseball grounds, while North Bend, with whom Coquille will today dispute for nine innings, is as determined to land the game. Collier, the young pitcher Peralta has been coaching, is a tractable boy and is improving every day. He will be sought by the larger leagues before the season is out, if his work remains as satisfactory as it has been for the past two weeks.

North Bend has made several changes in its positions and Captain Lyons believes for the better. Keane goes to short, and Wickman takes a long jump in from the field and will attempt to squelch the hot ones which drive about the vicinity of third. He knows he is tackling the most difficult position on the diamond, but he is nifty and will look pleasant if he falls. Graham will twirl the sphere for the Coquille bunch to guess at, and if his support is usually excellent, Coquille will earn the game if she wins it.

The game between Marshfield and Bandon is causing some speculation. The boys from the beach are hardened and playing better than at the first part of the season. Several changes have been made in their team, and they are presenting a game but is worthy of the League. They won from North Bend last Sunday through errors, but with the addition of several good players and two left-handed pitchers, they are in shape to successfully dispute the right of any team in the League to walk away with the persimmons.

Marshfield will have some change in its line-up, Liljeqvist being out to be out of town. The referee Wright will officiate on the side. Jimmy Cowan will take the receiving end. The team has not been practising faithfully, and if they are worsted by their defeat to annul. It is to be a large crowd this afternoon, as many are expected to be present. The Bandon boys will have up their sleeves. The game is called at 2:30 sharp.

There has been some talk of playing the games of the divide, one in the morning and one in the afternoon, the fans opportunity to attend both tests. There is opposition against this proposal, as it would shorten the gate and both teams are loaded and it may be there some arrangement. The teams are alternating the afternoon games at North Bend and here the teams want to know what scheme would be satisfactory to patrons, they can take word for it; there would be no objections.

The Marshfield line-up: pitcher; Cowan, catcher; DeLoach, first base; McKeown, second base; McLain, third base; Tower, shortstop; Ferrey, right field; Wells, center field; Wooley, left field.

# COUNTERFEIT COINS PASSED

Spurious Five Dollar Gold Pieces In Circulation On Coos Bay.

## TWO FIRMS ARE VICTIMIZED

North Bend News Company and Billiard Parlor In Marshfield Take In Money.

Counterfeit money is making its appearance on Coos Bay and there is much excitement among the dif-

found themselves in possession of the spurious coins. The North Bend News Company of North Bend was the first firm known to have been victimized.

The first intimation received in Marshfield was in the shape of a warning to Robert Marsden, proprietor of the billiard parlor on Front street. After being informed, Mr. Marsden was on the lookout for the coins and on Saturday night one answering the description was handed in. The gentleman passing the coin was entirely innocent that he was in possession of a counterfeit coin and was nonplussed on being informed of its real character.

The North Bend News Company of North Bend has discovered five of the coins in its till. The money is in every cast five dollar gold pieces dated 1903, and said to be an excellent imitation.

LOST—A purse between Libby and North Bend.

# AT THE CHURCHES

Where You May Worship Today

## DYNAMITE FOR HORSEMAN.

Chicago, July 12.—An attempt was made tonight to blow up the home of John Condon, the race track magnate and leader in the recent fight between the Western Jockey Club and the American Turf Association. Either dynamite or some other powerful explosive was used by the person or persons who sought to harm the owner of the place and his family. As a result of the explosion a hole seven feet in diameter was made in the building and several

# "North Bend---Its Payroll Talks"

"If a man can write a better book, preach a better sermon, or make a better mouse-trap than his neighbor, though he build his house in the woods, the world will make a beaten path to his door."—RALPH WALDO EMERSON.

Just now empire builders are building iron-shod paths to the commercial door of North Bend because its factories have the freight to ship, and their payroll talks.

Like seeks like. Is an eternal law of nature. Although but imperfectly recognized, as absolute. This same law holds good in building of factories. A factory is built always at that point where there are fewest obstacles to be overcome, where tributary raw materials are unlimited and markets unrestricted. If this holds good in one case it will hold good in several—a dozen or a hundred.

North Bend but a few years ago had one factory, soon it had several, now there are a dozen, and the raw materials are here for a hundred more. Factories make payrolls, these in turn create business houses which invite banks, jobbers, traders and transportation facilities, and all go to the making of a city because "Its Payroll Talks," which creates a demand for real estate. There is a beaten path to our door because we have the best bargains in North Bend real estate.
