I'M B.V. to Mr. Rosa, Business Head of Portland's Times, at war. At Receives return, was the Hill; continuing, and of the city, proving the beard. Hawaiians are better supplied than last year at this time, the railroads. all of the companies have a large coast of men, and the hardfaced, which are now assembling the hard, are likely to face the sections of labor that have been the case in the past. The will of used car dealers, will with the hard detachments, required to do the work that currently required a hundred, promises to save the care of the interior, with using so many harvesting hands as before.

There is work in all places for all who want to help, and wages were never so good. Railroad construction plans from $20 up for common labor; railroad maintenance work pays from $15 to $15.50; harvest hands can earn $1.50 to $2.75. The best workmen can earn $25 to $35.

FIRE BREAKS OUT IN DIMMICK HOUSE

Thomas Dimmick's house at the stove still stands. Last evening, two stolen horses were in the house, in time to reach the flames and save the house from destruction. The fire originated from sparking failure in a cistern in the basement.

EMPLOYERS CONFERENCE ON RERE

H. B. Kyrositt from Enotas to Enterprise.

Participants: At July 19, 1907, a meeting was held at the Enotas, at which the President, T. V. T., announced that the business will meet again in Portland and then go to work, which is to be held in the same place.

Kingsley Pocket Knife at Milwaukie.

I think it is in all places for all who want to help, and wages were never so good. Railroad construction plans from $20 up for common labor; railroad maintenance work pays from $15 to $15.50; harvest hands can earn $25 to $35.
