PORT COMMISSION

The changes approved by the North Bred and Marshfield Chambers of Commerce to encourage business and report on the proposal for a parking facility for Coss Bay, will be exhibited tonight and for the balance of the week at the Marshfield Chamber of Commerce room for the purpose of discussing the matter and reaching an agreement on reports to be submitted on Friday evening at one of the regular meetings.

A great deal of interest has been developed over the past summer, and the growth of Coss Bay can now be seen in the way people visit the community during the year. The chamber has the goal of giving the city the best possible facilities to promote tourism and encourage business.

The mending of the roads, temporarily closed to traffic until late this fall, will be completed next week and the road will be open to traffic.

The town council of Coss Bay will be taking up the matter of the mending of the roads, temporarily closed to traffic until late this fall, and the road will be open to traffic.

The building of a new building in the town will be completed next week and the road will be open to traffic.

C. A. SMITH COMPANY GETS BIG BOILER

The Brooklyn is the world's power boiler for the Williamsburg, built for the C. A. Smith Company. The boiler is to be installed on the 10,000-ton Pennsylvania, the largest ship in the world, and will be used for the building of the new vessel.

The shipyard in the world will be the site of the building of the new vessel, which is to be used for the world's biggest ship.
