

# ABOUT YOUR HOME

Every man intends, sooner or later, to own his own home. The first necessary step is to secure a pleasant and healthful location, at a price which he can afford.

Pure air, pure water are first considerations. Pleasant surroundings, accessibility, cleanliness and shelter from high winds are to be desired, too. These advantages are not to be found in every locality, and frequently bring such high prices that only those of ample means can enjoy them. Incidentally, it is wise to buy in a locality where property will increase in value while one has money invested in it.

All these advantages are offered in **BAY PARK**, at a cost so low that **YOU** can afford to **OWN YOUR HOME**, if you have a desire for it, and the enterprise to undertake it. We give you **EASY INSTALLMENT TERMS**, too, so that you can have possession of your property at once on a very small payment down, with plenty of time on the balance.

We will be glad at any and all times to show you this property, so that you may see its advantages for yourself.

### COQUILLE NOTES.

Coquille, Ore., Sept. 12. The damage suit against the coal company is still going on. There was a night session and witnesses were being examined. Later—The Jury found for the Oregon Coal and Navigation Company.

Congressman Hawley spoke to the people from the band stand last night. He is an A No. 1 speaker; forceful, eloquent and pleasing. He spoke freely on the railroad problem, also on the railroad land grant. Said U. S. Attorney General Bonaparte told him that the government would take up the matter and compel the railroads to sell the lands to actual settlers as per agreement, just as soon as they could get to it.

Mr. Hawley spoke freely on the corporation problem also and made his position plain on this great problem. I think he convinced the audience that his views were both practical and fair. He spoke at some length on the resources of Coos County and its possibilities, and its opportunities for the future. Mr. Hawley adds enough anecdotes to his speeches to hold his audience and keep them in good humor. He impressed his hearers as being an honest and capable man for the position he now fills as a public servant of and for the people. He also told them that they were to call upon him in any and every event where they thought he could be of use to them and his services would not cost them a cent, for his salary as U. S. Congressman was all the compensation he could ask for. I think that pleased the people also.

Judge Hamilton has set Monday next as the time for the second trial of John Kelley. The damage case is still dragging along, there seems to be no hurry-up in it. It will very likely go to the jury today though.

### Telephone Marriages Illegal.

A marriage by telephone is illegal, according to the decision of the Nolan County (Texas) Court, and as a result the estate of Thomas Wemberly, a wealthy ranchman, valued at over \$200,000, is tied up and cannot be settled. When Wemberly died a contest of the will was made. The question of the legality of a marriage performed by telephone was raised, and the court held that a marriage ceremony, to be legal, must be solemnized by a minister or other authority in the presence of the contracting parties and witness.
