ADVANCES A PECULIAR VIEW

San Francisco Startled By Larkin's Ideas of Marriage Relation.

CALLS MARRIAGE CRIME

Professor Edgar Larkin Delivers a Striking Lecture to Sociologists.

San Francisco, Calif., Sept. 16.—In a lecture before the San Francisco Sociological Society last evening, Professor Edgar Larkin an astronomer, voiced the following sentiment: "The marriage for life is the greatest crime that can be committed in the world, from either a physiological psychological or anthropological point of view; and the third party, who joins a man and a woman in a marriage for life, whether he acts in civil or religious procedure, or a witness to the contract is the greatest criminal in the world." Professor Larkin said that his views were the result of twenty years' close study of anthropology and of human nature, and that after reading and re-reading his convictions, he knew that what he said was true.

At the outset he said that his views might be considered radical, so much so that those who did not wish to hear them might leave the room. A few left, but the majority remained, and after he had uttered the above-quoted sentence he was greeted with applause. Continuing, he said:

"Ninety-five per cent of the crimes in the world are due to marriage for life, a contract that must be abolished. In time, if this contract continues, the Anglo-Saxon race will be wiped out. To repeat, every law, physiological psychological or anthropological, is violated, and nature's laws can not be broken without punishment. In nature there is no such word as forgiveness; she is deaf, dumb, blind and neutral. There are only two duties for man to follow; to learn the laws of nature, and to obey them. These principles which I am presenting to you, are as fixed and as immutable as the science of mathematics, and no one would think of disputing that.

"I know what I am talking about, for aside from my study of these matters, it has been proven to me that I am right. I have asked and received letters from 1,800 women in the United States, women who are talented, intellectual and college bred and they tell me I am right. My own mother tells me I am right, in all these statements.

"All the trouble and crime in the world is caused by man, who is the lawmaker. When women make laws, much wrong will be done away with. Finland is the only civilized country; she has eighteen women in Congress, who have a controlling voice in the laws.

"There is nothing in the great visible world that shows a great controlling power; no great mind with human attributes. It is foolish, beyond measure for individuals, therefore, to worship, or exalt something as being above them. Let them exalt themselves. The study of Nature's laws is the only thing to do and know, and there are obstacles to that. Our Government has said that some literature should not go through the mails, but that is just what should go, and be taught."

The speaker did not throw any light as to why the marriage for life was the cause of these troubles, nor offer any suggestion as to what would take its place.

Will Open Insurance Office.

H. C. Bohrus, representing C. J. Hedwall Co., of Minneapolis, is on the Bay insuring the C. A. Smith properties and has opened an office in I. S. Kaufman & Co.'s old office over the telephone room, where he will conduct a regular insurance business. They handle insurance on the Smith properties in the east.

—Home made bread at Corthell's Delicatessen.

—Dr. J. G. Goble, the well known optician, of Medford, Ore., will visit all Coos Bay towns during Sept. For dates see this paper later.

—Every woman prides herself on the appearance of her table linen, which will be faultlessly white if Gasene Soap is used.

—Dance at Sumner, October 5.

SKINGRAFTING WAS COMPLETE SUCCESS

Physicians Perform Remarkable Operation on Los Angeles Woman.

Long Beach, Sept. 12.—That she might be enabled to close her right eye, a delicate and remarkable skin-grafting operation was successfully performed on Mrs. Walter Floyd. She was seriously injured in a gasoline explosion a month ago, the skin over the forehead drawing so tightly when the burns began to heal that there was no covering for the right eye. A new eyelid was made and today she was able to open and close it at will.

Surgeons say it is the first successful case of the kind. The woman suffered agony, being unable to sleep without opiates. The surgeons cut small strips of skin from her forehead and grafted them into slits cut in the remaining edges of the upper and lower eyelids.

The victim's burned arms also failed to heal properly. Eighteen square inches of skin was removed from Mrs. Floyd's body and grafted on to her arms. Her condition is entirely satisfactory and she is rapidly recovering.

CANADA'S WHEAT CROP WILL BE BIG

Three Provinces Expected to Yield Ninety-five Million Bushels.

Winnipeg, Sept. 16.—Ninety-five million bushels of wheat—this is the official estimate of the 1907 crop in Canada's three great wheat-growing provinces of Manitoba, Saskatchewan and Alberta. Owing to the great flood of immigration, which has caused an immense increase of acreage this year, the crop was expected by statisticians to break previous records, but frost reports have been frequent on the Chicago board of trade, and caused a flutter.

WANTED—Two or three furnished housekeeping rooms. Address W. Smiley, Marshfield.

WANTED—Good piano player. Leave name and address at Times office.

Now comes the report of Colonel A. D. Davidson, an intimate associate of President William Mackenzie of the Canadian Northern railway, not only denying that there has been frost, but giving out an estimate of the crop. His report says: "I find that the province of Saskatchewan gives promise of raising the best crop in her history. The weather has been very favorable to all growing crops, and, after making an extensive tour through these three provinces, I estimate the wheat crop of 1907 at 95,000,000 bushels."

HALT IN STRIKE.
Antwerp Trouble Will Be Handled by Arbitration.

Antwerp, Sept. 16.—The Maritime Federation today presented a proposal which was accepted by the striking dock laborers and others calling for union men to return to work on the appointment of a mixed commission with powers to examine and pass on the question of wages.
