COAL OPERATORS GRANT INCREASE

Montana Owners Raise Wages of Miners and Say There is No Shortage.

Helena, Mont., Sept. 30.—Between 2400 and 2500 men in this state and a number nearly as large in Wyoming will receive an advance in wages varying from 12 to 15 per cent, effective October 1. This, in essence, is the result of the three weeks' conference in this city between the operators and the United Mine Workers for district No. 22, embracing the states of Montana and Wyoming. The southern Wyoming wage scale had been agreed upon at a conference held in Denver in July. The scale is to remain in effect one year.

This will mean an advance in the cost of coal production to the operators of from 15 to 20 cents a ton, but it is not believed the retailers will increase their prices to the consumers. In fact, as an indirect outcome of the long conference, it is believed they will be compelled to reduce their charges to the consumer. A prominent labor leader said today that a movement was on foot for the establishment of coal yards in Helena and perhaps other cities of the state, whereby they will essay to sell coal at more reasonable figures. He declared that Helena coal dealers were making a profit of \$2.75 a ton on all coal handled by them, which is regarded as little short of outrageous.

Several of the miners in attendance at the conference have splendid coal prospects and need only capital to make them shipping properties. This man said that all they wanted was a fair income on the investment and that they would cut out the retailers because of their alleged hoggishness in the matter. He made a further charge that shipments of coal to the city were being manipulated, so as to create the impression that there was a shortage all the time. At the conclusion of the conference with the miners, the operators formed the Montana Coal Operators' Association, which will treat with the men hereafter, instead of compelling the individual operators to attend the conferences.

Notice to Mariners.

San Luis Obispo, Calif., Oct. 2.—(List of Lights, Buoys and Daymarks Pacific Coast, 1907, page 18.)

Notice is hereby given that about October 25, San Luis Obispo Buoys Nos. 4, 5 and 6, each a second class spar, will be established in San Luis Obispo Bay, California, to mark the approach to Oilport Wharf.

San Francisco Bay, California. (List of Light Buoys and Daymarks, Pacific Coast, pages 24, 25 and 28.)

Notice is hereby given that the third-class nun buoy marking Anita Rock, San Francisco Bay, California, has been replaced by a second-class spar buoy, in 18 feet of water, about 35 feet northeast from the shoalest part of the rock.

Notice is also given that Four and One Half Fathom Buoy, moored about 500 feet to the eastward of the Pacific Mall Wharf, and Castro Rocks Gas Buoy, moored about 500 feet southwest one half south from the easternmost of the Castro Rocks, San Francisco Bay, California, heretofore reported extinguished have both been relighted.

MAY CHECK THE JAPANESE TIDE

Government Said to Have New Plan to Keep Out the Undesirables.

Washington, Oct. 3.—With the Japanese question uppermost in their minds, the president and his cabinet have been discussing means for limiting immigration. More than 1,000,000 persons come to this country every year from the old world, and if all of them were the right sort all would be welcome, for there is a dearth of white men to do the world's work, but there is trouble for the government in the undesirable classes from Europe, Asia and Africa. How shall these "undesirables" be kept out?

The president and his cabinet advisers have had some discussion of the possibility of limiting the number of immigrants that would be received in any one year from each country. Those countries which are sending desirable immigrants might be permitted to send as many as they wish to spare. Countries which send to the United States criminals and paupers, incompetents mollycods of various degrees might be eliminated that they must find other dumping grounds for such undesirables. Perhaps congress might have to pass special legislation to compass this end, and possibly the suggestion that certain countries were to be discriminated against would prompt them to keep their undesirables at home without further action.

PLAN BATTLESHIP OF GREAT SIZE

Navy Department at Work on Designs of a Monster Fighting Machine.

Washington, Oct. 2.—In order to be ready for anything which congress may ask, the navy department is preparing plans for a 30,000-ton battleship having 40,000 horse power engines. Her draft would be about 30 feet. She would be the biggest and finest battleship ever planned by any navy. It is said this theoretical man of war would have eight turrets and sixteen 12-inch guns. That the plans are being made for such a leviathan indicates the belief of naval men that the limit has not been reached, and will not for some time yet, in the size of fighting craft; in fact, only the depth of the harbors and the fullness of treasuries is likely to place a limit on the size of battleships. Another battleship of 25,000 tons is being planned by the navy department, but what will be the actual recommendations to congress has not yet been agreed on.

Body Ready for Shipment.

The body of Sanford Richmond, who killed himself at the Central hotel on Saturday, has been prepared by Undertaker Lewis for shipment to San Francisco, where it will be re-shipped to Eureka for burial.
