

CHICAGO WINS SECOND GAME

Detroit Pitcher Driven from Box in Fourth Inning, Being Batted Hard.

SCORE WAS FIVE TO ONE

Attendance Falls to Half What It Was on the Opening Day.

Chicago, Oct. 10.—The Detroit American League team suffered its second successive defeat at the hands of the Chicago Nationals today, scoring only one run, while Chicago tallied five times, four of her runs being the result of solid hitting. Siver started to pitch for Detroit but the locals took kindly to his curves and batted him out of the box in the fourth inning. Killian then took up the work and was found for three hits and another run in the fifth. Detroit vainly tried to break through the Chicago defense. Reulbach pitched strongly in the opening innings and when he showed signs of weakening in the fifth and sixth innings his team mates came to his rescue with fast double plays. For some unexplainable reason, the game failed to attract the usual crowd to the grounds. The official attendance measured a total of 13,114 and many empty spaces in the extended bleachers made the gathering appear smaller than it was.

FREE FERRY FOR EAST MARSHFIELD

County Court Will Install Convenience Long Needed—Marshfield to Build Slip.

The county court has been in session two days at Coquille and during the meeting a very important matter was decided for Marshfield and its sister city across the bay. A large petition, signed by taxpayers of both Marshfield and East Marshfield, was presented to the court, praying that a free ferry be established between the two places. The action was taken on Wednesday, and the petition was granted with the understanding that Marshfield will provide a slip and landing for the ferry. Interested parties were present who guaranteed as much, and thus the ferry is to become a reality. The county obligates itself to put in the slip on the East Marshfield side, build the ferry boat, and repair the approach to the landing at the Associated Oil company building. Bids will soon be advertised for building the boat which the plans show to be a scow with gasoline power. The boat will be constructed large enough to accommodate teams as well as passengers, thus making it convenient for delivery wagons and freighters to cross to the other side and deliver goods where as now they must be shipped across and re-handled. This convenience will be welcomed by both the residents on this side and the other side as something long needed. The Marshfield slip will likely be put in at the Third street dock.

CASSIE CHADWICK DIES IN PRISON

Noted Confidence Woman, Whose Transactions Affected High Financiers, Passes Away.

Columbus, Ohio, Oct. 10.—Mrs. Cassie Chadwick, whose financial transactions culminated in wrecking the Oberlin bank, died in the woman's ward in the Ohio penitentiary at 10:05 p. m. tonight. Mrs. Chadwick had been in a comatose condition for some hours previous to her death and the end came peacefully. No friends or relatives waited at her bedside; only the prison physicians and her prison attendants. Her son, Emil Hoover, has been summoned from Cleveland but is not expected to arrive until tomorrow.

Would Furnish Dredgers.

Mr. Powell, of Portland, is on the bay for the purpose of consulting with the dredging company which recently filed their corporation papers. Mr. Powell is either ready to sell the company a dredge or build a new one. It is understood he guarantees to have a new dredge ready for use in ten weeks if the company prefers to have one built.

Home from Conference.

Rev. and Mrs. Lacy of North Bend returned on the Breakwater from Portland, where Mr. Lacy was attending the M. E. church conference.

CURRY COUNTY WILL BE MINING CENTER

James Conro, Who Lately Prospected There, Says There Is Much Gold.

James Conro, who was lately in Curry county with Frank Cameron to inspect a farm they own in partnership, returned with great ideas of the territory surrounding their place. Mr. Conro says it is an entirely different climate where they are located, and it is quite a little warmer than here. He noticed among other things that the country is well adapted to the growing of fruit. This place is situated 12 miles from the coast and has a number of creeks, being well watered and convenient for irrigation if such were needed.

But Mr. Conro was interested in another matter, and though absent from Marshfield but a week he prospected the immediate neighborhood quite extensively. He found that the country is heavily mineralized and in his search uncovered gold bearing gravel which runs from six to 25 feet in depth, a great part of which, according to Mr. Conro's findings, will give up as high as 50 cents per yard in coarse gold, some of it going even higher. He predicts for that country a very great future in the way of developing into a mineral bearing country, and says he is going back to look into the matter more thoroughly before the winter is over.

Mr. Conro spent several years in the Alaskan territory and brought back with him the miner's pans he used on the beach at Nome. He took one of these with him to Curry county for use in prospecting. There are a number of miners who work in that vicinity during the rainy season, about four or five months when the water is high enough to afford good sluicing. These men take out sufficient gold in the short runs to make good wages for the year. The principal trouble which has held mining back is the lack of water in the summer months, but this is being remedied by several companies which have built flumes and dams so that they now have water the year round. It takes considerable capital to prepare for working the gravel for big returns, but capital is constantly being invested there and the mining is certain to show wonderful progress within the next few years.

ALABAMA BANDITS MURDER SHERIFF

Escape on Southern Railway Handcar With Monster Sum.

Seddon, Ala., Oct. 10.—Four masked robbers looted the First National Bank of this town last night, shot and killed Sheriff John Williams and escaped on a handcar, north-bound on the Southern railway. It is said the amount taken is \$575,250. The robbery and the killing of Sheriff Williams caused intense excitement and a posse started on the trail of the bandits soon after the crimes were committed.

The robbers were discovered at work about 10 o'clock, when a man passing the bank happened to peer through one of the darkened windows. Hastily giving the alarm he ran to notify Sheriff Williams. The official reached the bank just as the robbers, evidently scenting discovery, were about to leave. The sheriff called upon them to halt. Before he could locate them in the darkness, they opened fire upon him and he was instantly killed. The crowd which had gathered was panic stricken and in the confusion the bandits escaped, running through the street with their booty and firing as they ran. Running north to the railway yards of the Southern railway, they procured a handcar, ran it down a heavy grade and escaped.

OREGON ENROLLMENT GROWS

Registration at State University Has Reached 370.

University of Oregon, Eugene, Or., Oct. 10.—Enrollment in the university now stands at the 370 mark, and a few students are registering every day. A number of old students who are out with surveying crews will not return to college until next month, and there will be a good sized entering class for the opening of the second semester. Register A. R. Tiffany expects the enrollment to go as high as 425 before the end of the college year.

LUSITANIA BEATS FIVE DAYS

New York, Oct. 10.—The Lusitania passed Fire Island at 12:07 a. m. She will probably be abreast the Sandy Hook light ship at 1:25 a. m., making her time for the trip, four days, 20 hours.

BUILDING SLIP FOR "NAN SMITH"

Smith Company Drives Piles for Home to Accommodate Lumber Carrier.

The C. A. Smith Co. have started driving piling for a slip near their new mill for the Nan Smith. The Nan Smith is the new boat 18 feet draught and a capacity of 2,500,000 feet of lumber now being built for that company. It will be named after C. A. Smith's eldest daughter.

It is refreshing to note the way the managers for the C. A. Smith Co. do business. The average Oregonian would wait till he heard the whistle of the tug bringing the boat into the bay before he would think of having a dock for her. He would also wait till there was thirty feet of water in the bay before he commenced building the boat. Not the Smith people. They order the boat built with the capacity desired and then start working for the required depth of water. In less than a year the Nan Smith will be on Coos Bay and it is a good betting proposition there will be plenty of water for her. It means much for Coos Bay when the truth goes out to the shipping world that a vessel of 18 feet draught enters this port at will.

The small launch bought by the Smith-Powers Co. on the Coquille river some time ago has been remodeled and put in fine shape for towing, the purpose for which it was bought. It has been dignified by the name of Teddy Bear and, while the smallest of the fleet, will be the flagship. The Nan Smith is the largest and the Mabel H. the fastest.

NEW PROJECT WILL BE STARTED SOON

Deschutes Company's 31,000 Acre Enterprise Soon To Be Under Way.

Bend, Or., Oct. 10.—Within the next few months it is expected that work on another large reclamation project will be in progress. The contract required by the state land board and signed by President J. E. Morrison, of the Deschutes Land company, stipulates that the company shall reclaim 31,000 acres of land adjoining Rosland at an estimated cost of \$20 per acre, and the lien price of the settler is \$36 an acre. This land has a deep, rich soil, is very level and is almost entirely free from rock.

This project has been held up for some time, but it is expected that it will now go forward and its successful completion will be of much value to this entire section. The land to be reclaimed lies for 25 miles along Little river, its lowest extremity being a short distance below Bouge's place, at Rosland, and extending into Klamath county. Rosland, 32 miles south of Bend, will be the headquarters of this enterprise.

ARREST WRONG MAN IN OLD ST. LOUIS

St. Louis, Oct. 10.—Railroad ticket number 13,523 is responsible for the fact that Oscar Blaven, 21 years old, of Pendleton, Or., spent two uneasy nights and a day in the four courts, where he was held as a murderer suspect.

Blaven was arrested Saturday night at Union station by Detective John Howard on a telegram from Sheriff Taylor of Pendleton. "Why, the sheriff was the last person to bid me good-by before I departed," said Blaven, after his arrest. "There must have been some mistake—I am not wanted for anything."

The police wired to Pendleton that they had arrested the holder of ticket 13,523.

Ask him if he knows stock clerk for construction company and has fingers off at first joint, read the telegram from Pendleton which reached St. Louis Monday. Blavens was thereupon released and continued toward his destination, Bristol, Tenn.

ARREST MADE IN IOLA MURDER CASE

Samuel M. Whitlow Accused by Dead Girl's Father—Jury Called Mystery, Murder.

Iola, Kans., Oct. 10.—The coroner's jury which has been investigating the death of May Sapp, tonight returned a verdict that "Miss Sapp died from wounds in the neck, caused by a sharp instrument in the hands of some person or persons other than Miss Sapp." A warrant was sworn out tonight for Samuel M. Whitlow immediately after the coroner's jury returned its verdict. John Sapp, father of the girl, swore to the complaint.

A Want will do it All.

NEW CLUB ROOMS ARE THROWN OPEN

Portland Council, Knights of Columbus, Now Occupies Elaborate Home.

Knights of Columbus, Portland council, No. 678, opened its new club building at Park and Taylor streets last evening. The property represents an investment of more than \$50,000, which was subscribed by Portland knights. There are billiard rooms, smoking rooms, a library, palm room, an assembly hall, culinary department, card rooms, all substantially furnished and in good taste. The club will be open hereafter to all knights and their friends, and is intended as a headquarters for visiting members of the order. From time to time there will be receptions and get-together gatherings.

For the inauguration last evening a well arranged program was prepared. Addresses were made by Archbishop Christie, Judge M. G. Munly, City Attorney J. P. Kavanaugh, Dr. Norden and others, Tom Karl, the famous tenor, director of the Californians, rendered a number of solos. Mr. Karl is a K. C. Refreshments, lunch and cigars were served. There were about 200 knights registered.—Telegram.

WILL PROSECUTE SOUTHERN PACIFIC

California Shippers, Learning that Rebates Are Given, Will Seek Revenge.

San Francisco, Cal., Oct. 10.—Amazed by the revelations made in the inquiry before Interstate Commissioner Lane of the secret rebating practiced by the Harriman railroads, a number of the small shippers have organized and engaged special prosecutors to carry the matter to the courts and secure a measure of justice. For years these small shippers have been at the mercy of the railroad monopoly, and they see now a chance to get some of the benefits of the new interstate commerce act, which makes rebating illegal. It is possible that the state board of railroad commissioners may be drawn into the prosecution, as it has been notoriously lax in its duty. Shippers who have been "cinched" by the railways have made repeated demands upon the commission for relief and have asked for the tariff sheets, which are supposed to be in the custody of the commission. The answer has always been that the commission had not received the schedule of rates from the railways, so the shippers were obliged to pay whatever the railway demanded. Action looking toward legislation to abolish the commission is contemplated by the angry shippers.

Winery Manager Killed.

Fresno, Oct. 10.—D. J. Ellis, manager of Laejae winery near Reddy, was today shot dead by a man named Rollins. Rollins and his wife were cooks at the winery and from Rollins' incoherent talk it is presumed the murder was the outgrowth of something said to the woman. The weapon used was a shotgun. Rollins surrendered himself.

EN ROUTE TO URGE IMPROVEMENT OF JURIST

Lorrin Andrews Goes to Washington to Press the Charges Against Judge Wilfley.

Honolulu, Oct. 10.—Lorrin Andrews, representing the American merchants of Shanghai, sailed from here on the steamship Manchuria for San Francisco en route to Washington to urge the impeachment of L. R. Wilfley, judge of the United States court of China, on the charge of a violation of his oath of office. Seven grounds for impeachment are alleged.

Miss Richmond for High School.

Prof. Golden informs the Times that the school board has succeeded in engaging Miss Ruth Richmond, of California, as assistant for the high school. Miss Richmond is recommended as an efficient and experienced teacher, and she will soon be here to take up her duties. The high school has been short of instructors and her arrival will help materially in the work.

Linotype for Roseburg.

The Roseburg papers will have the service of a linotype hereafter. D. C. Humphrey, of that city, has been located, and is quite a little ganthaeler and will do general work for the several newspapers and job offices. He should do well in that city, as there is much work to be done.

Steam Pipe Bursts.

A steam pipe burst at the shingle mill yesterday afternoon and distributed the escaping steam promiscuously, and to quite a disadvantage for a time.
