WASHINGTON FARMERS MAKE BIG CLEAN-UP
 Wheat Expected To Reach Dollar Mark Before the First of November.
 Seattle, Oct. 12. — Washington wheat reached 94 cents today and local millers and exporters expect that before November 1 the price will be a dollar at tide water. There is no doubt, in the opinion of prominent milling men, that the shortage in India and other countries will send the price to that figure or even higher. Should wheat reach the dollar mark in this state, Washington farmers will make a clean-up of more than \$2,000,000 above the prices being paid October 1.
Courtenay Mill About Ready.
 The whistle of the Courtenay mill on Isthmus Inlet, near Flagstaff blew for the first time yesterday evening. Mr. Hymer reports that indications point to the mill's being under full operation by Tuesday or Wednesday. Mr. Courtenay has labored under many difficulties since he undertook building the mill, and now that it is ready for operation, the people of Coos Bay will wish him success.

BITTER TOWARD THE JAPANESE

French Investigator Says That Feeling of Canadians Is Intense.

Chicago, Oct. 10.—Abbe Felix Kline, one of the prominent members of the clerical element in France, who is making a study of American social and economic conditions, has returned from an extensive tour of the west. Speaking of his observations, Abbe Kline said: "I was much impressed while on the Pacific coast with the anti-Japanese feeling existing at Vancouver and throughout British Columbia, which is far more intense than the feeling on the American side of the border. At San Francisco the anti-Japanese element is comparatively small, and one hears little of the active agitation against the Japanese. On the other hand, I visited Vancouver shortly after the anti-Japanese riots, meeting the Japanese consul and going through the Japanese quarters. Everywhere there was evidence of hostile intention. The people have taken up the shibboleth of "Canada for the Canadians," and they feel that the exclusion of the yellow race is essential for their self preservation. They are very determined in this feeling, and are pressing their views forcibly on the authorities at Ottawa and London. "Before coming to America I shared the views of a considerable element in France and throughout Europe that the Japanese question might lead the United States into war. But personal observation throughout the middle west and far west has completely changed my views. The people of the west are not thinking of such a thing and scout the very idea of war. Even in San Francisco, which is supposed in Europe to be the center of anti-Japanese hostility, there was much less feeling than I found to exist in the British colonies to the north. It is quite evident also, in witnessing the splendid development of the Pacific coast, that a war would be little short of criminal, alike disastrous to Japan and the United States, neither of whom has anything to gain by such a recourse to barbarism."

Cement Floor Completed.
 The cement floor of the First Trust and Savings Bank is finished and the concrete work of the walls is under progress. The cement floor is six inches in thickness and covers a space of 50x100 feet.

Communication.
 Editor Coos Bay Times—Dear sir: In your issue of the 9th inst. you quote Mr. D. A. Utter as saying, his company had leased the brick yard at Arago, referring to it as the Isthmus Inlet Brick Company, which has had trouble with the man from whom they leased the property." Now to set matters straight, I will say that I am the owner of the property last referred to, and that said company never had a lease on it. Also if any trouble existed between the company and myself, I am wholly ignorant of its nature. The fact that Mr. Utter has leased the brick yard at Arago, will in no wise deteriorate the quality of the Isthmus Inlet clays, and I hope his judgment of the Arago clays will prove less disastrous to his company than the former venture, but will warrant it to go ahead and make brick. Respectfully
 Z. T. SIGLIN

WIFE MADE HIS LIFE STRENUOUS

Chicago Man Declared to Be Champion Patient Husband.

Chicago, Oct. 10.—William Multhaupt, small, thin and pallid, has been awarded the title of "Champion Patient Husband" by Judge Walker. For fifteen years Multhaupt endured a strenuous life with his wife, Irene, without murmuring, but when his spouse sought him with the large carving knife in her hand, William's patience deserted him, and he appealed to the Illinois divorce law for relief.
 Multhaupt said that his wife was cruel to him so often that he could not remember dates very accurately, but stated that on one occasion, while he was lying comfortably in bed, his better half had hurried a brush in his direction so accurately that it landed on his mouth, causing blood to flow freely. Another of Irene's loving tendencies was to scratch William's face with her finger nails until he was ashamed to go out of his house.
 She proved her ability to figure in the "strong arm" class by occasionally choking him and throwing teacups, old shoes and chunks of wood at her patient husband.

GREAT TROTTERS TO DO BATTLE

Kentucky Futurity Promises to Be a Record-Breaking Event
 Lexington, Ky., Oct. 11.—The three-year-old end of the \$10,000

Kentucky Futurity has narrowed down to a field of not over five or six starters, those now certain to be being Kentucky Todd 2:08 3/4, General Watts 2:09 1/4, Miss Densmore 2:12 1/4, Northern Man and Aquin 2:16 1/4. On Wednesday the latter showed he was a dangerous quantity in the big race by reeling off a mile in 2:09 flat, a faster performance than any three-year-old has ever gone in a race save Kentucky Todd's mile in 2:05 3/4 and 2:09. None of the others noted above have gone any sensational fast miles here. Mike Bowerman, driver of General Watts, and Harry Stinson, trainer of Kentucky Todd, being content to give the two great colts in their respective charges a series of three or four brisk miles daily, the fastest around 2:18 or 2:20.
 Ed. Benyon has been working Miss Densmore with Lightsome, the two-year-old Kentucky winner of 1905, but he has also held the daughter of Vynant down to miles in and around 2:18. Aquin's mile in 2:09 was a clean-cut performance, he going the entire route without a pace maker or company of any kind. He was first tightened up with a mile in 2:12 1/2, and then in about a half hour he came back and came within a quarter of a second of tying the world's record.

"How do you define the phrase, 'as back as your hat?'" a father asked his son, as the latter had just used the expression.

WANT ADS

Rates—5c line first time, 3c line each succeeding insertion
 Try a Times want ad.
 WANTED—One dining room girl, Hotel Oregon.
