## KISER SHOWS VIEWS OF OREGON COUNTRY

Speaking of Mr. Kiser's exhibit the Portland Journal of Friday says:

"One of the finest are exhibits ever offered to Portland citizens is on exhibition at the Portland hotel and comprises the photographic work of F. H. Kiser, covering a period of eight years. More than 200 views of Oregon's matchless mountain scenery are hung on the walls of the rooms reserved for the exhibition and won the admiration of all who called to inspect the show.

At the opening of the exhibition, Mayor Harry Lane made the opening address, in which he painted with customary eloquence the nature scenes abounding in brilliant colors in all parts of Oregon. Mayor Lane was followed by Will G. Steel and C. H. Sholes, president of the Mazama club. The rooms will be open for visitors from 8 o'clock in the morning until 10 in the evening until October, when the exhibit will be taken to various Oregon cities for show, and later to leading cities of the east, including New York, Chicago and Boston.

The value, \$40,000, perhaps expresses to the lay mind the worth of the pictures more than any description. The coloring, perspective and scenic effects set forth by the painstaking work of Mr. Kiser, at once impress upon the visitor the true artistic value of the pictures. No detail has been lost sight of yet none obtrudes upon the general effect in such a way as to destroy the harmony and scope of the artist's conception.

The picture of Crater lake at once catch the visitor's eye by the wonderful blue shading. One person was heard to comment upon the deep shading in one picture, but was told by a friend who had seen the lake that it was impossible to color too deeply this marvel of nature's handiwork. Kiser has not gone too far in his portrayal of Oregon scenes, but it is hard to bring persons who have not seen the places photographed to believe that such coloring exists. Only when Oregon's highways and byways are opened up to comfortable traveling will the world learn of the actual truth of Kiser's pictures.

In his remarks, Mayor Lane said: "I have been called upon to be present at the opening of the Kiser exhibit, a collection of photographs of the mountain scenery of the state of Oregon. It is a pleasure and an honor; we owe, as a matter of justice, many words of thanks to the gentleman who has risked his life and been to great expense and trouble to procure such an elegant collection of views as we see here today; and he has many more which are not on exhibition at this time. In his efforts as an artist, Mr. Kiser has become, as a matter of fact, a public benefactor to the state. His work will live after him, and will bring great good to the state; for an exhibit of this kind cannot be made in the eastern states.

"People in the east do not comprehend that such scenery as this exists; they would not believe it if we tried to describe it to them by word of mouth; if we made oath to it they would still doubt."
