LOGGER HELD BY JAPS

Friends Were Trying To Release Him
—Japs in Hospital—Many
Sore Heads.

San Francisco, Oct. 15.—As the results of an attack upon a Japanese laundry tonight, the proprietor and one of his employees are in an emergency hospital, many whites are nursing bruises caused by the clubs of the police and the exterior of the laundry is a wreck. The trouble was occasioned by Joseph King, an intoxicated logger, who fell through the window of a laundry owned by L. Umkekeuba at 422 Fell street. The proprietor and H. Omura rushed out and dragged King inside and placed him in a rear room under the guard of a young Japanese armed with a gas pipe, while the other Japanese went to summon police. Three intoxicated companions of King planned to rescue King. Other whites were called on and there was a combined attack on the laundry. The street was soon filled with a large crowd. Policeman Collier was soon on the scene and attacked the crowd single handed. Another officer soon arrived in an automobile and a riot call brought reinforcements. The police charged the crowd with clubs and many were hit. Umkekeuba and Omura were conveyed to the hospital where it was found the former was badly cut about the head while Omura sustained a fracture of the shoulder. King was found asleep in a rear room innocent of the trouble he had caused.

Slayer Refused Revision of Sentence.

Leipzig, Oct. 15.—The supreme court today rejected the appeal of Karl Rau, formerly of Washington, D. C., for revision of a sentence condemning him to death for the murder of his mother-in-law, Frau Mollitor. An appeal for a new trial will now be made on technical grounds.

WILL AID EMPLOYEES OF POSTAL TELEGRAPH

New York, Oct. 15.—Clarence Mackay, president of the Postal Telegraph, announced today to the Postal telegraphers that the company favored organization of the Postal telegraph employees' association of those of the company's employees who have faith in the disposition of the company to deal equitably with them and those who are opposed to the strike or coercive measures and who recognize the plain truth that their own principal is bound up in the prosperity of the company.

Menasha Company Wants Site. It is understood there is a representative of the Menasha Woodensaw company, of Menasha, Wisconsin, on the bay who is figuring with parties on Isthmus Inlet for a site on which to build a factory for that company.

UNCLE JOE'S NEW COMMITTEE DEAL

Means No Northwest Member on Rivers and Harbors if Jones Goes.

Washington, Oct. 15.—"Speaker Cannon will not appoint to the rivers and harbors committee a member of congress from any state which is directly interested in securing appropriations for the improvement of waterways. In other words, if a state has a project to advance before the committee, no member from that state will be named on the rivers and harbors committee." This was the statement by the private secretary to the Speaker Busbey today.

This means that if Jones of Washington succeeds, as it is reported he desires, in getting a place on the ways and means committee, the Pacific northwest can have no representation on the committee which handles appropriations most vital to its development.

Congressman Grovesnor of Ohio, McCleary of Minnesota, Babcock of Wisconsin, Curtis of Kansas, Smith of Michigan, Robertson of Louisiana, Dalzell of Pennsylvania, members of the ways and means committee, are not to be members of the sixtieth congress. This leaves seven vacancies for which members are scrambling. Jones wants a place on that committee. His long service and hard work on other committees makes him available, with supposedly good reasons to expect the speaker will name him. This creates a vacancy on the rivers and harbors committee, which under the practice in past years would be filled by some member from Oregon, it having been customary to alternate between those states. The new ruling by the speaker, however, makes this impossible.

MORRIS WILL CASE SETTLED BY HEIRS

Widow of Rich Packer and Her Four Children Divide Thirty Million.

Chicago, Oct. 15.—That a \$30,000,000 will contest was argued and settled out of court, was disclosed yesterday when the last testament of Morris, the packer, was filed for probate. As a result of this remarkable situation, the principal provision of the will has been nullified. Instead of carrying out the arrangement which would have the bulk of the estate in trust for at least fifteen years, the widow and her four children will divide the property equally between themselves at once.

SCANDINAVIANS IN DEAD EARNEST

Are Enthusiastic in Support of Proposal to Capture American Cup.

Stockholm, Oct. 15.—William Olsson and Goesta Kyhlberger, who are at the head of a movement to build a challenger for the American cup, say a portion of the estimated amount of \$189,000 necessary to build, equip and sail the challenger, has been subscribed. Many large manufacturers have offered to furnish material gratis and a captain and three mates will sail her without pay. The designer will accept no compensation for his work and the builders will charge only net cost for construction.

SPEAKS WELL OF COOS BAY

Weatherman E. A. Beals, tells Portland reporter of new lumber schooner and other items: (Portland Telegram.)

Through District Forecaster E. A. Beals, who returned from an inspection trip to Coos Bay last night, it is learned that the C. A. Smith Lumber company, of Marshfield, has just launched a new steamer at Newport News which will carry 2,250,000 feet of lumber on a draft of 18 feet. The vessel has been christened the Nan Smith, and will be brought around for service on this coast in the lumber trade.

In that she draws three or four feet less than any other steamer ever built, for the amount of cargo handled, the steamer is entirely different from any thing recently turned out at the shipyards. Her deck is covered with large hatches, making it possible to shove lumber into the hold by the carload at one swing of the powerful derricks with which she is equipped. In a day or two, or just as soon as she takes on stores, the Nan Smith will sail for Marshfield. She is expected to reach her destination in the next 60 days. After looking over the steamer, the Hammond Lumber company, of San Francisco, decided to have one built exactly like her at the same yards. She will also be brought to this coast to engage in the lumber trade, and will probably ply out of Portland.

Mr. Beals says that the lumbermen on Coos Bay with whom he talked are confident that these steamers will be the cause of a new type of carriers being built. They are expected to take care of so much more of the product than the old style coasters and receive and discharge cargoes in half the time. Hence the various transportation companies, it is thought, will decide to have craft of the same model constructed.

Smith's new sawmill will be ready for operation early in March. It will furnish employment to 1,000 men. The capacity of the plant will be equal to that of any other mill on the Pacific coast. It is strictly modern throughout. Monday of this week \$11,000 worth of planing machinery was purchased by the company.

The weather man says he never saw a country forge ahead so rapidly as the entire Coos Bay section. Every town is growing by leaps and bounds. New industries are being started and costly buildings erected. He went down on the steamer Alliance and came home overland by way of Drain. Along the stage road hundreds of settlers were met headed for the bay to catch their winter supply of fish. Each family was provided with barrels in which to salt down the salmon.

At one of the settlements along the route the only hotel in miles refused to prepare breakfast for the passengers on the stage because they arrived at 8:30 a. m., half an hour after regular breakfast hours. Beals and his companions went out on a foraging trip and got a supply of eggs and vegetables, which they cooked behind a clump of bushes on the grassy bank of a sparkling brook, and enjoyed the finest meal they ever ate. The hotel proprietor was willing to accommodate the hungry travelers, but he was afraid the cook would declare a strike if he asked him to work overtime.

HAD CONTINENTAL REPORTS.

New York, Oct. 15.—H. H. Tilford, president of the Standard Oil company of California and of other subsidiary companies of the oil combination, was again a witness today in the federal hearing against the Standard Oil company of New Jersey. He said reports of competitors in the field of the Continental Oil company, a subsidiary of the Standard, were furnished him periodically and filed in the statistical department of the Standard. The Continental sells oil in Colorado and adjacent states.

BAN ON WOODEN PORTLAND DOCKS

City Council Decides to Clean Up Willamette River Water Front.

Portland, Ore., Oct. 15.—For the purpose of ascertaining the necessity of extending the West side fire limits to the harbor line of the Willamette, members of the council yesterday afternoon made an inspection of the water front in company with Harbor Master Speier. The party left about 2 o'clock in the harbor master's launch and were on the river several hours. The councilmen taking the trip were Annand, Belding, Conannon, Dunning, Kellaher and Rushlight.

After making an examination of the wooden docks along the water front the councilmen were unanimously of the opinion that these structures should be replaced by brick, steel or concrete. It is probable that what they saw will influence them to vote in favor of the ordinance that Belding is having prepared extending the fire limits to the river. This measure is being drawn up by City Attorney Kavanaugh and will be presented at the next meeting of the council.

"There is no reason why we should allow frame docks to be constructed immediately back of rows of brick buildings," declared Belding after the party returned. "We never before realized this so clearly as today after seeing the exact conditions along the river. Wharves of concrete or other fire proof material would greatly reduce the risk of conflagrations along the river and when the entire water front became lined with them they would be a pride to the city."

"One or two of the docks that we saw are in very bad condition. It might be advisable for the city to condemn these after the new ordinance is passed. In the interests of the city's extensive shipping the citizens should all unite for the improvement of the water front."

While making the trip the councilmen discussed somewhat the advantage of a concrete wall along the harbor line. This is another recommendation that has been made by Captain Speier and may be taken up after the passage of the Belding ordinance.

BIGELOW BELIEVED TO BE INSANE CRANK

Arraigned in Federal Court for Using United States Mail to Defraud.

Denver, Oct. 15.—Kemp V. Bigelow, the young clerk who caused such a sensation by sending dynamite packages through the mails to Governor Buchtel and other prominent citizens, was arraigned today before the United States commissioner on a charge of using the mails to defraud. A postponement until October 24 was granted at the request of the federal district attorney. Kemp's father accompanied him to court and after a long talk with the young man expressed the opinion that he is insane.

Emperor Receives Ambassador. Tokio, Oct. 15.—T. J. O'Brien, the new American ambassador, presented his credentials to the Japanese emperor today and Mrs. O'Brien was meanwhile presented to the empress.
