HARRIMAN LOOKS ON THE BRIGHT SIDE

Present Opportunity Will Not Knock at One's Door Again. Money Will Soon Be Easy.

New York, Oct. 30.—"This is the time for a man with a little money to invest in good securities. The opportunity is fleeting and I doubt if it will ever knock at his door again."

So said Edward H. Harriman this evening to a reporter who asked him to express an opinion on the financial situation and the outlook.

"It would be selfish of me," said the financier, "to remain silent at this time, if any word from me would tend to aid in clearing up present conditions and in helping the anxious depositors in the banks and trust companies to see things in the light in which they should be seen. I think the situation is better now than it has been at any moment of the last two weeks."

"The importation of gold is going to relieve the money stringency materially, but I think that the treasury ought to deposit more gold in the banks in order to facilitate the importation which has been planned. The securities necessary to safeguard treasury deposits are in existence and upon their presentation the government should act immediately. While the gold is on the other side and in transit it is impossible for shippers to sell their bills here. Consequently treasury deposits would fill in and enable the shippers to realize on their good paper credits."

"The demands of the manufacturing and commercial elements are to shrink shortly, and in my opinion, before the next 60 or 90 days, money will be easier than it has been for years. Those who have been withdrawing their deposits from the banks and trusts will then be as eager to get it back as they have been to take it out."

"Let me tell you again that this is the time for a man with a little money to invest in good securities. The opportunity is fleeting, and I doubt if it will ever knock at his door again. Good securities have never been so low. The man or woman with savings of a few hundred dollars have never had such a chance to better themselves or use their mite to the advantage which now exists."

"My reason for saying this is based on the underlying conditions. Everything is sound because of our having had such a surplus of crops, and this year this is true, not so much in quantity, as in value."

"I am optimistic. The tide of recent disturbances has begun to drop. All that is needed to hasten the descent is more gold, and that to be used principally in the scheme of buying shippers' bills and thus enabling the movement of the idle grain and cotton crop."

Naming a Launch.
Bert Lynch sold his gasoline launch to T. A. Jones of the Fixup. The boat has never been named and he is undecided just what to call it. It was out in the rain last night and when he started the engine the water flew up his sleeve and into his face, which caused him to sit down quickly on a very wet seat. Some of the boys down on the wharf said he named it then but of course that is mere rumor.

Good Fishing on Coos.
Mr. Curry and Nick Strambone came in yesterday with over 100 beautiful trout and a half dozen mud hens. It wasn't a very good day for fishing either.

Preparing Streets for Winter.
The city will place more crushed rock on the stretch of Front street between the warehouse and B street this week. The rains have shown the need of more material on that part of the street and the work will be done immediately. The half block on Front north from A was rounded up yesterday and will make a good street for the winter. This section is made of the burned clay, and many believe that it is the best material that can be used in this country for permanent streets.

Brought Cargo of Oil.
The Annie Larsen arrived in the bay this week and is unloading a cargo of gasoline and kerosene at the Associated Oil company's dock on the east side.

S. H. Bell Moves to Portland.
Seymour H. Bell and family will depart this morning for Portland, where they will live during the winter. Their household goods will be shipped on the Breakwater which leaves Coos Bay on Saturday. Mr. Bell concluded that Portland is the best and most convenient place for residence, since he has interests in eastern Oregon, Idaho, and on the Sound, besides those on Coos Bay. Their son is attending the Hill Military Academy in Portland.

Two Operations.
Dr. Mingus reports two operations which came under his care. One was the case of Mrs. Henry Bjorquist, who was operated upon at the Marshfield General Hospital for appendicitis. The other was Mrs. U. S. Chaver who underwent an operation at the Mercy Hospital for a complication of abdominal tumors. Both cases are improving nicely.
