SENSATION BY PROSECUTION

Hawley Introduces Letters by Adams to Relatives Owning to Damnable Crimes.

LEAVES ROOM IN TEARS

Mrs. Adams Breaks Down When Incriminating Epistles Are Read To the Jury.

Spokane, Nov. 21.—A special to the Spokesman-Review from Rathdrum, says: The most dramatic incident connected with the trial of Steve Adams was the introduction of two letters by Prosecutor Hawley for the state this afternoon. The defense objected to their being read to the jury, but Judge Wood declared them properly identified. During the reading of the first letter, Mrs. Adams arose from beside her husband and left the room in tears. She did not return for an hour. Adams turned marble white and was motionless. His attorneys were nonplussed. The letters were not introduced in evidence at the Wallace trial from the fact that it was not known that a copy of them had been kept. Warden Whitney, of the state penitentiary, found them soon afterward. They were written between the time Adams confessed and signed his confession. Darrow, when the letters appeared, set his jaw and went to work again as if it were the first day of the trial instead of what was supposed to be the last for taking testimony. The letters were written by Adams while in the penitentiary, to Mr. and Mrs. Oliver, his aunt and uncle, and to his brother, W. T. Adams. Their general tenor is disclosed in the following extract; "I was glad to hear of your belief in my innocence. I wish to God that I was, but I fell into bad company and was led to commit a number of most vile sins, breaking the laws of both man and God. Had I stayed with my church and with the raising of my

poor parents who are, I believe, in heaven, I would be a free man today. But I allowed myself to be led into sin most damnable. I am going to try and undo what I have done and sin no more."

Each side has introduced its instructions, the state asking as before, for murder either in the first or second degree, or manslaughter. The defense has changed a few of its suggestions. Judge Wood wants to finish arguments by Saturday and will convene court at nine o'clock tomorrow, when R. E. McFarland and Henry P. Knight, for the state, have agreed to consume two hours each. McBee and Heltman take the same time for the defense. Darre and Hawley say they will not consume more than three hours each, but Judge Wood said he will not limit them. There will be a night session tomorrow night but the defense may have a little sur-rebuttal tomorrow morning. After that the arguments will take up the time.

EPIDEMIC OF SELF-DESTRUCTION STRIKES TOWN.

One Man Accidentally Kills Himself, Another Makes Attempt and Third Saved From Drowning.

Spokane, Wash., Nov. 17.—One man dead from a rifle shot wound, self-inflicted, but accidental, and two attempts by other men to destroy their lives, is a record of two days in Grand Forks, B. C., and vicinity.

Arthur Langford, while out deer hunting, leaned on the barrel of his rifle. The gun was discharged, and the bullet went through his stomach. Langford died Friday before medical assistance could be given him.

George Elliott cut his throat Friday with a jackknife and immediately thereafter jumped into Kettle river. The water proved to be too cold and he swam out. His wound will not prove fatal.

Another attempt to end his life by drowning was made Saturday by a man named Clancy, who also jumped into Kettle river. Clancy was rescued.

WRIGHT WILL NOT SELL TO FRANCE

Several Governments Are Bidding on Craft So Long Guarded With Secrecy.

Paris, Nov. 16.—Orville Wright, the Dayton (O.) aeronaut, who, with his brother, is supposed to have invented the most practical airship in the world, has departed from Paris to continue negotiations with the French Government for the purchase of the model machine. The Wright brothers, it is said, have offered a model to France for \$160,000 after demonstrating that the real airship

can navigate 12 1/2 miles and return to the starting point.

The Wrights refuse to give France the exclusive right to the machine and as a result several nations are bidding for models. England, France and Russia and Japan have negotiated with him, while his home Government, America, neglected the first chance to buy.
