Vote To Name City MORE BRADLEY

he lead. Many have asked that the single word "Coos" be placed on the ballot instead of City of Coos. For that reason all the votes now cast being four for "City of Coos" will be counted for "Coos." This does not in fact, change the vote, because if the name of the city is simply Coos, it must be sued as the City of Coos. Marshfield has to be sued as the 'City of Marshfield" and that is its corporate name. The absurdity of calling a place "Coos City" is evident when it is stated that if Coos City were sued the action would have to be against the "City of Coos City." The same is true of Kansas City. Actions against Kansas City are always against the "City of Kansas City." So "Coos" merely means the "City of

AND BAKER AT WHITE HOUSE APPLICATIONS FLOWING IN

But Secrecy Is Maintained as to Amounts.

WILL AVOID FAVORITISM

Distribution of Certificates and Bonds To Be Carefully Made by Government.

Washington, Nov. 22.-Announcement was made today by Secretary Cortelyou that allotments had alcates for which subscriptions were invited in the circular of the treasury department issued Monday. Allotments of the two per cent Panama, bonds will not be made until after all bids are submitted at the close of business November 30. The secretary intimated this afternoon that applications for both bonds and certificates are being received in satisfactory amounts, but he is not prepared as yet to disclose the volume of subscriptions and allotments. One reason given is because of so many inquiries in which proposals are not definite. Another reason is that allotments are being mad eto a certain degree, where they have the best effect on the market. The matter of allotments is proven a somewhat delicate one and care is being taken to avoid any well founded charges of favoritism. It is felt at the treasury, however, that no just criticism will He against the action of the secretary if allotments are based chiefly upon definite and binding assurances by national banks that they will take amount of certificates allowed them. A proposal to threaten banks to take away their public deposits if they do not comply with the wishes of the secretary of the treasury has not even been considered at the depart-
