

Why We Can Undersell

1st. We co-operate in buying with Golden Rule Stores all over the Northwest.
 2nd. We buy directly from Eastern Factories and Importers.
 3d. We sell for cash or its equivalent only. We thus avoid the necessity of compelling you to help pay the bill of the fellow that refuses to pay.

4th. We keep your expenses down. A big show is nice, but it costs money, and it must of necessity come out of the pockets of those who patronize the place. Therefore we forego this show in the interests of our customers.
 If you appreciate right prices and wish to make your dollars buy all they are worth, come and see us. It costs you nothing to investigate. Look over these prices. Where can you duplicate them? Everything just as represented.

Shoes

We have an especially strong line of shoes for children. A fine kid shoe for children. Heavy extended sole. An honest shoe.
 Sizes 5 to 8, per pair.....\$1.15

 Ladies' hose.....15c, 25c and 45c
 Ask to see these.

THE GOLDEN RULE

"We Sell It For Less" O'Connell B'ld'g A St.

BROWN TRIED TO COMPROMISE

Offered Mrs. Bradley \$5000 and \$100 a Month Until Youngest Child Was 21.

OFFER SPURNED BY THE WRONGED WOMAN

Dr. Britton Evans Gets Excited in Giving His Testimony—"Brown Not on Trial."

Washington, Nov. 26.—There were dramatic scenes in the Bradley trial today when Dr. Britton D. Evans who testified in the Thaw case, not only declared Mrs. Bradley insane when she shot Brown but entered with such vigor in defending his opinion in denunciation of the conduct of the senator that Judge Stafford reminded him that Brown was not on trial and was not there to defend himself and admonished him to refer to the dead man only when necessary to show the effect of his acts upon the mind of the defendant.

Dr. Charles E. Hill, professor of nervous diseases in the Baltimore Medical college, declared that in his opinion, Mrs. Bradley was insane when she did the shooting. The man's abortions performed on her, suffering and disappointment and hereditary taint of insanity all combined to produce insanity in her. He thought she shot Brown intentionally, but while believing she was right in so doing. A number of witnesses from Salt Lake City were introduced by the government in rebuttal, several of whom testified that Mrs. Bradley appeared at all times

affable. It was brought out that Brown had made a proposition to Mrs. Bradley to accept \$5,000 and \$100 a month until her youngest child was 21 years old if she would leave Brown alone but she indignantly refused the offer, saying she wanted to marry Brown in order that her children by him might be given a name.

See Us For Bargains in Real Estate.—Corner 100x125 on Burnett and Nevada, \$2100.00. You want a small ranch? We have on our list some 40 acres ranches that won't last long. It will pay you to investigate now. Stutsman & Co.

New Bedford addition, recently accepted by the town is a peach. It cuts off all direct communication with Northwestern additions; West end of Second addition serves as an example.

—Vote for I. S. Smith for Mayor and find out whether or not the city has agreed to buy the Seaman lots.

—Lunches served at Corthell's Delicatessen.

—When you want Reliable Hardware of Standard Brands go to Milner's.

Notice.

—The grocery stores will be closed all day Thanksgiving and will be open tonight until nine o'clock.

—Don't fall to get Milner's prices on Shot Guns and Ammunition.

—Plaid Silk Waists and Silk Kimonas at The Ladies' Emporium.

—Paid body guard to a night watchman is a luxury few towns of Marshfield's size support.

—Were the Seaman lots, back of the steam laundry needed for the town use?

—How much are the banks paying for city warrants?

Your Stomach Might Eat Itself.

The stomach might digest itself if—Most persons are familiar with the powerful action of the gastric juice and other fluids of the stomach—how they dissolve particles of food, breaking up and digesting morsels so tough that they even resist the tearing pressure of the teeth. If, therefore, the stomach will digest the gristle of a piece of beef why does it not digest its own comparatively soft tissue? For a long time this query puzzled the physiologists. Physicians merely guessed that the stomach in some mysterious way armed itself against such a fate.

They formed a theory that living tissue secreted some sort of fluid which they called anti-ferment, and which protected it against the ferments. This theory has now been proven correct by experiments conducted by Frenzel and Weinland. These investigators found that the lining of the stomach and the intestinal walls not only protect themselves from destruction by action of the digestive fluid, but also the parasitic worms that often live there.

They isolated a certain secretion of these tissues and found that when it was mixed with fibrin ordinarily easily digested pepsin had no effect upon it, and pepsin is the most powerful drug of the digestive agents. They obtained this anti-ferment by crushing a quantity of the parasitic worms mentioned, the product being called the juice of ascarides—after the scientific name of the parasite. It was found to be chemically the same as the anti-ferment secreted by the intestinal walls. This convinced the experimenters that it is not the living tissue that resists digestion, but the juices that impregnate them, which they themselves have produced.

—Vote for I. S. Smith, the Square Deal candidate for Mayor.

Tax payer! What would you give for lots 1 and 2, block 24, town of Marshfield?

Ederheimer -Stein Make

The "Standard"

Mark this Distinction

IT'S the wish and ability of the maker that marks the difference between stylish clothing made to serve, and common kinds made to sell.

It's through more effort, experience, newer methods and better work, that Ederheimer, Stein & Co. get the results that distinguish their garments from the ordinary. There is individuality and style in this make, a greater measure of consistent value, the sort of workmanship that produces perfect fit and the certainty of correct appearance.

And it's our policy of discrimination, selection and sale of such clothing that makes this the real, live Young Men's store. Come and be fitted.

The "Longworth" is a medium length coat that is roomy, comfortable, stylish. The "Standard" is slightly longer, but equally fashionable and distinctive. Sizes 30 to 38. Prices \$15 to \$30.

MAGNES & MATSON

Overcoats for Young Men

The "Longworth"

We never heard anyone accuse Mayor Straw of building a foot of sewer with any kind of money.

Why are not licenses issued to saloons after they have been allowed by the council and paid for?

Making Garments From Paper.

Paper yarn pleases the genial Germans, who object to importing cotton and jute from foreigners, and who wish to utilize their wood cellulose at home. The paper pulp is drawn off in wire cloth drums or frames, so as to form narrow bands of paper. These partly dried by passage over hot cylinders and collected either in tubs or on rollers.

Belgium has been making paper yarn and paper twine for ten years past. They are also making paper hats in imitation of straw headgear, including the costly Panama. The paper hat's color is little affected by the sun and is most durable.

What do you think of crushed rock for street improvement? We understand the city engineer condemned it some time ago.
