TEAMS' AVERAGE CLOSE

Only Two Pounds Per Man Advantage, With North Bend to the Good.

Table with columns for THE TEAMS, listing players like Marshfield, Tower, Weaver, etc., and their averages.

Today is the eventful time with the football boys of Marshfield and North Bend. Great things are expected by the supporters of each side...

Both teams have been practicing faithfully during the past week, and several of the North Bend players were here yesterday and tried the Marshfield gridiron to see what it was like and to post their team on the conditions.

The referee has not yet been chosen, though Lee Nichols is mentioned as probable. Another candidate is presented by the North Bend contingent in the person of a man who has played as sub on the Yale team.

The dope on the result is all at sea. The betting, if there is any, has not developed, yet today is expected to bring forth something in that line.

Berkeley, Nov. 27.—Although Harry Kleinschmidt has been in custody eight days charged with killing Frank Bellows last July, authorities still lack four witnesses to complete the chain of evidence against him. These are two men and two women. All four passed along Russell street westward in the direction of Pine street on the night of July 26, when Kleinschmidt and Bellows were quarrelling in the rear of the Kleinschmidt residence in Claremont, R. M. Peck accompanied Bellows to the corner of Peck and Russell on the day of his death.

CLOSES SALE OF CERTIFICATES

Cortleyou Decides There Is No Further Use of Receiving Subscriptions.

CONDITIONS ARE IMPROVED

Business Being Resumed All Over the Country—Money Circulating in Many Cities.

Washington, Nov. 27.—Owing to the large amount of subscriptions received, the secretary of the treasury today announced that no additional subscriptions will be received for the three per cent certificates of indebtedness after the close of business hours tonight. The decided improvement in business conditions throughout the country makes it quite possible the secretary will not extend his allotment further than those already made.

Chicago, Nov. 27.—Those Chicago banks with savings departments who belong to the clearing house, have sent out notice to persons who served 30 day notices of withdrawal requesting them to take their money at once. The requests have met with little response. One bank, served with 300 notices, has heard from but twelve of its letters of request.

Washington, Nov. 27.—Secretary Cortleyou stated today that of the amount subscribed for Panama Canal bonds, ninety per cent will be deposited in the national banks purchasing the bonds. All indications point to a large over subscription of the bonds. An important fact relating to the treasury certificate issue is that the amount allotted approximates \$25,000,000. Of this sum only about \$3,500,000 has yet been pledged as security of the circulation. It is the general belief in banking circles that it will not be necessary to issue the full amount of \$100,000,000 which was authorized. Recommendations to be made by Secretary Cortleyou in regard to financial legislation are still the subject of many rumors and questionable reports.

New York, Nov. 27.—New York banks are looking forward to resumption of cash payments within a very short time. Return to a strictly cash basis is largely dependent upon the loan rates on money. These rates are steadily declining and call money practically went begging in Wall Street late today, though rates on time loans remain comparatively high. By the time the loan rates reach six per cent, it is believed the bankers will feel reassured enough to resume cash payments. While it is declared that banks here are ready to resume specie payments at once, they are said to be holding off until the wants of the country banks have been satisfied. So long as the demand continues from the interior, New York banks are inclined to hold their currency in readiness for transfer and ask the indulgence of their local patrons.
