### ROSEBURG HAS GLOBE TROTTER

Count Regio, of Italy, Winner of Wanderlust Contest, Pays a Visit.

### WINS \$20,000 CONTEST

Gives It To Charity and Now Visits Oregon With Beautifuls Bride.

ROSEBURG, ORE., Dec. 9.—There was registered at the Roseburg hotel last week Count Salvatore Regio, the celebrated globe trotter of Palermo, Italy. The count represents himself as the winner of a \$20,000 globe-trotting contest which closed only a few months ago. This large prize was offered by a rich Italian to the person who would finish first in a tour on foot across nine countries. The count entered the race as a diversion, with the promise that the prize would be devoted to charity should he win. He won over six other contestants. All entered the race without any money whatever. In fulfillment of the promise certain children's homes in Italy are the wealthier by \$20,000.

The count is now on a second tour of the world, this time traveling in the conventional manner, with his recently wedded wife. His observations of foreign life are this time to be recorded and he will soon issue a book in both Italian and English. His objective point at present is Seattle, where he will stop for some time in order to catch up with his journal records. The count is being accorded a cordial reception in all the larger places where the Italian government is represented.

Nearly half the breweries of the world are in Germany.

### NO MORE DELAY FOR LAND FRAUD TRIALS

Official Circles Becoming Scandalized at Continued Inactions.

WASHINGTON, Dec. 9.—The manner in which the Oregon land-fraud trials have been postponed from time to time has come to be regarded in official circles as a public scandal which cannot longer be tolerated. When the Attorney-General explained the situation to the President, he was instructed immediately to issue specific instructions to District Attorney Briston, directing him to see that all pending land-fraud cases were taken into court and tried.

If Heney cannot go to Portland to try the Binger Hermann and John Hall cases, which were set aside at his request, in order that he might personally conduct the prosecution, then Briston must prosecute them, and if for any reason Briston fails to prosecute these and other cases, the Attorney General has instructions to select some one who can and will prosecute.

Further postponement will not be tolerated under any circumstances. It is no secret in Washington that the Department of Justice is decidedly out of patience with both Heney and Briston on account of the dilatory tactics they are said to have pursued in the Oregon land cases.

### BANDON IS BUSY

Plenty of Cash in Bank and All the Industries are Running Full Time.

BANDON, Dec. 7.—Such business as can be done is moving briskly in Bandon, in spite of "hard times;" no industries have closed down, a million feet of lumber loaded on ships that will leave at pleasure of the towing vessels, all mills running, except the woolen mills which closed yesterday for repairs to some machinery and resumed work again today. Harbor improvements progressing nicely with 30 men employed, the Price shipyard rushing work on the new vessel building, bank reports plenty of cash to more than pay all demands that can be made upon it, and real estate is changing hands in a style denoting unbounded confidence.
