## BIG CITIES TRY FOR COOS TRADE

Portland and 'Frisco Send Many Representatives for Coos County Business.

Coos county as a market section for the wholesale houses of Portland and San Francisco is being recognized since the first of the year more than ever before. Numerous firms from both these cities have many representatives in the field for trade, and every boat brings more traveling men who are competing for business. Each of the two boats from Portland brings from two to five traveling men from that city and Seattle, who are anxious to swing the trade of Coos county in their direction. Every boat from San Francisco brings another batch of drummers who are striving to swing the trade to San Francisco. The efforts of both cities are being watched with considerable interest by local merchants, and the competition is certainly not hurting the county merchants because it enables them to secure their stocks at a lower rate than if only one city were looking after the trade.

## THEY'RE COMING BACK

YOUNG'S POPULAR ENTERTAINERS WILL BE HERE SATURDAY AND SUNDAY NIGHTS

What is unquestionably the most popular Theatrical Organization that has ever played this city are to favor theatre patrons with two more performances on Saturday and Sunday evenings next. They will initiate their return with that screaming comedy, "The Pride of New York," which created such a strong impression on its single presentation: There will be a full quota of New Specialties and singing and the Chorus will be seen in entirely new wardrobe. The demand will undoubtedly be big and those desiring choice seats should place their reservations early.
