## INTERNATIONAL OCEAN RACE SCHEDULED FOR NEXT AUGUST

### Spain Yachmen Planning Grand Celebration in Honor of the 416th Anniversary of Columbus' Voyage.

BOSTON, Feb. 10.—An international ocean yacht race over the historic course from Palos, Spain to the Canary Islands, the route which Christopher Columbus sailed on the first stage of the voyage to the new world has been arranged for next summer by the yachtsmen of Spain according to advices received in yachting circles here. It is planned to send the contestants away in August 3 next, the 416 anniversary. The finish of the race will be at Santa Cruz, Teneriff Islands. All the yacht clubs in North and South America are invited to participate. The present plan is to confine the race to those countries directly benefitted by the discoveries of Columbus, though European clubs may be asked to send yachts.

## LOGGING CAMP AND TIMBER BOUGHT

### Deal Makes Lumber Company Independent of S. P. Railroad.

## LOGGING ROAD TO CAMP PROPOSED

### Henry Hoeck of North Bend Contracts to Log Off Beaver Hill Property.

Frank Boutin, owner of approximately ten thousand acres of timber land contiguous to Coos Bay and who has owned the largest logging camps in Coos county and southwestern Oregon, has sold out a part of his interests to the C. A. Smith Lumber company and has left Coos Bay for his home in Minnesota. Boutin has sold to C. A. Smith the large logging camp on South slough together with its railroad, boats and all other appurtenances, also two sections of land.

It is stated that the plans of the C. A. Smith company call for a railroad in the near future to transport the output of this logging camp to the mill industries on Isthmus Inlet. At the present time the logs for the C. A. Smith Lumber company are handled by the Southern Pacific stub line between Marshfield and Coquille. It will be noted that with the proposed railroad in operation the mill will be absolutely independent of the railroad company. An obvious savings on transportation will thus be affected. At this time the route of the logging road cannot be given.

Henry Hoeck, of North Bend, has taken the contract of the Coos Bay Lumber company, Frank Boutin's company, to log the land in the vicinity of Beaver Hill. The output of this camp will be delivered to the Simpson Lumber company. It uses annually about 20,000,000 feet of this timber.

Frank Boutin came to Coos Bay about two years ago. He still owns a vast quantity of land in this section. It is probable that this too may be disposed of to the large lumber interests on Coos Bay. Mr. Boutin stated, prior to his departure on the last Breakwater, that in company with his wife he would make an extensive tour of the states, during which he will travel through the south possibly making some investments there.

### NOTICE SCOTS.

Caladonian Club meets Wednesday evening, Feb. 12, 8 o'clock sharp. Rednet's hall. All members are requested to attend. Business of importance.

PETER SCOTT, Jr., Sec.

The Pavilla Comedy Co. at the Masonic opera house two nights, commencing Tuesday, February 11 in a brilliant bill of comedies and special features.

O. L. Hopson is no longer connected with The Times in any capacity. He has taken a position with Seymour H. Bell as solicitor in the gas department of the Coos Bay Gas & Electric Co.

Roy E. Lawhorne will be in the advertising department of The Times for the present and any courtesies shown him will be appreciated by the management. A telephone call to the business office at any time will bring someone to your office to take your advertisement or give you any information you may require.

### IMPORTANT NOTICE

TO TIMES READERS  
The regular carrier boys of The Times are not permitted to sell papers to patrons. The reason for this is that the carriers are given only a sufficient number of papers to supply regular subscribers and when papers are sold it impairs the service as regular subscribers are likely to be missed. There is no desire to be arbitrary, but it is absolutely necessary to have a fixed system in a daily newspaper office and this is one of the features that must be observed.

Three papers a week purchased of boys would pay for practically the entire subscription and give readers a paper every day. Now is the time to subscribe.

## CAVALRY AND MOB CLASH

### Police Inadequate to Handle Throngs at Bier of Dead Royalty.

LISBON, Feb. 10.—There was almost a riot this afternoon when the populace attempted to get into the cathedral where the bodies of King Carlos and the Crown Prince were lying in state. The police were unable to close the cathedral doors at the hour appointed for the beginning of the ceremonies of the final interment. The surging multitude thrust the police to one side and poured into the main edifice. The cavalry finally found it necessary to charge. No casualties. The bodies of King Carlos and the Crown Prince lay in state until this afternoon when they were removed to the Pantheon where, after further ceremonies, they will be placed in a tomb. Large crowds visited the bodies at the cathedral.

## VOTE UNANIMOUSLY FOR INCORPORATION

### Eastside Citizens Select Officers to Pilot Newly Launched City Craft.

Without a dissenting vote the citizens of Eastside Saturday voted favorably on the incorporation of the little city. Thirty-five votes were polled, the disagreeable weather being responsible for the comparative small poll. Following are the candidates elected Saturday: Mayor, Charles E. Jordan; recorder, W. J. La Palm; marshal, J. F. Conkila; treasurer, W. P. Schlemme; aldermen, J. A. Olsen, E. A. Stonecypher, J. C. Steckel, F. S. Reibe, Robert Kitting, John Mattson.

## ELECTRIC POWER IS SHUT OFF

The lean appearance of The Times this evening is occasioned by the shutting off of electric power, which went out of commission after one o'clock and was not turned on until 3:15 this afternoon. Being dependent on this power the mechanical department remained idle waiting for the "juice." This condition requires no comment.

## W. O. W. BALL GRAND SUCCESS

### Ladies of North Bend Uphold Their Reputation as Entertainers.

Perhaps 'twas because it was in North Bend, where, as everyone knows, they have an inexhaustible supply of the "milk o' human kindness;" then again, it may have been because of the novel and unusual rest which the gentlemen were enjoying for the first time in four long years. Doubtless it was a dash of both coupled with the most important and potent cause of all—the ladies. Whatever the reason those who attended the Leap Year ball given by the Women of Woodcraft, Saturday night, in North Bend, were treated to an evening, the memories of which will still be green, when 1912 brings around another leap year and another ball. An easterner once said that the trials of his 4000 mile journey and the martyrdom of the stage trip were all dissipated when he struck the hospitality of North Bend. That same hospitality which characterizes North Bend in business hours seems to concentrate and amplify at its social functions. The ball Saturday night was an exception in that the usual social hospitality seemed intensified.

The Coos Bay orchestra struck up the grand march promptly at 9 o'clock and from that on to the home waltz this premier of musical organizations rendered its usual excellent selections. Not in every case did the males adjust themselves to the new order of things Saturday night. Many a hand slid down to pocket and there was noted a sort of apologetic air on many a face on entering the hall, as though the owner would say, "Well I offered him the money. It 'aint my fault that he didn't take it." It was nice to have the ladies fill the programs. Nicer still when they came your way. You wondered when you spotted some fair one across the hall if she knew you were there; if she did, if she had seen you yet; if she had, if she was going to ask you for a dance. And, when, after what seemed an age, she finally turned round and sauntered leisurely across the hall, you marked out of the corner of your eye that she seemed to be looking everywhere but in your direction. Then it was that your heart began to thump, thumped louder and louder until you were in a sweaty agony of fear lest your neighbor should hear it and penetrate the sham of indifferent calm which disguised your inward trepidation. What a feeling of joy when you heard, "Are your dances all taken?"

Not in every case were the males lionized. Many a drooping flower reposed against the wall as the dancers circled the hall. All were bearded flowers too. Had the "Man from Mars" dropped into Eckhoff hall Saturday night he would have known without further question that it is the leap year period on this planet. The ladies of Otilia Circle No. 401, Women of Woodcraft, deserve unstinted praise and congratulations for the excellent manner in which they carried through their Leap Year ball Saturday night.

### HERE'S A GENUINE SNAP.

Five miles from Marshfield, 97 acre ranch, about 50 acres bottom land. A good 9 room residence, 30 head of cows, all kinds of farming implements, one-half mile waterfront. This ranch is underlaid with a fine quality of coal; \$9,500.00.

STUTSMAN & CO.

The show on Tuesday, February 11th, The Pavilla Comedy Co. is supported by actors of consummate versatility and charm and the aggregation is a guaranteed success and a scream from start to finish.

## COOS BAY ON WEATHER MAP

### Dr. Mingus Notified That Regular Government Station Will Be Established.

Coos Bay is at last to have a regular Government Weather Bureau station. In a letter to Dr. E. Mingus, the present voluntary local cooperative observer, District Forecaster Official E. A. Beals, if Portland, says he has at last succeeded in getting the bureau to make an appropriation for a station on Coos Bay. Mr. Beal says in his letter that he expects to come to Coos Bay shortly to select a site and appoint an observer and requests Dr. Mingus to make a recommendation of some trustworthy person if he cannot accept it himself. The compensation is not large and but two reports are required daily, one at 5 a. m. and another at 5 p. m.

At present the only stations on the coast between Portland and San Francisco are Eureka and Tatoosh leaving a long stretch without a station. In commenting on the establishment of the new station the Portland Oregonian says:

"The shipping interests of Coos Bay ports have developed to such an extent that the harbor has become one of the shelter ports on the coast. The government has established buoys and aids to navigation."

The new station will be valuable in advertising Coos Bay as immediately after being established the name of this port will appear in all telegraph weather reports of the coast and all the daily papers printing a summary of the weather conditions.

Dr. Mingus has devoted so much time as a volunteer in the cooperative branch of the weather service and made his records so valuable because of their accuracy that it is to be hoped he may be prevailed upon to continue as the regular and first official observer on Coos Bay.

### SECRETARY TAFT IN MISSOURI.

### Round of Receptions and Other Entertainment for Government Heavyweight.

(By Associated Press.)  
KANSAS CITY, Feb. 10.—Secretary Taft arrived here early today and immediately began a round of conferences, receptions and other forms of entertainment. Several republican committeemen from nearby states are here to confer with Taft on conditions in their districts.

### CATHOLICS TO ORGANIZE A CHILDREN'S CHOIR

### Father Donnelly to Have Band of Youthful Singers at St. Monica's Church.

Father Donnelly of St. Monica's Catholic church is organizing a children's choir to sing at vesper services in the church during the period of the Lenten devotions and on Sundays at other times. It is the purpose of the children's choir to fill the place of the regular choir at these services. He requests all Catholic children who can sing to meet at St. Monica's church next Saturday morning at 10 o'clock when the new choir will be organized and commence training their voices.

## NEGRO FIEND'S LIFE IS PENALTY FOR OUTRAGE ON WHITE GIRL

### Raging Mob, 2000 Strong, Overpowers Company of Militia And Posse of Deputies Then Hangs Prisoners to Pole.

(By Associated Press.)  
BROOKHAVEN, Miss., Feb. 10.—Eli Piggot, who criminally assaulted Miss Wells, in this county, a few weeks ago, was taken from the custody of the Jackson military company and a posse of deputies, and hanged early today. The military company was overpowered by a mob of two thousand. A number of shots were fired and two members of the mob were wounded. Piggot reached here from Jackson this morning in custody of Sheriff Greer, and under a heavily armed escort of Capitol guards, ordered into service by the governor to protect the negro during the trial which was to have commenced today. When the soldiers and prisoners alighted from the train a furious mob surrounded them and a fierce hand to hand conflict ensued. The soldiers clubbed the members of the mob with guns. The fight lasted five minutes, when the militia started the prisoner to the court house. Then the mob, reinforced and utterly infuriated, rushed for the prisoner dragging him to a pole where he was hanged.

### ACCIDENT CAUSED BY DEFECTIVE LIGHT POLE

### Lineman for Coos Bay Gas & Electric Light Company Breaks Leg—Belongs to Eagles.

J. E. Edmunds, lineman for the Coos Bay Gas & Electric Light company, lies in the Marshfield hospital with a broken leg. Edmunds was working at the top of an electric light pole near the Coast House in North Bend, Saturday afternoon, when the pole broke at its base carrying Edmunds to the board sidewalk in its fall. He struck the sidewalk astride the pole, feet first. The shock threw him prostrate, the pole rolling over on his right leg and breaking it near the ankle. He was removed to the Coast House where the injured limb was set. Later he was taken aboard the Flyer and removed to Marshfield. Mr. Edmunds is a member of the Eagles, his membership being in an eastern territory, but, thought a comparative stranger, he speaks highly of the manner in which the members of the local aerie have looked after his welfare since his confinement.

## INTRODUCES A PARCELS POST

### Senator Burnham Draws Up Bill to Economize on the Present System.

(By Associated Press.)  
WASHINGTON, Feb. 10.—Senator Burnham, New Hampshire, introduced a bill providing for the rural delivery of parcels post for merchandise and other articles actually mailed on rural delivery routes. There are 38,000 rural delivery routes serving daily mail to fifteen million people. Burnham's measure has the endorsement of Roosevelt and Postmaster General Meyer. The rate of postage is five cents the first pound and two cents for each additional pound, but the privilege can only be utilized by persons actually living and doing business on the route on which the delivery is to occur. The bill provides for reduced rates for fractions after the first pound.

## TWO ATTEMPTS TO WRECK TRAINS ON SHORT LINE

### Failing to Accomplish Crime By Heaping Ties on Track They Open Switch.

(By Associated Press.)  
BUTTE, Feb. 10.—After two attempts to wreck two Oregon Short Line expresses last night the wreckers succeeded in derailing a freight. Two suspects are in custody. The attempts were made at a lonely spot near Silver Bow Junction. The dastards bungled the job and the heaped stacks of ties were easily swept aside by the oncoming train. The freight was derailed by a switch being flung open as the train passed over it.

## GRAND JURY IS INVESTIGATING MONEY PANIC

### Two Indictments Returned Against Man Said to Be Coming Across Ocean.

(By Associated Press.)  
NEW YORK, Feb. 10.—Two indictments were returned by the special grand jury investigating the banking methods which caused the recent panic. It is announced the indictments are against a man "who is coming across the ocean."

Every low priced article in a store is "an advertising argument"—and should have its place in a convincing ad.

## BINGER HERMANN SLATED FOR TRIAL

### Next in Line in Government Prosecution of Land Grant Cases.

### IS CO-DEFENDANT WITH WILLIAMSON

### Heney Refuses to Give Reasons for Alleged Immunity of Reuf.

(By Associated Press.)  
SAN FRANCISCO, Feb. 10.—Francis J. Heney, fresh from the successful prosecution of former United States Attorney John H. Hall, arrived in San Francisco this morning to resume the prosecution of the bribery graft cases. Interviewed for the Associated Press, Heney stated that he would probably try out one more of the Oregon land fraud indictments, that of Binger Hermann, formerly commissioner of the United States General Land Office, and Congressman Williamson, who are co-defendants. Both may be tried at the same time. Heney declined to discuss the alleged immunity contract given Reuf, which was annulled after he went to Portland, until he had conferred with everybody associated with the prosecution.

The much-lauded "power of the press" is never more usefully employed than in assisting a worthy store to become a bigger store.
