Read in Every English-Speaking Country.

A president of the United States will be elected this year. Who is he and who is the man whom he will beat? Nobody yet knows, but the Thrice-a-Week edition of the New York World long ago established a character for impartiality and fearlessness in the publication of news, and this it will maintain. If you want the news as it really is, subscribe for the Thrice-a-Week edition of the New York World, which comes to you every other day except Sunday, and is thus practically a daily at the price of a weekly.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Weekly Coos Bay Times together for one year for \$2.15. The regular subscription price of the two papers is \$2.50.

The merchant who is a good advertiser has to confine most of his "worrying" to such things as the expansion and improvement of equipment, the addition of new lines and stocks, the finding of more help, the problem of larger quarters. Once in a while a business, like a vegetable, will "grow wild"—without any advertising. But you cannot depend upon a "crop" GROWING WILD—nor a business.

Consider New Charter.—The North Bend city council will meet again March 24 to take up the plan to secure a new charter.

Zurcher Is Secretary.—J. D. Zurcher has been employed as secretary of the new commercial club of Roseburg at a salary of \$125 a month.

Many Have Measles.—During the past ten days many cases of measles have appeared in Marshfield. Most of the cases are of light form, and the patients generally children.

Practise Game Sunday.—The Coos Bay baseball fans will have their first practise game of the season at the North Bend grounds Sunday. Every one who thinks he can play baseball and who is desirous of getting on the team is urged to turn out as it will be a free for all.

Enjoy Dancing Party.—About twentyfive couples of Marshfield's fair dancers enjoyed a most pleasant dancing session at the rink Wednesday evening. The floor was in perfect condition and the music was good. It is Manager Avery's intention to continue these Wednesday evening hops.

Painters Form Union.—It is announced that the painters of Coos Bay have organized a union and have sent to the international organization for a charter, upon the arrival of which officers will be elected.

Ill of Grip.—Mrs. Walters, of South Marshfield, is reported ill with the grip.

A Remarkable Machine.—Peter Claussen has just added to his repair department the newest shoemaking machine, which sews soles on shoes with a much greater ease and all the solidity that is done by hand, and much more quickly. The thread is waxed by running it through melted wax that is kept hot on the machine by a gasoline attachment.

New Road Nearly Finished.—Supt. T. C. Russell of the Beaver Hill Coal company was in Marshfield on business today. He reports that the new wagon road from the county road to the proposed mine at Southport will be completed this week, the work covering a distance of about 3,000 feet. Just as soon as this road is done, machinery will be hauled out for the new shaft and it is expected to have it in operation at an early date.

Banner Year.—P. M. Tully, a member of the local contracting firm, expresses the opinion that 1908 will see more building done on Coos Bay than was accomplished last year. He says that many prospective builders are holding the belief that lumber may be bought later on at even lower prices than now prevail. Mr. Tully thinks that the lumber market has touched the bottom, and that prices will hereafter appreciate rather than lower. His firm has many advance contracts, which he says indicates a continuation of the building boom.

CLUB WOMEN GIVE FOUNTAIN

Artistic Needle Workers Will Place Drinking Fountain on Down Town Corner.

The Artistic Needle Workers, a club of prominent Marshfield women, are arranging to place a drinking fountain at one of the principal corners in the city. Final steps for carrying out the project were taken at a meeting at Mrs. John Pruess' home yesterday, when a committee was named to take charge of the matter.

The plan is to put in an electric lighted fountain where man and beast can quench their thirst. It is proposed to expend between \$100 and \$200 on it.

Mrs. J. T. McCormac was selected as chairman of the committee to take charge of the matter, and Mesdames Friedberg, M. R. Smith, W. T. Merchant and F. H. Hazard were named as her assistants. They will secure designs and estimates of the cost and report back to a future meeting.

While the location of the fountain has not been definitely fixed upon, many are in favor of locating it on the corner near the proposed new hotel site. Mayor Straw has been consulted and is said to be in favor of it.

The next meeting of the club will be held with Mrs. S. A. Golden.
