

## BLOCKS FOR FRONT STREET

Council Asks Plans and Specifications for Paving with that Kind of Material.

City Engineer Sandberg is preparing plans and specifications for paving front street from the City Hall to C street with block paving, and unless something unexpected interferes will have them ready for the city council's approval by Thursday evening. The council ordered the plans and specifications for block paving after consulting the front street property owners so that there is not likely to be any change from this material.

Whether treated blocks, or untreated material will be used has not been determined. The cost of the treated blocks will be much more than for the untreated wood. A number are in favor of the untreated wood on account of its cheapness and also because burned pine can be obtained, which is claimed to be almost as durable as some kinds of treated blocks, at home.

It is the city council's intention, and it meets with Mr. Sandberg's hearty approval, to require the contractor to give a guarantee of his work and material for a specified time. This will cover repairs and in case the material or job should be a bad one, the city and property owners will be protected. It is barely possible that bids will be asked on both treated and untreated blocks and a decision between them reached later.

### NEW RULES ISSUED.

#### Catholic Church Changes Regulations of Marriages.

Catholic bishops throughout the United States are sending out circular letters to priests in their dioceses announcing the changes in the marriage laws of the church become effective April 19, 1908.

In the main the decree prohibits civil marriages for Catholics and declares unions in the church on and after April 19 invalid if either the bride or bridegroom is not a Catholic. The following changes are made in the marriage legislation of the church:

1. No marriage will be valid unless it is performed by a priest, duly authorized, and before at least two witnesses.
2. A marriage performed between two Catholics or between a Catholic and a baptized non-Catholic, by a civil magistrate, alderman, notary public or Protestant minister will be null and void. Hitherto such marriages were valid.
3. No marriage will be licit unless it is performed by the pastor of the bride, or by a priest delegated by him or the bishop of the diocese.
4. Those of the faithful who are of marriage age, or who may be contemplating marriage in the near future, should secure positive and correct information as to the date and the place of their baptism.

Bates who has been in Nebraska, with his wife and daughter since his return from a sojourn of a year or more in South America, arrived in town the later part of the week and is enjoying a visit with his son Raymond, who remained here while he is also taking advantage of Coos county's climate to get rid of an attack of malaria from which he has been suffering.

## CAKE SPEAKS ON COOS BAY

Candidate for Republican Indorsement for United States Senator is Coming Soon.

M. H. Cake of Portland, candidate for the Republican indorsement for United States senator from Oregon, has written friends on Coos Bay that he will be here shortly to deliver several talks in behalf of his candidacy. He is basing his candidacy largely upon his support of Statement No. 1. Just how long he will spend in this section and where he will speak, has not been announced.

It is not believed that Senator Fulton will enter Coos or Curry counties in the campaign before the primaries. He has only a limited amount of time, in consequence of his duties at Washington keeping him there until very recently, in which to cover the State and as he has appeared on Coos Bay a number of times in recent years, he believes that it will not be necessary for him to come this time. Local supporters of Mr. Fulton say that he will poll a big vote here as his work in behalf of appropriations for the bay and in the land grant controversy, in which Coos county is greatly interested, entitle him to strong support.

### HANDEL, COMPOSER OF THE "MESSIAH."

Handel! It would be impossible to find a more popular name than this in the whole annals of music, nor could any composer be cited whose works have been so frequently performed, and which are as generally understood as those by this great son of art.

No harmonious strains have spread over the world so surely and unmistakably as have those of the composer of the "Messiah," and, if it became necessary to instance a composition of importance which had done more than any other toward making music's language known, the work which would unquestionably be named would be that masterpiece of choral art just mentioned. Handel, of all composers, is universal. We gather from his music the grandest realizations of mental enjoyment, and once heard, it makes permanent impressions of the best and noblest kind.

Handel is the giant theologian of music. No other religious music is so bracing, so convincing, so mighty indeed is its effect that no man, could long hear it, and, if he were an unbeliever, remain one. No wonder that when the "Messiah's" grand "Hallelujah" was first heard, the audience rose to its feet out of sheer enthusiasm. No mortal can be lifted to the heights to which Handel's great genius will waft him, and not feel that he has undergone an experience.

In oratorio writing, Handel excels all other composers. Haydn said of him, "He is the father of us all."

For the secret of Handel's success we can go to the "Messiah." Its libretto is based on the identical

## THOUSANDS TO SEE COOS BAY

F. B. Tichenor of Spokane, Wash., Says that Over 30,000 Will Visit Here.

F. B. Tichenor, general organizer of the Woodmen of the World for this section and an enthusiastic booster of Coos Bay has written to The Times that more than 30,000 homeseekers and investors will visit Coos Bay in the next twelve months. Mr. Tichenor has been conducting a Coos Bay publicity bureau in connection with his work, advertising this section and furnishing information concerning it. In his letter to The Times, he says:

"So far this month 85 people have called at my office wanting information about Coos Bay. I predict that no less than 30,000 people will visit Coos Bay the next twelve months."

Mr. Tichenor is preparing to meet James Roberts of Portland in a quiet pitching match for the championship of the northwest. The contest will take place at Portland at the opening of the baseball season there, ten pound quots being used on a distance of fifty feet. Both are experts.

Mr. Tichenor's forecast of the great immigration to Coos Bay has called attention to the fact that there are few houses for rent on Coos Bay and that it may be difficult to accommodate the influx. Recent arrivals who have sought to find houses for rent have encountered much difficulty.

The projectors of the new hotels will probably be pleased at the prospects for the big business for the opening of their hosteleries.

### COQUILLE NEWS.

J. M. Partridge came over from the bay yesterday on his way to Arago where he will take charge of the brick plant of the Schroeder Bros., he being an expert brick manufacturer.

Chas. H. Helling, of Portland, was in town on Saturday on his way down the coast. Mr. Helling has a lot of dredging machinery in Portland which he is having some trouble in getting to Rogue river where he expects to use it in dredging for gold. He was expecting to take it down on the Berwick, but since she is ashore he seems at a loss to decide just how to turn. It may be possible that the Enterprise will carry it down from the bay.
