To those still backward with their work of spraying I would personally add to not longer delay such work and avoid consequences.

### TWO GALLONS KILL "SOAKS."

Two New Yorkers Drink Gallon of Whiskey Apiece in About Four Hours.

NEW YORK, April 9.—While the rain pattered and a chill wind blew, Francis King and his good friend Patrick McBride had a very nice, quietly convivial time recently.

After drinking, between them, two gallons of a certain brand of Harlem whiskey in four hours, McBride, forty-two years old, died of alcoholic poisoning.

Indiscreetly, a three gallon demijohn of alleged whiskey was given at noon to King, a laborer, No. 205 East One Hundred and First street, to take to Thomas Molony's saloon.

Dorsey went in McBride's room at half past four o'clock, one two friends were stretched on the floor, the demijohn, with a quart in it, stood upright on the table.

After King was sober he was charged with intoxication and locked up. The demijohn was locked up, too, charged with homicide, in effect.

### WHERE WOMAN EXCELS.

"Where one in thirty women is slightly color blind, one in five men is so."

The physician continued his experiments with the testing machine.

"You," he said, "can't tell green from blue and are therefore defective, five, six. But you are not absolutely color blind. Absolutely color-blind persons are very, very rare.

"Why are men's eyes less reliable than women's as regards colors? Some say it is the tobacco smoke that dulls and weakens them. I have noticed that non-smokers have a somewhat sharper vision."

Somewhere, in or near this city, is a piece of property which YOU SHOULD OWN—which would be worth more to you than to ANY-ONE ELSE—and it may be advertised to-day!

### LOCAL COAL TRADE GROWS

San Francisco Firms Expect to Handle Large Amount During the Coming Year.

C. J. Mills of the Beaver Hill Coal Company, has received notice that the Czarina would sail today from Frisco to Coos Bay to handle coal for the Golden Gate port.

Mr. Mills is confident that there will be a big coal trade with San Francisco henceforth and it is likely that the Czarina or similar carriers will be kept busy plying in this trade.

Recently F. C. Buhne of Eureka, made a contract with Masters and McLain for regular shipments of coal from Coos Bay to that city, the fuel from here being cheaper and superior to others obtainable at Eureka.

### MAIL ORDER HOUSE CREED

Attitude of Firms as Told in Twelve Commandments Recently Handed Down.

Twelve commandments make up the decalogue of the mail order house, says an exchange.

These commandments were not written on a stone by Moses, but were thoroughly understood and frequently bumped into by any one who deals with the catalogue mail order concerns.

Following are the twelve commandments, which thoroughly indicate the business sides of all concerns.

1 You shall sell your farm produce for cash when ever you can, but not to us; we do not buy from you.

2 You shall believe our statements and buy all you need from us because we want to be good to you, although we are not acquainted with you.

3 You shall send in the money in advance to give us a chance to get the goods from the factory with your money; meanwhile you will have to wait patiently a few weeks because that is our business method.

4 Send your money and we will skin you on the quality of the goods.

5 You shall buy your church bells and interior church fixtures from us and forward the money in advance, for that is our business method.

6 You shall collect from the business men in your vicinity as much money as you can for the benefit of your churches. Although we get more money from you than they do, still it is against our rules to donate for building country churches.

7 You shall buy your tools from us and be your own mechanic in order to drive the merchants from your vicinity, for we wish it so.

8 You will induce your neighbor to buy everything from us as we have room for more money.

9 You shall often look at the beautiful pictures in our catalogue so your wishes will increase and you will send in a big order, although you are not in immediate need of the goods; otherwise you might have some money left to buy necessary goods from your local merchants.

10 You shall have the mechanics that repair the goods you buy from us book the bill, so that you can send the money for his labor for new goods, otherwise he will not notice our influence.

11 You shall believe us in preference to your local dealers.

12 You shall, in case of accident, sickness or need, apply to local dealers for aid and credit, as we do not know you.—Indianapolis Journal.

"Something new" in either home or office furniture means no more room and no more use for the "old things"—the things that were serving you only the other day. AND THIS ALWAYS MEANS "MORE WORK FOR THE WANT ADS."

The man who knows a "chance" when he sees it find "exciting news" in the want columns.

### BAD ECONOMY HURTS PEOPLE

Former Legislator Tells How People's Representatives Get Their Way Paid.

The following letter was received by The Times, signed by a gentleman who has recently arrived on Coos Bay with the request that The Times add some signature other than the real one. The Times does not care to endorse the sentiments expressed one way or the other, but thinks it may have some bearing on the question of who should pay the lawmakers.

I want to raise my voice in objection to the law which the voters are going to pass on at the coming election which is to raise the salary of senators and representatives in the legislature. I am in favor of economy. Let me tell you that I was a representative in the Oregon legislature six years ago from another part of the State of Oregon.

Now, I saved money on the stunt. I went to the legislature and boarded at the best hotel in Salem and held up my end with the best of them. I didn't have more than ten dollars when I struck the capital.

Now when a man who goes to the legislature gets a large salary, it makes him selfish. He don't look for a chance to turn an honest dollar and he feels so independent like, that instead of taking advice from men who have proved their business ability by making big money, he introduces and stands by a lot of populist laws and tries to hurt the railroads.
