RIB OF IMMENSE WHALE FOUND IN NORTH INLET

Piece Sixteen Feet Long is Unearthed With Other Parts of Leviathan's Skeleton.

Residents of North Inlet have brought the rib of what must have been an immense whale, to Secretary Walter Lyon of the Marshfield Chamber of Commerce. The rib is about sixteen feet long and Mr. Lyon and the parties who recently unearthed it figure that the leviathan must have been ninety feet long and to have drawn sixty feet of water. Parts of the head were found about ninety feet from the tail bones.

The discovery indicates that North Inlet, which is now on the interior side of the ocean and the dead whale deposited there when the sea was at least sixty feet deep.

The matter has aroused considerable discussion as it indicates that additional land is constantly being formed on the coast by the action of the sea.

Home is Quarantined.—The Holmes home, near the bridge leading to West Marshfield, was quarantined this morning on account of one of the children being ill of scarlet fever. Dr. E. Mingus was notified of the case and ordered the quarantine sign put up at once.

Excursion is Postponed.—The proposed excursion to Bandon on Sunday has been postponed one week owing to the new boat which was to have carried the excursionists between Coquille and Bandon not being ready for service yet.
