E. M. WARD TO REOPEN KINNEY SAWMILL ON PLAT B MONDAY

Leases Plant and Will Begin Operating It At Once.

RECENTLY BOUGHT TRACT OF TIMBER.

Lumber Market Improves and Output Is Sold Far Ahead.

E. M. Ward who recently purchased the timber on Major L. D. Kinney's holdings on the peninsula and Plat B has leased Mr. Kinney's sawmill and will start operations Monday morning. He has sold the output of the mill for a considerable time in advance and will keep it busy until his timber is converted into lumber.

J. F. Clark, formerly superintendent of the old Porter Mill, has been engaged by Mr. Ward as superintendent of the Kinney mill. He will employ about fifteen men on the start, making a payroll of upward of \$50 per day. Mr. Ward has today two logging camps in operation for a couple of weeks and the twelve men and two donkey engines have sufficient logs ahead to insure a steady supply for the mill.

Mr. Ward says that the lumber market is picking up rapidly and the demand for the finished product is stronger at a much better price than it has been for some time.

IS ARRESTED FOR CRIMES

Marshal J. W. Carter Secures Tom Haggerty at Ten Mile—Other Cases.

Marshal J. W. Carter and Walter Condon returned today from Ten Mile with Thomas Haggerty who is charged with the numerous robberies and misdemeanors that have occurred in that section recently. Haggerty did not offer any resistance to arrest.

Haggerty denies that he has been guilty of any particular wrong doing. So far, little has been learned of his past. He has not been at Ten Mile long. He alleges that others must have committed the crimes of which he is accused.

He will probably be arraigned tomorrow.

Delay Muetzel Hearing.

The hearing of the charges against Fred Muetzel, the Ten Mile saw-mill proprietor, will take place before Justice C. L. Pennock tomorrow at 2 o'clock. It was to have been held this afternoon but Prosecuting Attorney L. A. Liljeqvist was unable to secure all of his witnesses. Albert Smith who filed the charges of assault with intent to kill against Muetzel is remaining in Marshfield until after the hearing. Justice C. L. Pennock fixed Muetzel's bail at \$500 but he had not furnished it this afternoon and was still in jail.

Hung Jury at Bandon.

L. A. Liljeqvist returned at noon today from Bandon where he prosecuted a case against Harry Wooden yesterday. Wooden was charged with carrying concealed weapons and A. J. Hamlin, who filed the complaint, claimed to have reasons for fearing Wooden. Wooden is still in his teens and claims to be carrying the weapon for fun or to shoot stray dogs or cats. The case was submitted to a jury in Justice Geo. Topping's court at 4:15 yesterday and shortly after midnight, the jury reported that it could not agree.

CELEBRATION AT COQUILLE

Business Men Arrange For Rousing Old Fashioned Event July Fourth.

COQUILLE, Ore., June 11.—The business men of Coquille have decided to have a rousing old-fashioned Fourth of July celebration in Coquille this year and have raised a large fund to cover the expenses. Committees have been appointed to take charge of the matter. There will be ball games, fireworks, bowery dances in the evening, a barbecue, band music and probably a big parade. Other attractions may also be added.

A large amount of building is underway in Coquille this summer, many new residences and buildings being near completion and others being started. Among them are the following:

Jonathan Snow, five-room dwelling.

Wm. V. Cope, fine dwelling on the hill.

Boyle's business block at North end of bridge.

Fine new Davenport residence which will cost about \$3,000.

Dr. Richmond is erecting a fine new residence near the school house and work on it is being rushed so that it will be ready for the owner and his bride, the wedding of Dr. Richmond and Miss Gould, a well-known nurse, being announced for June 26.

Jonathan Snow of Coquille, and his family last Sunday celebrated the fiftieth wedding anniversary of Mr. Snow. The family went to Bandon, the celebration being in the nature of a picnic. It was a very enjoyable affair.

Wm. Candlin, the well-known and well liked Coquille traveling man, is going to Ten Mile Saturday to spend a few days in the quest of the elusive trout. Soon after his return, he is planning to take a trip to San Francisco and other California points.

RACE TRACK GAMBLING PROHIBITED

New York Legislature Finally Gives In and Passes Gov. Hughes' Reform Measures Despite Bitter Opposition.

(By Associated Press.)

ALBANY, N. Y., June 11.—According to arrangements made last night, the senate today voted on the anti-race track gambling bills, and passed both of them by a vote of twenty-six for and twenty-five against. Both bills passed the assembly yesterday. Senator Folker, whose illness constituted an element of doubt as to the outcome of Gov. Hughes' fight to make race-track

gambling a crime, was better this morning and able to be present. He voted in support of the bill.

Senator Grady attacked Hughes' course in demanding legislation against track gambling while only asking for a commission to investigate stock speculation.

Senator Cassidy, who at the regular session cast what was regarded as the deciding vote against the bills, argued for regulation rather than suppression of evils. "Neither prison bars nor castle walls," he said, "can make people virtuous."

Governor Hughes immediately signed both racing bills. They went into effect from the moment the governor signed them.

COMMITTEE SEATS TAFT DELEGATES

Interest of Republican Politicians Now Centers In Make-up of New Committee On Account of Several Contests

(By Associated Press.)

CHICAGO, Ill., June 11.—With a majority of the contests wiped off the books and the Taft delegates accredited to the number of 504, much of the interest in the meeting of the National Republican Committee today centered in the make up of the committee.

Last night, Illinois and Ohio affairs led the center of the stage. It is asserted that A. L. Vorys is to succeed Myron T. Herrick as a member of the National Committee from Ohio but neither of these would discuss the report. The Illinois contest is

between Congressman Frank O. Lowden, the present member, and Frederick W. Upham who has been a chief worker in arranging for the convention and in raising funds for Chicago's part in entertaining the delegates. Upham has the endorsement of many commercial interests of the city and many supporters among the party leaders of the city.

Preparations are well under way for the reception of the real "boomers" of the various candidates. The Knox managers announce that one hundred strong voiced "shouters" will be here to create echoes for the Pennsylvania senator.

The Fairbanks' boosters will be led by George Aide, the Indiana author, humorist and playwright, who is said to have evolved several new ideas. The Foraker, LaFollette and Hughes camps are also preparing to turn out en masse but their plans are more or less secret.

Mr. Raley is named as defendant in six of the seven indictments, while Mr. Slusher and Mr. Rahe are confronted with two counts each.

The specific charge against the several defendants is that they solicited and procured persons to make false and fraudulent applications and affidavits for the purchase of the Umatilla lands and for a consideration induced the applicants at the time they applied for the lands, or prior thereto, to make contracts whereby it was agreed that the lands so purchased should inure to the benefit of the defendants named in the indictments.

The explosion was heard over a mile. The floor of the car was lifted upward and the passengers were thrown in a panic stricken heap onto the floor. The car was lifted clear from the track and within a slight distance of the edge of the embankment of the road.

KANSAS CITY FLOOD OVER

Kaw River Is Receding and Rise in the Missouri Is Not Feared.

(By Associated Press.)

KANSAS CITY, June 11.—Flood conditions here are better on the whole this morning. The Kaw river began falling before daylight and the water is receding steadily from the inundated districts. The Missouri continues to rise slowly, but can do no particular additional damage at this point.

From now on, it is predicted, the situation around Kansas City will improve. All the railroads are in operation in and out of Kansas City this morning except the Union Pacific and the Missouri Pacific whose bridges are under water and the Santa Fe. These three roads are using the Frisco's tracks.

Despite the fact that thousands are homeless in Armourdale and Argentine, there is no actual distress as the people of Kansas City are taking care of all the needy.
