JUNE GLORIED IN SUNSHINE

Coos Bay Weather Almost Ideal Last Month, According to Summary Prepared by Mrs. Mingus.

Coos Bay's weather kept fully up to the standard during June, there being twelve clear days, golden with sunshine, seven more days mostly clear and only eleven cloudy days during the month, according to the summary for the month compiled by Mrs. E. Mingus, special government meteorological observer. There was considerable rain for the month, more than 1.96 inches having fallen in eleven days. Despite this, the rainfall for the year to date is 8.75 inches below normal.

Other features of the summary of weather conditions for June are as follows:

Temperature.
Mean maximum 62.8
Mean minimum 47.6
Mean 55.2
Maximum 74, date 29th.
Minimum 38, date 4th.
Greatest daily range 28

Precipitation.
Total 1.96 inches
Total from September 1st, 1907, 58.70 inches.
Normal for the past five years, 67.45 inches.
Deficiency, 8.75 inches.
Prevailing wind direction--North-west.

Coos Bay Weather Best.
"The people of Coos Bay should rejoice more than they do over the beautiful weather we are having," remarked M. C. Horton of the First Trust and Savings Bank today. "No one could ask better weather than we have been having here and I don't believe that any other section of the country is favored with anything near its equal. New York and the Atlantic states are sweltering in mid-summer heat, deaths even be-

ing caused by the intensity of it. The middle west has been suffering from a series of floods, cyclones and windstorms in addition to the heat. Kansas, Montana and other western states have been suffering from cloudburst and floods. All this time, Coos Bay has been having glorious sunshine with an occasional shower to refreshen the atmosphere. There have been no storms on Coos Bay--thunder and lightning even being unknown here."

ADVERTISED LIST.
List of unclaimed letters remaining in the Marshfield, Oregon post-office July 1, 1908. Persons calling for the same will please say advertised and pay one cent for each advertised letter called for:
J. Anselmo, Frank Akley, William H. Barry, George M. Brownell, Antonio Burbey, Constantine Bogiayl, W. E. Clark, Miss Ruby Chambers, Coos Bay Yiv Co., L. H. Evens, Mrs. Muggie Edmonds, C. H. Fritz, Harrison Fielder, A. A. Fuller, Gratton & Knight Mfg. Co., John W. Green, Harry R. Gleason, Miss Bessie Hamilton, J. H. Loftus, J. Manders, F. A. Mast, Roy J. Mahedy, F. Merchant, Mizpah, G. ROGUE RIVER FISHING POOR

Artificially Propagated Salmon Will Not Return to Stream Until 1907.

WEDDERBURN, Ore., July 1.—Although there are very few fish in Rogue river this season, the fact did not seem to depress R. D. Hume to any great extent. He did not expect the river to give up any paying quantity this year, for the reason that no stock had been placed in the stream, which should be due this year. The next return of artificially propagated salmon from the ocean where they went after being released from the hatchery, is not due until the year 1911, and until that time if there are any reasonably large catches of chinooks it will be a surprise. In 1911 he expects the fish planted in 1907 to return, when there should be a good run. From that year on the stream should gradually become commercially more valuable with each passing year, for the reason that by that time Warden McAllister shall have been able to clear all obstructions to the passage of fish to the spawning beds. Then with the hatchery continuously planting its splendid specimens of fry, supplemented by the natural increase from the upper waters, the salmon industry should be a gradually increasing source of business activity the whole length of this great stream and its tributaries.

Mr. Hume has gone to his home at Piedmont, Cal., to rest. He was in very poor health most of the time he was in Wedderburn. He will return about the time for the races in August or possibly before.

One Handicap.
"Getting your Saturdays off now?"
"Yes, and Wednesdays."
"Say, that must be a swell job."
"It has only one drawback."
"What's that?"
"There is no salary connected with it."

WOMAN'S RIGHTS.

Mohammed's Daughters Ask Russian Douma For Liberty.

Think of a woman's rights movement in Russia, of all countries! Ideas along that line have just been put forth. Maybe the ideas never will be put into effect until a police made czar is replaced by a machine made president, but in themselves the ideas are distinctly interesting. A petition has been received by the douma from Mohammedan women of Orenburg province, demanding that the Mohammedan deputies take steps to free the women from the despotism of their husbands and give them their share of the privileges granted by the emperor to the people. "Although our holy religion," reads the petition, "declares us free, some of the ignorant despots, our husbands, are oppressing us and force us slavishly to submit to their caprices. By the book of doctrine women have the right to learn, to travel, to pray in mosques, engage in business, become nurses, etc., and in Arabia and other countries there have been noted women writers and poets. Now, our husbands would forbid us even to study our own religion. But we Mohammedan women, Allah be praised, now begin to receive education and to understand our holy Chariat (book of doctrine), which did not deprive the women of any right. Mohammedan deputies, you are obliged to demand all rights for Mohammedan women! You must carry through legislation defending us against the arbitrariness of these despot husbands, against oppression and torture! We, mothers of the people, have in our hands the education and progress of the people, and if our status be not changed the day will come when the men, too, will become slaves, and then the whole Mohammedan world will perish."

Beautifying the Railways.

In the west there is a growing appreciation of the movement to beautify the steel highways, a movement now in popular favor and under full swing on the Atlantic coast. Both steam and electric lines in Los Angeles are each year giving the matter more time and attention. It is a highly contagious work, for it stimulates both towns and rural districts to clean up and plant streets and highways as well as to improve private places. We shall yet see the day when all railway embankments will be permanently planted with suitable shrubbery.

Standing by Des Moines.
The Des Moines Daily News runs at the top of its first page the significant words: "Once a Booster, Always a Booster! Don't Forget to Ask For Des Moines Made Goods!"

HEALTH AND BEAUTY.

Women with sensitive feet who must be on them much frequently suffer from callous spots on the soles. These can often be relieved by wrapping the feet in adhesive plaster, taking care that it is put on smoothly and without a wrinkle. This plaster will cause moisture and perspiration, which will finally soften the callous places so that they disappear.

Egg shampoo is done by adding a tablespoonful of soft water to each raw egg and beating the two together. Usually two eggs are enough for a good cleaning. The mixture is rubbed thoroughly into the scalp and over the hair before applying water and is washed off in several different warm waters, using no soap. It tends to make the hair light and fluffy.

The nerves of the head and the stomach are in close sympathy with each other, and when one is attacked the other joins in. Sick headache is due to overwork or overtaxing the stomach. Avoid constipation. Various remedies help various persons. One that is good for one person will not help another. Some find relief in cold applications to the forehead; others find hot applications are more beneficial. It is best to give up and lie down.

A Logical Sentence.

A lawyer defending a man accused of housebreaking said:
"Your honor, I submit that my client did not break into the house at all. He found the parlor window open and merely inserted his right arm and removed a few trifling articles. Now, my client's arm is not himself, and I fall to see how you can punish the whole individual for an offense committed only by one of his limbs."
"That argument," said the judge, "is very well put. Following it logically, I sentence the defendant's arm to one year's imprisonment. He can accompany it or not, as he chooses."
The defendant, with his lawyer's assistance, unscrewed his cork arm and, leaving it in the dock, walked out.

Every time the president gets hold of a coin bearing the motto he will be reminded of another trust that refused to stay busted.

The more belt our warships have the more belts they can take from the enemy without being done up.

Generally.
"Why do you women talk so fast?"
"To keep from being stupid. We don't like to be stupid."
"Why?"
"It is so mannish, don't you know?"

TOWNE IS CANDIDATE.

New Yorker Wants to be Bryan's Running Mate.
(By Associated Press.)
CHICAGO, July 1.—Charles A. Towne of New York, arrived in Chicago last night en route to Lincoln to confer with W. J. Bryan. Towne announces that he is a candidate for the vice-presidency nomination.

MYSTERY IN CHICAGO.

Unknown Woman Found Strangled In Tenement House.
(By Associated Press.)
CHICAGO, Ill., July 1.—The body of a woman, aged 35, with the hands and feet tied with ropes was found in a room on the third floor of a rooming house at 1242 Michigan avenue. Finger marks on the throat indicate that she was choked to death.

ALLEGANY NOTES.

Mrs. Baker and Mr. and Mrs. McCloy came overland to visit at the Gould home during the wedding.

Little Henry Bremer went to Elk Horn ranch to care for the ranch so that Mr. and Mrs. Gould could come to Riverside.

Misses Lucy and Millie Gould and Mr. and Mrs. A. N. Gould went to Marshfield on the Alert Wednesday evening to be able to go to Coquille Thursday.

Mrs. Galbraith and daughter Alice of Baker City, are at Allegany visiting. They attended the Rose carnival in Portland. It will be remembered that Miss Ethel Galbraith was drowned in Coos River at Allegany two years ago. She was a daughter of Mrs. Galbraith.
