

MANY DIVERSIONS FOR THE FOURTH

Coos Bay People Will Celebrate July Fourth Tomorrow In a Great Variety of Ways.

- FOURTH OF JULY ENTERTAINMENTS.
- Marshfield races at 2 o'clock in the afternoon.
- Eagles celebration at Ten Mile, boats leaving Marshfield at 5 o'clock in the morning.
- Celebration at Coquille, North Bend and Bandon ball teams playing there at 10:30 in the morning and Marshfield and Coquille in the afternoon.
- Hundreds will go to Charleston and Sunset Bays, the beaches, and up Coos River with various picnic parties.

Coos Bay people are planning to celebrate the Fourth of July tomorrow in a variety of ways as indicated above. Many of the business houses will be closed all day but some of them are planning to remain open until noon.

In Marshfield, the event of the day will be the races in the afternoon, the entries for which are given in The Times elsewhere. A fine card is said to have been prepared and that every lover of the races will be more than satisfied if the weather man will be generous and permit them to do their best.

Eagles Will Picnic.

The Eagles are planning for a gay time at their picnic at Ten Mile tomorrow in which nearly all of the Eagles and their families in this section are planning to participate. The joys of the day will more than recompense the excursionists for having to arise early in order to catch the boat which will leave the dock in the rear of Wolcott's grocery at 5 a. m. tomorrow morning.

There will be picnic parties galore, both branches of Coos river, the north fork of the Coquille, Charleston Bay, Sunset Bay and the beaches being some of the objective points. Young and old will participate in these.

The edict of Marshal J. W. Carter today that the discharge of fireworks and fire-crackers in the city will result in the arrest of the boys or parties responsible, unless they have a permit from the city officials, is likely to dampen the ardor of some of the enthusiasts whose idea of celebrating is to make as much noise as possible. The order was necessary to prevent possible fires, the danger tomorrow being great on account of so many being absent from their stores.

FORBIDS SHOOTING

FIRE-CRACKERS IN CITY

Any one found firing fire-crackers or fireworks in the city without a permit from the city officials will be arrested and fined. This is a necessary precaution to prevent fires and will be strictly enforced.

Large Number of People Give Up Lives For Celebrations—Guard Against Lockjaw.

All over the country, cities, towns and families are today preparing for the Fourth of July celebration. The work is both offensive and defensive. It is offensive in that it is disagreeable, noisy, bad smelling and dangerous. It is defensive in that prudent mothers and prudent physicians and undertakers are preparing poultices and plasters, lint and surgical instruments, hospitals and coffins for the slain, and the wounded of that dreadful day. In the matter of foolish and foolhardy celebration the United States on the Fourth of July takes the cake.

The Surgeon General of the Army has caused a circular suggesting precautions against tetanus, or lock jaw, the inevitable Fourth of July epidemic. In the last five years there have been 786 cases of tetanus as the result of our Independence Day celebration. 721 have died. 608 of these deaths resulted from blank cartridge wounds—the blank cartridges are mistakenly supposed to be harmless. The warning gives the following explanation of the origin and operation of the tetanus bacillus.

The bacillus of tetanus or its spore form, is found in earth, especially garden earth, stable manure, the dust of the streets, stables and human habitations. The feces of healthy animals, such as the horse, cow, dog, and even man, may contain tetanus spores.

Lockjaw and Its Cure.

When tetanus spores are introduced under the skin, they at once germinate, if oxygen is excluded, and begin to elaborate tetanus toxin. In a short time it appears in the blood, which carries it to all parts of the body, where it is absorbed by the motor nerve endings which are bathed in the toxin-laden fluid. The nerves supplying the jaws, especially the masseteric, seem to have an exaggerated affinity for the poison, which explains the early trismus.

The following treatment for

Fourth of July injuries is suggested: "Incise freely every wound. Carefully and thoroughly remove from the wound every particle of foreign matter. "Cauterize the wound thoroughly with 25 per cent carbolic acid. "Apply loosely a wet pack of 25 per cent carbolic acid. "Give a full dose of antitetanic serum.

MARAUDER FRIGHTENED OUT OF WM. COX HOME

Coughing of Child Causes Unknown Man to Give Up Attempt to Force Entrance Into Rooms.

Mrs. Wm. Cox, whose husband was formerly employed at the P. K. was awakened about 2 o'clock this morning by someone trying to force an entrance into one of the rooms of their home in the rear of the O'Connell flats. She was alone with two children at the time and was afraid to try to do anything, the door to her bedroom being locked. Finally, one of the children began to cough and frightened the marauder away. He left hastily but Mrs. Cox was able to get a glimpse of him. After leaving the Cox home, he entered the yard of a neighbor and stood there for several minutes. Nightwatch Shope was called but the miscreant had disappeared when he arrived.

THE MELROSE restaurant, near the postoffice, serves the best coffee on Coos Bay.

Getting Ahead Of The Sluggards

"PLOW deep while sluggards sleep, and you'll have corn to sell and keep," wrote Benjamin Franklin. If there is any feature of your life or business which has never been properly exploited in the advertising columns of the newspapers the opportunity is open to you to profit by Franklin's suggestion. Many of the rich men of today were the pioneer advertisers in their respective fields not so many years ago, turning the virgin soil with the plow of publicity while their sluggish competitors restfully clung to the antiquated sales methods of another generation. "Plowing deep" is an advantageous policy under any circumstances; but it is ten-fold remunerative if the chance offers to do the plowing before others begin.
