

# MARSHFIELD, OREGON

July 1st, 1908

purchased the stock of the Pioneer Hardware Company, Marshfield, Oregon, formerly owned by O'Connell, E. K. Jones, and others, and managed and control of same. It is my earnest endeavor to please all my customers the way of good goods, low prices and treatment.

My experience in the retail business in your city, as well as my late experience as salesman on the road for Baker & Hamilton, of San Francisco, combined with my vast facilities for handling goods, enables me to purchase my goods and have them in your hands at a much lower figure than other dealers.

I wish to establish myself and get in touch with you. I will, for the first thirty days beginning July 1st, 1908, make a special 10 per cent reduction on all purchases.

Respectfully yours,

**RANK E. HAGUE, Mgr.**

### CANDLE EXPERIMENTS.

Some Curious Things Scientifically Explained.

Get a large tallow candle with a thick wick, and, having lighted it, let it burn a little while until the wick is quite long. Care should be taken to keep the candle shielded from the draft, so that the wick may remain straight. Now blow the light out suddenly, and a stream of smoke will rise from the wick. This smoke is the gas that makes the candle burn, and to prove it touch a lighted match to it immediately after blowing out the candle, when the gas will ignite and the flame will run down in a stream and relight the wick, just like a jewel dropping from the air. The match should be held about half an inch above the wick, but by experimenting you may be able to increase the distance, allowing the candle to burn a little while before each trial.

Now make another experiment. Let the candle burn until the burned wick is quite long, as before, and then, having blown out the light suddenly, hold a piece of wire gauze down over the wick so that the smoke will rise through the meshes of the gauze. Then hold a lighted match to the smoke above the gauze, and the smoke will ignite, but the flame will not go below the gauze. The reason is that the wire carries away the heat so rapidly that the flame is put out.

That the flame will not go through the wire gauze may be shown by holding the gauze over the candle while it is burning, when the flame will spread over the lower surface of the gauze and not a bit of it go through. It is this principle on which the miner's safety lamp is constructed.

### ABOUT MR. HOPTOAD.

Among Other Accomplishments He is a Musician.

It is very pleasant to have a family of toads living under one's front doorstep. They are very social fellows, and their antics are so funny that it is amusing to watch them. Children should never injure or frighten toads, as they are very useful as well as interesting.

All day long a toad will lie half covered with sand or dirt, and as his coat is dust color you may look right at him and not see him, but as soon as the sun sets he comes forth to get his supper of flies and bugs.

Toads should always be encouraged to live in the garden, for they do a great deal of good there, says the Circle. Almost any farmer will tell you that he would rather have a toad to pick off the bugs and worms that destroy his plants than a boy.

The toad is also a musician, and this you probably did not know.

When the spring song of the frogs down in the swamp is at its height and all are piping away with might and main, you may hear one song, loud and shrill, which trembles like a whistle with a pea in it. It is the loudest and most persistent of all the frogs' songs, with the possible exception of that of the piping frog. The noisy musician is none other than our friend, Mr. Hoptoad. If you can discover him in the act, you will see that he puffs out his throat until it looks as though it would burst; then he sends forth his shrill, tremulous song.

### Origin of an Old Saying.

Perhaps the oldest of familiar expressions is "cut a dido," which is said of a person when he plays a sharp trick. The phrase goes back to 800 years before Christ, when Dido, queen of Tyre, after the murder of her husband by her brother fled from that city and established a colony on the northern coast of Africa. She bargained for as much land as could be surrounded with a bull's hide, and in order to claim as large a tract as possible she had the hide cut into narrow strips, and on the land thus surrounded she built a citadel. The natives, seeing that they were outwitted by a woman, quietly submitted to this cutting up of a dido.

### Their Master's Voice.

His bark is worse than his bite.—St. Nicholas.

**Dreams.**  
Where do the dear dreams come from,  
The big, big dreams and the small,  
When I go to sleep,  
When I've counted sheep,  
And the last's jumped over the wall?

**Sometimes I'm a fairy princess**  
With lots of beautiful things,  
Sometimes I just stand  
In Faraway Land,  
And a little bird sings and sings.

**Maybe I sail on the ocean**  
In a ship with silken sails,  
Or maybe I go  
Where gold apples grow  
In the loveliest, greenest dales.

**Where do they go, I wonder?**  
I never can tell, you see,  
I wake in my cot,  
And they're half forgot  
When my mother comes in to me.  
—Youth's Companion.

## CURRY GETS PHONE LINE

### Gold Beach Men Subscribe Money to Get Connection With Outside World.

GOLD BEACH, Ore., July 7. — Great interest is being taken in the work of the local telephone stock company, which is constructing a line from Gold Beach south. Much dissatisfaction has for a long time been felt with the old line which connects Curry county with outside communication by way of Gold Beach north. There is no telegraph line in the county, and excepting by mail, no communication can be had concerning the doings of the outside world but by this line. The service is so poor that the line almost invariably fails when most needed. At the time of the primaries it was down, and again a few days ago, when all were anxiously awaiting the decision of the Chicago Republican Convention.

Last January the Southern Curry Telephone Company, a home enterprise, was organized and the by-laws were published the latter part of the same month. The line is to extend from Gold Beach to connect with the line at Crescent City, Cal. The capital stock of the company, \$4,000, was soon sold. E. A. Bailey, County Judge, was elected president; Dr. J. Schliemann, secretary and treasurer, and W. J. Ward, who is agent and representative here of the Brooking Lumber Company, was chosen manager. All are directors, acting with W. J. Cooley and Delmer Colegrove, of the southern part of the county. Poles are being set from both north and south. It is intended to push the work as rapidly as possible.

### ENFORCE FRUIT LABEL LAW.

#### Inspector Armstrong Gives a Fair Warning to All Growers.

SALEM, Ore., July 8.—That fruit growers and shippers must obey the law requiring the marking of boxes, is the determination of Fruit Inspector E. C. Armstrong, of Marion county, and it is understood that concerted action along this line will be taken by horticultural officers in all parts of the state. The purpose of the law enacted in 1907, is to provide a means by which the name of the grower of diseased fruit may be ascertained. Then, too, if the name of the packer must be placed on the box, greater care will be taken in sorting and packing, thus securing a higher grade of fruit, aside from the question of fruit pests.

Mr. Armstrong today gave to the press the following warning to growers, packers and shippers of fruit:

"Your attention is called to the law of this state enacted in 1907, relating to the marking of fruit boxes. Under the provisions of this law every person, firm, association or corporation engaged in growing, packing or selling green fruits in Oregon is required to mark, stamp or label plainly on the outside of every box or package when packed, the name and address of the packer, and if the packer is not the grower, the name and address of the grower as well as of the packer, must appear prominently upon the box or package. It is made unlawful for any merchant, shipper or vender to represent that any green fruits were raised, produced or grown by any other person than the one who actually raised them or that they were grown in any other place or locality than that in which they were actually grown. Any violation of this law is punishable by fine or imprisonment or both and the possession for the purpose of sale of any falsely or illegally marked box or package is the violation of the law."

### EDMUND CLARENCE STEDMAN.

**F**RIEND of us all and the maker of lyrics that touch and soften the heart,  
Heartfelt and lavish of fancy and beauty that golden tripped cadence impart,  
Fallen in Azrael's shadow and borne to the islands unknown  
New poetry loses her lover and letters a knight from her throne.

A voice that could thrill and encourage,  
yet winnow the chaff from the wheat,  
This is now not another so genial, so tenderly earnest and sweet.  
Yet it leaves as a monument, greater than stoniest marble can show,  
Rare, garnered fruits of his fancy, of music and tintful glow.

Last of the troubadours early, loyal to truth and the past,  
Seeing the beauty and wonder of song and its crystalline cast,  
We feel that a seat is left vacant, a voice is made suddenly still,  
And a prophet has gone from his forelook,  
which no one hereafter shall fill.

Bad is this sorrow of letters and loss to the loftiest art,  
But we, who knew him in lifetime, from something still greater must part,  
Not merely the critic and poet, suddenly risen above  
From this weariful world's dark troubles,  
but one who had dowered us with love.

## OREGON FORESTS ARE BEING REDISTRICTED

### NO ADDITION TO FOREST AREA IS INVOLVED IN THE COMPREHENSIVE PLAN OF THE FOREST SERVICE—FULL DETAILS OF THE REARRANGEMENT AGREED UPON.

WASHINGTON, D. C., July 10.—The second step in the comprehensive plan of redistricting the National Forests in the western states has just been made by the President in signing executive orders which will change the names and boundaries of the forests in Oregon. The only other state in which these plans have been completed is Idaho, but it is expected that the work of redistricting in all the National Forest states will be finished and the changes announced in the next few days.

No addition to forest area is involved in the plans for redistricting in any of the states of the Northwest. The object of the work is to equalize the areas of administrative units and to arrange their boundaries in such a manner as to promote the most efficient and practical administration of the forests. It will enable officers of the Forest Service to give prompt attention to all forest business and further the interests and add to the convenience of stockmen, lumbermen, miners and all other users or settlers in the National Forests. The Oregon National Forests which will be effected by this rearrangement are as follows:

A new forest to be known as the Umatilla will contain 550,176 acres and will consist of all of the Heppner and of the northwestern portion of the Blue Mountains Forest. It is located in Morrow, Umatilla, Grant and Wheeler counties. This forest will continue to be administered by Supervisor Thomas E. Chidsey with headquarters at Heppner, Oregon.

The forest to be known as the Whitman will have an area of 1,264,739 acres and will consist of the northeast portion of the Blue Mountains Forest which is in general the area formerly known as the "Blue Mountains (W) National Forest." It is located in Umatilla, Union, Baker, and Grant counties and will be under the administration of Supervisor Henry Ireland with headquarters at Sumpter, Oregon.

The new Malheur National Forest is what has been formerly known as the "Malheur Division of the Blue Mountains," and will embrace 1,183,458 acres. It consists of the southeastern portion of the "Blue Mountain (W) Forest" and is located in Umatilla, Union, Baker, and Grant counties. This forest will continue under the administration of Supervisor Cy. J. Bingham with headquarters at John Day, Oregon.

The forest to be known as the Deschutes will consist of that portion of the Blue Mountain Forest formerly known as "Blue Mountain (W)," the northern portion of the Fremont, and certain townships of the Cascade containing 1,475,480 acres. It is located in Crook, Lake, Wheeler, Klamath, Grant, and Harney counties. The forest will be administered by Supervisor A. S. Ireland with headquarters at Prineville, Oregon.

The Fremont National Forest will consist of the southern portion of the old "Fremont" and all of the "Goose Lake" forests and is located in Lake, and Klamath counties. This forest is very irregular in outline and is composed of many segregated areas, the total area of which will be 1,236,960 acres. It will continue to be under the administration of Supervisor Guy M. Ingram with headquarters at Lakeview, Oregon.

The land formerly included in the "Bull Run" and the "Cascade (N)" forest, except that portion south of the Willamette Valley Cascade Mountain Wagon Road, covering 1,788,320 acres, will be called the Oregon National Forest. This forest is located in Multnomah, Clackamas, Wasco, Marion, Linn, and Crook counties and will continue under the administration of Supervisor Thos. H. Sherrard with headquarters at Portland, Oregon.

Cascade will continue to be the name of that portion of the old "Cascade" forest (not included in the Fremont) lying between the Willamette Valley and Cascade Mountain Wagon Road and the middle fork of the Willamette river and West Deschutes river. This forest has an area of 1,845,120 acres and is located in Lane, Linn, Crook, and Klamath counties. It will be administered by Supervisor C. R. Seitz with headquarters at Eugene, Oregon.

The forest now to be known as the Umpqua will embrace 1,698,560 acres and will consist of that part of

the "Cascade (S)" National Forest (which has not been included in the Fremont) between the middle fork of the Willamette river and West Deschutes river and the Rogue river and South Umpqua river divide, also the southern portion of the old "Umpqua" forest. It is located in Lane, Klamath, Jackson, Coos, and Douglas counties. This forest will continue to be administered by Supervisor S. C. Bartrum with headquarters at Roseburg, Oregon.

The Crater National Forest will contain 1,106,802 acres and will consist of the southern portion of the old "Cascade (S)," the "Ashland" and a portion of the "Klamath" and "Siskiyou" forests. It is located in Jackson, Klamath and Curry counties, Oregon, and Shasta county, California. Acting Supervisor C. A. Buck will administer this forest with headquarters at Medford, Oregon.

The Siskiyou will now consist of the greater part of the old "Siskiyou" all of the "Coquille" and part of the "Klamath," and will contain 1,305,657 acres. It is located in Jackson, Curry and Coos counties. This forest will be administered by Supervisor M. J. Anderson with headquarters at Grants Pass, Oregon.

All of the old "Tillamook" and "Umpqua" forests, except the southern portion of the old "Umpqua," embracing 973,918 acres, will be known as the Siuslaw National Forest. This forest is located in Tillamook, Lane, Douglas, Coos, Lincoln, Polk, and Yamhill counties. Supervisor A. E. Cohoon will administer this forest with headquarters at Eugene, Oregon.

The Willowa is the forest formerly known as the "Imnaha." It contains 1,750,240 acres and is located in Willowa county. This forest will continue to be under the administration of Supervisor Howard K. O'Brien with headquarters at Willowa, Oregon.

The Forest Service desires to reduce the area of the average administrative units to approximately 1,000,000 acres. This was not possible in all cases as is shown by the fact that under the plan of redistricting there will be 144 supervisors in the United States who will administer more than 167,000,000 acres of National forests.

### COQUILLE CULLINGS.

#### News of Interest in the Valley as Told in The Herald.

Mrs. J. M. Nye of this city, who was seriously ill for some time, is very much improved of late.

Chas Dye was in town carrying his left arm in a sling, having inflicted a severe wound in that member with an ax.

Mrs. R. M. Weeder of Marshfield, accompanied by her daughter, Mrs. Fred Tuttle of Bandon, passed through town for Bandon.

Mrs. J. B. Dullej has returned from Portland where she went to see her daughter, who was ill, but who was better when she left her.

J. H. Snyder and nephew, Grant Bunch, started immediately after the 4th for Mazinna, Nevada, where they will engage in mining for a few months at least.

Rev. W. S. Gordon went to Bandon Monday where he is looking after the construction of an eight-room parsonage for the Methodist church in that place.

Capt. C. H. James has closed a deal with Captains H. W. Dunham, of this city, and R. W. Panter of Bandon, transferring to them his steamer line of the upper river.

Mr. and Mrs. H. J. Rice of Marshfield, came over the latter part of the week to visit with Mrs. Rice's parents, Mr. and Mrs. T. A. Walker, and celebrate the 4th in Coquille.

Miss Nellie Fairman has returned from California. She lately graduated from the state normal at San Diego, and has a good position at Stockton where she will open school in September. She will visit with her parents, Mr. and Mrs. J. W. Fairman, at Johnsons Mill, and friends here till time to start school.

A little forethought may save you no end of trouble. Anyone who makes it a rule to keep Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand knows this to be a fact. For sale by JOHN PREUES.
