KEEP TAB ON MOUTHERS.

Frank Hitchcock, the supreme manager of the Republican presidential campaign has inaugurated a clever scheme to rate and register the effectiveness of the orators who are to be sent out over the land in behalf of Mr. Taft and keep sharp tab on their efficiency and specific faculties.

The idea is suggestive of a universal proposition to keep close tab on all the moutthers, especially in the smaller and local sense of the brag-garts and blow-hards who infest every community in the land to the general unhappiness and disfavor and discomfort of those who have to live in touch with them.

If every community would set up a board of censors with autocratic power of declaring and publishing these abominable nuisances, it might tend to the wide relief and peace of those who suffer socially, commercially, and generally, from their everlasting yawn. The irresponsible mouther, the man who butts in with his lip and tongue and his half-baked estimates of men and plans and prospects, is among the worst of all known communal evils.

ORGANIZATION OF FIELD DISTRICTS, FOREST SERVICE.

Plans for the Forest Service field headquarters which are soon to be established in the west are being rapidly worked out in detail. Each headquarters will be modeled after the Washington office. In all there will be six district headquarters, one located at each of the present inspection district headquarters—Portland, San Francisco, Albuquerque, Salt Lake, Denver, and Missoula, Montana, or some other points equally well or better located for the purpose.

At the head of each office there will be a district forester and an assistant district forester. Under these will be experts in charge of the various lines of work. A chief of grazing will have charge of range matters. A chief of products will handle the preservative treatment of timber and strength tests and study market conditions. A chief of lands will look after such matters as land examinations. The office of lands deals with questions involving the validity of claims asserted under the public land laws; applications for special use of the resources of the national forests; changes in boundaries of forests, and the examination of lands applied for under the act of June 11, 1906, for agricultural settlement.

The forest service, however, never passes on the titles themselves. That is entirely a matter for the General Land Office to decide. In the case of applications for homesteads under the act of June 11, 1906, the forest service is called upon to decide whether the land is in fact more valuable for agriculture than for timber, and if it is, to recommend its listing as open to entry and patent. In the case of claims the service ascertains whether any facts exist which seem to show that the claim is not a legal one, in order that National forest land may not be unlawfully taken up. But it rests always with the Land Office of the Interior Department to decide whether the title should or should not be granted. The branch of lands in the district forest service organization does not mean any new assumption of land business.

There will also be in each district a chief of silviculture, who will have charge of timber sales, planting, and silvicultural experiments, and a chief of cooperation. The latter will supervise the personnel of the forests; the permanent improvement work, through an engineer in charge; the accounts

GOOD EVENING. We are rich only through what we give and poor only in what we refuse to give. Madam Swetchnie.

A Good Time. I've had a good time. Life came with rosy cheeks and tender song Across the morning fields to play with me, And, oh! how glad we were, and romped along And laughed and kissed each by the sea.

I've had a good time. Love came and met me half-way down the road; Love went away, but there remained with me A little dream to help me bear my load, A something more to watch for by the sea.

I've had a good time. Death came and took a rosebud from my yard; But after that, I think there walked with me, To prove me how the thing was not so hard, An angel here, of evenings by the sea.

I've had a good time. A good, good time. Nobody knows how good a time but me, With nights and days of revel and of rhyme, And tears and love and longing by the sea. —Mounce Byrd.

It is good policy to leave a few things unsaid. Every trade and profession requires its whole man.

Co-operation — not competition — is the life of business.

Carry your chin in and the crown of your head high.

Be content with your condition, or else improve it.

Work for yourself by working for the good of all.

The voice should be the sounding board of the soul.

Think less about your rights, more about your duties.

The sweetest thing on earth is the pleasure of pleasing.

Action will remove the doubt which theory cannot solve.

Aim high and consider yourself capable of great things.

Think twice before you speak, and then talk to yourself.

Those who do the most in the world are those who love most.

The man who pursues pleasure will never catch up with her.

Take off your hat to the man who minds his own business.

It is what we think and what we do that makes us what we are.

They Needed Other Things. Like most minister's families, they were not extensively blessed with this world's goods. She, however, was the youngest of ten children un-

der of the district, including receipts, disbursements, and bookkeeping, which will be directly supervised by an expert accountant; and the routine business of the district.

In each of the lines of work the management will be in the hands of a man who is a specialist and who has had thorough experience both in the west and in Washington. The foresters and clerks at each district headquarters will number about fifty.

The establishment of these field districts will bring the service into more immediate touch with the public. It is merely the completion of the movement, started sometime ago, to have the forests administered as far as possible by men actually on the ground.

The change will not affect the investigative work of the service, which will center, as hitherto in Washington. Mr. Pinchot is expected soon to name the men who will fill the various positions.

til her father explained to her of the baby sister who had come in the night. "Well," she said, after due thought, "I 'pose it's all right, papa, but there's many a thing we needed worse."

Elizabeth's mother did not teach her little daughter much that she should have learned about religion; nor did the father.

The other day a guest said to the little girl: "Elizabeth, does your father say grace at the table?" "What grace?" returned the girl innocently.

"Why, thanks for what you have to eat." "Oh," replied Elizabeth, now enlightened. "We don't have to thank any one for what we have—we always pay cash."

Saving Them Trouble. "It is not only a money saving device, but it will add materially to the comfort of the entire race." "What is this benign invention?" "A scheme to put tan on the face and arms by electric light. Then the girls will not have to go to all of the bother of living a week in the country."

Not a Bargain. "See that shabby old man holding the horse?" "The one with the whiskers?" "Yes. He is worth a million dollars." "Might be worth that to some people. He wouldn't be worth 30 cents to me if I were out buying good men."
