

Practice Clothing Economy By Buying an Oregon Buckskin at \$12.50

To a few men the dollars come so easy that they do not consider the price when buying an article; but these men are scarce. To the great majority of people the dollars are worth looking out for, and when a suit can be bought at a substantial saving it's well worth while. To these people we strongly advocate buying during this sale. An "Oregon Buckskin" at the sale price gives a man not only the best possible suit, but it also leaves him several dollars extra money to jingle in his pockets.

Special Sale Price \$12.50

A Woolen Mill Store is the logical place to buy
Woolen goods such as Underwear, Overshirts, Sox, Blankets, Etc.

Just as naturally as you go to a spring for water you turn to the Woolen Mill Store for the best values in woolen goods of every description. "From the mill to you" and no middlemen's profits to pay is what makes the value giving possible. See the point?

BOYS CLOTHING

In our endeavor the past few days to impress the values in our sale on "Oregon Buckskin" men's suits, we forgot to tell the boys of the rare bargains we have in store for them. But the truth is of all seasons the boys' will be boys' home. Snappy things in boys' wear are arriving on every boat. This season the store is beginning to look like a pleased—never have we seen such well made, stylish suits—and, boys, remember that we give presents here. Balls and bats, knives and watches, all are free with boys' suits.

We aim to treat the boys well—they'll all be men some day, and we want them for the Woolen Mill Store's boosters.

TOWN MADE BY GOOD ROADS.

A Vliets (Mo.) Banker Says His Village is a Success Too.

Good roads are so important a thing to farmers that in one town in Missouri the farmers made a town to order at the place where the roads appeared to be best. Railroad officials said there was no room for another town between such good places as Vermillion and Frankfort, only ten miles apart, but the farmers insisted. So Vliets was established, town "171a," on the road to Kansas City, because it was between 171 and 172.

W. T. Bucks, banker and grain man of Vliets, was in Kansas City the other morning and says that every one agrees the town is a success.

"Although our population is only 100," he said, "we handle from 300,000 to 400,000 bushels of grain every year in two elevators, one with a capacity of 18,000 bushels and another of 16,000."

MUNICIPAL CLEANING.

Excellent Practice That Should Be Made Permanent Custom.

It has become quite a fad in southern California to proclaim and observe certain days as cleanup days, especially in our smaller cities, our towns and villages. On these days the mayor, council, trustees, board of health or some constituted power or authority has asked the residents to clean up their yards and the streets and alleys abutting, to beautify their premises, plant and care for street trees and strive in every way to make their community more attractive and healthful and therefore more valuable from a realty point of view.

The idea is a most excellent one and should be encouraged in every way. These public workdays should be observed in every community in our land and should be made permanent, setting aside one day each month or one day each quarter in which all should aim to make the place more livable. Municipal health and beauty mean wealth both collectively and individually. Home seekers are not attracted by dirty and slovenly municipal housekeeping. Cleanliness means or is capital, and it has been observed that the greatest growth of population has been in those centers made the most healthful and attractive, and this through zealous, well directed co-operation.
