Between Safety and Danger

your Fire Insurance Policy always stands to protect you from loss. One never knows how soon the fire demon may visit and put the once happy home into a charred heap of ruins. What a blessing is a good Policy in such an event! How cruel it seems to be without one when all is lost! This is your own fault. It costs you little per annum to be all the time protected. If you fail to secure this protection the fault is yours alone. See
