

REASONS WHY

The Taylor Piano House Sells So Many Pianos

FIRST—The pianos we sell are worth the money and give perfect satisfaction.
SECOND—Our prices are the lowest and our terms the easiest.

One Price to Everyone is our motto.

WE DO NOT BELIEVE in asking \$500 or \$600 for a piano that should be sold for \$300. We have never tried to mislead the Piano Buying Public by pretending that we have the only High Grade Piano on the market. But we do claim that the pianos we sell on easy payments have merits equal to any sold in this county.

For Instance, the Hardman

which has been on the market for over seventy years, and which is used by the very best musical talent in the world. Caruso, the world's most famous singer, uses the "Hardman" piano and endorses it very highly. It has the Wessell, Nickell & Goss Action. One of the best actions that is made in the United States, and used in such pianos as the Knabe, the A. B. Child, and other leading makes that would cost twice as much money as we are asking for the "Hardman."

We also have the Price & Tepee

a piano that has no equal in piano merits for the price at which we are selling it. It has the style 16 Imported Felt Hammer and metal flange in the action. Brass hinges and brass pedals, which has the advantage over others, as it will not tarnish in this damp climate.

We have sold over 40 pianos in this County

WITHIN THE LAST YEAR, and will be more than pleased to refer any person thinking of buying a piano, to any of these satisfied customers.

Our Graphophone Department is always open to the public for a resting place while down town.

A LARGE SELECTION of records both for Columbia and Victor always on hand. We have an especially large selection of Cylinder Records at 25 cents apiece.

Our 10c and 15c department is always pleasing to the women and children, as they can always find here just what they are looking for.
