#### NEW ROSES.

According to La Nature, a Paris publication, the mythical blue rose will soon become an actuality. For years and years horticulturists have been trying by grafting and other methods to develop a rose with in- for it. digo petals, but none has ever approximated success.

At last, however, an English expert, who has been trying for the blue coloring, has succeeded in growing a flower which leads botanists to believe that the desired shade will be reached within a few years. This Englishman had on exhibition at a recent show in the Regent Park Botanical Gardens, London, the strangest rose that has ever been produced. At the base the petals self. are inky black, fading into a very dark cherry at the tip. The black rose is the result of several years careful nurturing, being the offspring of a half hundred different varieties of the flower. That with proper crossing the black may be changed to blue, seems probable.

The new black rose is a perfect representative of its family, being about half the size of a matured American Beauty, and possessing the familiar rose odor. During the last three or four years, rose specialists have succeeded in growing an aston-Ashing number of new varieties. Nearly a half thousand new members have been added to the great family. Almost every color except the various shades of blue has been obtained, an in point of size the different kinds range from great roses as large as chrysanthemums to midgets which do not exceed in petal expansion the ordinary violet.

### RIGHT KIND OF BOOSTING.

An exchange advises everybody to boost, but in connection with the advice offers the information that it may be well to remember that boosting consists of something more than to be done in zephyr and cardboard mere talk. Talk is cheap, but talk with action is what wins results. Boost individuals as well as general affairs. Whenever you see an honest man struggling to get ahead in his business, lend him a helping hand. Whatever benefits him benefits the whole community, and as you are one of the whole community, it benefit won. Get out of your crust of selfishmess. Pat your neighbor on the shoulder and say to him: "Take courage, I am with you and will help you to win out." Open your heart and lend a helping hand. It does not Wrurt you and does lift up someone else. So shall you become-not a "prominent citizen" perhaps-but a good citizen in the broad sense of the word. Sowing the sunshine is a more profitable job than most people realize. There is much more than blue eyes you run against," sentiment in it. There are solid rewalts. The disheartened man takes usp burden with determination to win. Other men feel the influence of the summine and work more heartily, and the whole community feels the good effects.

ATTENTION there will be a Camp of Royal Neighbors of America organized here at the Finnish Hall, the eve of Oct. 13, 1908, by District Deputy Mrs. Clara E. Mills. We have secured a large charter-list and cor- b For ....... dially invite all Royal Neighbors | as on this occasion.

A Modern Love Song. O! shining sun! O day begun! Hear me my vows renew love my love all loves above! Come, darling, K. M. Q.!

Let poets sing in words that ring Of Cupid's fickle craze, But poet's speech cannot impeach My darling's H's and K's.

I pine! I pine! O, love of mine, I pause but to pursue! Turn not aside, my joy, my pride,

But, Angel, K. M. Q.

The flowers fair are blank despair, Life's spark goes with the day, But beyond all death endures the -breath

And the baim of thy H. and K.

O. K. M. Q.! O. K. M. Q.! O. K. M. Q. always!

Since I must die, then die will I In the swoon of thy H's and K's. ANON.

-Saturday Evening Post.

In a certain village the minister was in the habit of calling at the school and putting the scholars through their paces. One day he was cross questioning a boy, when he happened to ask him if there were any prophets nowadays. This was a poser for the youth as well as for the whole class, and a dead silence son of a pushing tradesman, extended his hand eagerly toward the min-
